CONGRESS FACES CRUCIAL SESSION ON WAR ISSUES

Roosevelt Message to Chart Course.

BY ARTHUR SEARS HENNING.
[Chicago Tribune Press Service.]

Washington, D. C., Jan. 4.—When the second session of the 77th congress begins at noon tomorrow the executive and legislative branches of the government will come to grips with the colossal undertaking of waging the greatest war in history.

The legislation enacted during this session and the degree of efficiency of administration achieved by the executive will influence profoundly the course of the war and the welfare of the country during its conduct and after.

The session will begin with congress and the country looking to the President for the leadership that will bring about the defeat of our enemies in the shortest possible time with the least expenditure of man power and material resources.

Message Affords First Test.

The first test of that leadership will be afforded by Mr. Roosevelt's message to congress on Tuesday or Wednesday. In this message, the most momentous a President has addressed to congress in a quarter of a century, Mr. Roosevelt is expected to present his conception of the struggle for existence into which the nation has been precipitated and of the ways and means to win it.

As his annual report on "the state of the union," required by the constitution, the message properly will be a review by Mr. Roosevelt of the events leading to the declaration of war on the United States by Japan, Germany, and Italy.

Properly a part of the message also will be a report by the President as commander in chief of the army and navy on the first month of the war, including the disasters to American arms in Hawaii and the Philippines.

War Plans Signal Topic.

The most important burden of the message, however, will be Mr. Roosevelt's plans for winning the war. These will embrace the program of joint strategy of the United States, Great Britain, Russia, China, The Netherlands and 21 other countries provided for in the declaration of the united nations last Friday and the program for a stupendous production of ships, planes, and arms and the training of a vast army by the United States.

The strategy program is taking form with the British assuming command of all forces in the western Pacific, at the suggestion of Mr. Roosevelt, and the Americans commanding the allied fleets under British supervision. A similar joint high command is to be established in other theaters of war.

Production Report Expected.

While congress will not expect the President to disclose details of strategy, it will look to him for a competent presentation of the program of production, including the steps he already has taken and proposes to take to make the United States the effective arsenal of the allies and whatever legislation he deems necessary to carry out the project speedily.

The United States is being relied upon for the equipment and additional man power required to defeat the axis. Britain and Russia declare their capacity reached in the production of arms.

The United States from now on must equip not only its own forces but help to equip the British, Russians, Chinese, Dutch, Free French, and other foes of the axis and eventually send American expeditionary forces overseas to clinch the victory.

Output Must Be Doubled.

The undertaking to transform American industry into a gigantic arsenal is one so colossal that it challenges the organizing capacity of the President and the men he has chosen to aid him in this field. Less than one-third of the capacity of industry is now engaged in the production of the implements of war. The immediate necessity is the doubling of that output this year.

Arms production is now in the hands of a congeries of conflicting agencies, operating without any central authority and frequently at cross

Week of Feb. 8 Probable Time of Registration

Washington, D. C., Jan. 4 (AP).—The week of Feb. 8 is reported to be officially favored for the first of a series of registration dates at which an estimated 25,000,000 additional men are to be enrolled for possible military or other war service.

Under tentative plans men between 18 and 20, and between 36 and 64 are to be registered in several age groups, the oldest probably last. Feb. 10 was believed in informed quarters to have been recommended for the first of the staggered dates.

Roosevelt to Set Dates.

Details of the arrangements to enlarge the nation's reservoir of man power available for military and other duties are to be announced thru the White House in connection with President Roosevelt's formal proclamation of the new registration dates.

Since congress made all men between 18 and 64 eligible for war services of some kind—with those between 20 and 44, inclusive, liable for military service—local draft boards have been speeding to completion the classification of some 17,500,000 men previously enrolled.

Will Use Voluntary Workers.

Selective service officials said existing machinery, expanded as needed by voluntary workers, would be used to enroll the additional men. Registration cards are to be unchanged, but a new questionnaire has been drafted for possible use to determine more specifically individual qualifications.

An indication that the army was receiving substantial augmentation from another source came during the day from J. J. McEntee, director of the civilian conservation corps. He reported that since the declaration of a limited emergency in May, 1940, about 100,000 CCC enrollees had left the corps either to join the armed forces or take private jobs.

Firemen Get 21 Bark Salute from 20 Dogs in Apartment

Firemen of the 9th battalion received a salute of honor—21 barks—when they arrived to put out a fire in an apartment building at 1834 Prairie avenue last night. They extinguished a $1,500 fire on the vacant third floor and then stopped to acknowledge the dogs' welcome at the second floor apartment of Miss Marion West. The firemen said she told them she had only 20 dogs. One of the dogs barked twice.

CHICAGO SHIVERS BUT IT'S COLDER AT OTHER POINTS

(Picture on page 8.)

Chicago shivered in subzero temperature again last night and waited for colder weather. Forecaster R. E. Gumpf warned that the mercury might drop to between 8 and 15 below zero in the suburbs this morning. But he promised that it would rise this afternoon, probably to 10 or 12 above.

While the city experienced subzero weather yesterday for the first time since last Feb. 19 it was colder at other points in Illinois. The thermometer registered a low mark of 5 below at 7 a. m. in the city.

Ice floes clogged downstate rivers yesterday. Low temperatures reported in the state included -15 at Rockford, -14 at Moline and Kewanee, -10 at Peoria, and -5 at Springfield. Iowa, still digging out after a New Year's blizzard, was colder with a reading of -36 at Decorah, in the northeastern corner of the state.

Otis Skinner, Veteran Actor, Is Dead at 83

(Pictures on page 10.)

New York, Jan. 4 [Special].—America's grand old man of the theater, Otis Skinner, whose career went back so far that he was a veteran actor when sputtering gas jets served for footlights in the Broadway show houses of the gay 90's, died here today. He was 83 years old, and an active force to the last in drama and the literature of the stage.

An attack of uremic poisoning, with which Skinner was stricken Dec. 7 and from which he had been making an apparent recovery, caused his death. With him were his daughter, Cornelia Otis Skinner, and his son-in-law.

An Illustrious Actress.

The daughter, who has won almost as much fame on the stage as her father, both as actress and monologist, is currently starring in a New York drama.

Funeral services will be held at noon Tuesday in the Church of the Transfiguration [Little Church Around the Corner]. Burial will take place in Woodstock, Vt., where Mr. Skinner had a summer home.

The son of a Cambridge, Mass., clergyman, Skinner left home at 19 to join a stock company in Philadelphia, and after two years made his Broadway debut in a fairy piece called "Enchantment." When he paused to write his memoirs a half century later, he counted 325 parts he had played. He had appeared in 38 rôles in 16 Shakespearean plays and had produced 33 plays under his own direction.

Boasted He Was a Trouper.

Skinner was a trouper by nature, and traveled across the country almost every season. In a birthday interview at 75, he referred to himself as one of the last of the troupers and said the present generation knew nothing about it. He promised to be on the road again the following season and he was.

Among his outstanding rôles were Tony in "Mr. Antonio," and Col. Bridau in "The Honor of the Family." The only movie he ever made, "Kismet," was a success. In 1939 he published "The Last Tragedian," which concerned the life of Edwin Booth, whom he knew intimately.

CHINESE CLAIM 52,000 OF FOES FALL IN 3 DAYS

Report Nippon Army Flees Changsha.

(Map on page 8.)

CHUNGKING, Jan. 5 [Monday] (AP).—The Chinese high command announced today 30,000 Japanese were killed and wounded at Changsha yesterday in a battle in which the Japanese offensive against the Hunan province capital was turned into "a catastrophic debacle."

This makes a total of 52,000 invaders declared casualties in three days before Changsha in a slaughter eclipsing anything witnessed heretofore in the nearly 4½ years of bloody fighting in China.

The official announcement said the Japanese were in general and disordered retreat after yesterday's decisive action, in which the invader's 6th division was virtually wiped out. Other invaders, it said, were mowed down when they tried to break thru a Chinese ring of steel thrown around Changsha.

Several high Japanese officers were reported killed in this third and costly attempt by the Nipponese to take and hold the provincial capital.

Four Divisions Employed.

The Chinese communique said the Japanese employed six divisions in the north Hunan campaign, with four divisions— the 3d, 4th, 6th, and 40th —being used in the attempt to capture Changsha.

Buildings of the Yale-in-China university were burned, including the hospital—possibly the finest in central China, the university medical school and the homes of the staff.

Altho encircled, Japanese troops yesterday morning continued to attack the city from the north, south, and east. As the battle raged, Chinese reënforcements arrived, occupied three Japanese outposts and threatened the Japanese left flank.

The Japanese then transferred troops from the southern suburbs to relieve the left flank, but as the reënforcements moved they were subjected to a murderous assault by Chinese artillery fire, which wiped out several thousand of them.

Artillery Shells Japs.

Japanese troops attacking on the east were compelled to withdraw to the north. The Japanese tried to cross the Liuyang and Latoao rivers, but Chinese troops frustrated every attempt while the Chinese artillery poured shells into the Japanese concentrations with calamitous effect.

The Chinese forces staged a counter offensive at dusk Saturday in a driving rain, after which the Japanese made their last desperate attempt to capture Changsha Sunday morning.

Chinese confidence in the completeness of the success was shown in the making of arrangements for foreign correspondents and military attachés to visit Changsha some time before reports of the Japanese debacle there were received.

The Chinese claimed the recapture of Kaoan and Wuning, both important Japanese strongholds.

Invaders' Position Critical.

With the trapped Japanese being cut to pieces, the Chinese announced their forces had gained control of all vital positions along the nearby Milo and Sinchung rivers, and added that the position of the invaders now "must be considered critical."

Chinese forces which cut in behind the Japanese lines were declared to have cut off the Japanese line of retreat on the southern bank of the Milo river.

City Occupied, Japs Say.

TOKIO, Jan. 4 [Official Broadcast Reorded by Associated Press].—The Domei news agency reported Japanese forces today achieved "complete occupation" of Changsha.

The agency said mopping-up operations were completed in the early morning by main Japanese forces entering the city after advance elements had been in control of its suburbs since New Year's day.

[*Saturday a Japanese military official was quoted as saying Changsha was occupied Friday but that the Japanese did not intend to stay "permanently," since, as he put it, their task of crushing Chinese strength there had been completed.*]

HERE'S SUMMARY OF DAY'S BATTLES ON ALL FRONTS

Here are yesterday's developments on all war fronts:

Gen. MacArthur's army shattered another Japanese bombing attack on the fortress of Corregidor, near Manila, shooting down four out of 21 Jap bombers. The Japanese resumed their drive on the American and Filipino forces north of Manila. Gen. MacArthur accused the Japanese forces of occupation in Manila of discriminating against Americans and all other white residents, ordering them to stay indoors or be shot.

On the Malayan front the British withdrew their forces to new positions in the jungles of Perak, 280 miles north of the great Singapore naval base, and were pursued by Japanese mechanized troops. The extent of the British retreat was not disclosed. A new landing was effected by the Nipponese at Weston, on the north coast of Borneo.

Japs Bomb New Britain.

Japanese bombers extended their forays to within 800 miles of Australia, twice bombing an airdrome at Rabaul on the island of New Britain, in the Bismarck archipelago. Eleven planes took part in the raid, which killed several natives.

British flyers made a daylight raid on towns and railway centers in northwestern Germany and the coast of France, swooping low and raking German troops with machine gun fire. The docks at Brest again were bombed.

The day's best news for the allies came from Chungking, where an official Chinese communique said the Japanese had suffered a "catastrophic debacle" in their third futile effort to capture Changsha, capital of Hunan province. The Chinese said 30,000 Japs had been killed or wounded there yesterday, making a total of 52,000 casualties in three days of terrific fighting in which the enemy was caught in a trap and four divisions were wiped out.

Red Army Sweeps On.

On the Russian front, the tale of German defeats continued with the soviet announcement that the important town of Borovsk, 50 miles southwest of Moscow, had been captured by the Red army with heavy Nazi losses. The counterdrive continued on all fronts, said Moscow, and Russian newspapers said a winter line the Germans had established on the southern end of the front had been captured and was being held by the Red army in the face of counterattacks.

In the Mediterranean the British announced RAF bomb raids on Naples, Italy, and in Tripoli, Africa. The Naples railway station and military and industrial objectives were hit. Fighter planes and bombers swept over the Libyan front harrying the axis supply route. Ground fighting in Africa was minor.

Is Portugal Next? Recall of Envoys Stirs British

LONDON, Jan. 4.—The announcement that the British ambassador to Lisbon, Portugal, Sir Ronald Hugh Campbell, is on the way to London, and that the Portuguese ambassador to London has gone to Lisbon, gave rise today to speculation on possible political developments. "Is Portugal next on the list?" the Reynolds News asks. A German broadcast charging the British with bombing a Spanish ship in Spanish territorial waters is regarded as significant.

ENEMY PLANES ARE DRIVEN OFF AT CORREGIDOR

Invaders Start New Attack on Yanks.

(Map on page 8.)

Washington, D. C., Jan. 4 (AP).—American gunners in the besieged fortress of Corregidor shot down four of a squadron of 21 Japanese bombers which hammered desperately again today at the heavily fortified island in the mouth of Manila bay. The Japanese gave up the attack after half an hour.

[*The London Daily Mail today quoted the German controled Paris radio as saying the United States fleet had joined battle with the Japanese fleet in the Pacific. A check of trustworthy sources offered no substantiation of this report.*]

Gen. Douglas MacArthur's radio report to the war department accused the Japanese captors of Manila of giving "especially harsh" treatment to American civilians, as well as discriminating against all white residents of Manila.

North of Manila bay, in Pampanga province, which is defended by MacArthur's American Philippine forces, the Japanese resumed pressure on the defense lines and made air attacks.

The communique said:

"1. Philippine theater: Corregidor Island in Manila bay sustained another attack by heavy Japanese bombing planes last night. Twenty-one enemy planes attacked the fortifications for half an hour, causing only minor damage to installations and inflicting slight casualties. Four enemy bombers were shot down and others damaged by our anti-aircraft batteries.

All Must Stay Indoors.

"Enemy air attacks were also made on the area north of Manila.

"Ground operations were resumed with enemy pressure on our troops in Pampanga province, northwest of Manila.

"Gen. Douglas MacArthur, commanding the United States army in the far east, has received reports from Manila indicating discrimination against Americans by the occupying Japanese forces, in marked contrast to the treatment previously accorded Japanese civilians by American troops.

"While the treatment of American civilians is especially harsh, the Japanese are discriminating against all white residents of Manila. The occupying troops have issued instructions that all white civilians in Manila, irrespective of nationality, must remain indoors, under penalty of being shot if they appear on the streets.

"These instructions imply the contemplated internment of the white population of the city, without regard to citizenship. Apparently subjects of Germany and Italy, allies of Japan, as well as citizens of neutral countries, such as Spaniards of whom there are many in Manila, are included in the general discrimination against the white race.

Pamphlets Attack Whites.

"Propaganda pamphlets have been distributed by Japanese airplanes in an effort to persuade native soldiers to cease resistance. Included in these pamphlets are abusive attacks on the white race.

"2. There is nothing to report from other areas."

Manila's normal population of 625,000 includes about 2,000 Americans as well as many Europeans. In addition, many Americans live in Baguio, the summer capital in the mountains, at gold mines, or at other points in the islands.

Gen. MacArthur reported last week that Japanese civilians under American control were well treated. He said only about 175 Japanese civilians were under close guard in an internment camp near Manila, while about 3,000 other Japanese subjects elsewhere were under surveillance at the urgent request of the Japanese consul general in Manila.

Saying that every consideration was being shown the Japanese civilians and that their property was being protected by police, Gen. MacArthur expressed hope at the time that this "generous treatment" would result in reciprocal treatment of American and Philippine civilians in Japanese occupied territory.

Navy Denies Jap Claims.

Yesterday the Corregidor fortress had been bombed for five hours by at least 60 Japanese planes, but no material damage was caused, the war department said, and three bombers were brought down.

The destruction of four bombers in last night's raid raised to at least 11 the number of enemy planes destroyed in attacks on Corregidor. At least four bombers were destroyed and others damaged in the three hour attack of Dec. 29 and three more destroyed in yesterday's five hour onslaught by 60 or more raiders.

The navy reiterated today that all ships and men were removed prior to the occupation of Manila and the Cavite naval base, denying enemy claims of heavy warship losses.

"Statements emanating from enemy sources alleging that 17 American destroyers, 25 submarines, and one aircraft carrier were trapped in Cavite are entirely without foundation," a spokesman said.

"On Dec. 31 the navy stated officially that it shall not indulge in the common enemy practice of overstating the losses we inflict upon them or understating the losses inflicted upon us. The navy will report only such facts as can be substantiated, and intends to adhere strictly to this rule."

The navy commented that "the American people should not be confused by enemy propaganda emanating from Berlin, Tokio, and Rome, the obvious purpose of which is to undermine public confidence in our armed forces."

Japs Claim Ships Sunk.

TOKIO, Jan. 4 [Official Broadcast Recorded by Associated Press].—Japanese dispatches today said the Japanese air force bombed steadily at American forces withdrawing from the Manila area, damaged 140 trucks along the western coast of Bataan peninsula, and blasted at communications and military objectives in the area.

Summing up naval operations in Philippine waters since the start of the war, the navy section of imperial headquarters declared four destroyers, seven submarines, and five other vessels had been sunk and 360 aircraft destroyed by the Japanese. A destroyer, two auxiliary ships and 30 smaller craft were damaged, the navy added, and 103 of the destroyed planes were shot down in fights.

The Tokio populace, clad in festive garb, paraded in jubilation today over the capture of Manila.

Uniformed army and navy bands led the procession thru the capital. Holiday crowds strolling along the Ginza in their New Year's dress, girls and women in traditional headdress and gay kimonos, and men in stiff attire, joined children in giving the parade rousing cheers.

Japs Move on Olongapo.

BERLIN, Jan. 4 [Official Broadcast Recorded by Associated Press].—Japanese planes diving onto Corregidor fortress today destroyed anti-aircraft batteries, artillery emplacements and machine gun nests by direct hits, German dispatches reported from Tokio today.

Havoc also was wrought on barracks and harbor installations, and effectiveness of the attack was noted by the weakening of American defense fire as the raid progressed, the dispatch said.

Formations of Japanese naval planes at the same time attacked the naval base of Olongapo, "scoring great success," the dispatch said. It was said the Japanese lost no planes in the attacks.

Meanwhile it was reported that large Japanese transports were moving from Lingayen bay toward the south, apparently for an attack on American forces in the Olongapo and Corregidor areas.

Balanga Held by U. S.

The city of Balanga, northwest of Manila, is still in American hands, the Tokio reports said, and was raided by Japanese planes several times Saturday. Japanese forces were reported advancing along the coast of Manila bay. Extensive motor vehicle columns fleeing from Manila were bombed repeatedly by Japanese planes, resulting in the destruction of many automobiles, the dispatch added.

The Japanese army command in Luzon reported American army motor trucks on Panay Island in the southern part of the archipelago were machine gunned from the air.

BRITISH FORCED BACK AGAIN BY JAPS IN MALAYA

Invader Claims Australian Division Wiped Out.

(Map on page 8.)

SINGAPORE, Jan. 4 (AP).—New defeats for the defenders of Singapore and Borneo were admitted by the British today.

Unable to stop the Japanese in heavy fighting in the tropical jungles bordering the Perak river some 280 miles north of Singapore, the British withdrew their forces to new positions Saturday night, a communique announced. Attempting pursuit, Japanese fighting vehicles followed closely, but were stood off, it was said.

There was no hint here from the steaming battlefields north of Singapore as to the extent of the British retreat, except that some Japanese activity was reported even in southern Perak.

Claim Heavy Jap Loss.

Heavy casualties were exacted from the attackers, the British declared. The RAF was said to have made heavy night attacks on Japanese boats off the western Malayan coast but the results were not observed.

Previously the British defenses had been stretched in an almost north-south line behind the Perak river, which enters Malacca strait about 280 miles from Singapore. The British had reported the repulse of many Japanese attempting to cross this river in rafts and small boats.

The British were silent concerning Kuantan. It was acknowledged yesterday that the Japanese were in the outskirts of that place, on the east coast.

Twenty-four Japanese planes roared over Singapore Saturday night dropping bombs, but damage and casualties were reported light.

American Planes Attack.

In return British and American warplanes from Burma attacked a Japanese airport at Rahentak in Thailand, 200 miles from Rangoon, and without loss to themselves destroyed six Japanese fighting planes.

At the same time, the Japanese made new progress in their efforts to get control of Borneo by effecting a landing Saturday at Weston, 100 miles northeast of Brunei on the northwest coast.

This new invasion is in British North Borneo and follows two previous landings at Miri and Kuching in the white rajah's state of Sarawak.

Wipe Out "Aussie" Division: Japs.

TOKIO, Jan. 4 [Official Broadcasts Recorded by Associated Press].—Japanese troops in a fierce offensive launched at dawn on Jan. 1 have swept across the Perak river in the face of heavy artillery fire and annihilated the greater part of the 8th Australian division, Domei reported in a delayed dispatch from "somewhere in Malaya" today. Elements of the 9th Indian division also were wiped out.

Army planes struck at a British air field in Moulmein, Burma, yesterday and set one fighting plane afire and destroyed three others on the ground, it was reported. Moulmein is 100 miles east of Rangoon, on the Gulf of Martaban coast.

Altho Domei news agency said the British defense was weakening, the newspaper Yomiuri said in a dispatch from Bangkok, Thailand, that 90,000 fresh Australian troops had landed in Singapore on Dec. 31.

Japs Seize Burma Airport.

BERLIN, Jan. 4 [Official Broadcast Recorded by Associated Press].—The airport of Bokoyin, 90 miles north of Victoria point in southern Burma has been captured by Japanese forces striking from Thailand, German dispatches from Bangkok reported today.

These reports said the Japanese in Malaya had reached the northern fringe of Selangor province in their west coast march toward Singapore. Other Japanese forces on the east Malaya coast are advancing southward from Kuantan.

4 YOUNG ENSIGNS BAG 2 SUBS AND 4 ENEMY PLANES

A Tale of Heroism at Pearl Harbor.

HONOLULU, Jan. 5 [Monday] (AP).—A 1,500 ton destroyer with four young ensigns as her officers put out to sea under withering fire during the Japanese attack on Pearl Harbor Dec. 7, helped shoot down four of the invading planes and depth bombed two enemy submarines.

Details of the exploit have been added to the vast collection of herotales which has become navy tradition.

Three of the ensigns were reservists and the fourth just two years out of the naval academy. Names of the principals and the destroyers remain anonymous for the time.

The story covering 30 hours of adventure in the lives of less than 200 men, as related by the academy ensign and released by the navy censor follows:

Take Battle Stations.

"We were seated in the wardroom, three reserve ensigns and myself, at 8 o'clock on the morning of Dec. 7. Suddenly the bridge telephone announced, 'the Utah has been torpedoed by Japanese aircraft.'

"Immediately we sounded general quarters and manned our battle stations.

"Five minutes later we opened against the enemy with our machine-guns. Japanese planes were diving at our ships in the harbor. Two minutes later Ensign ——— brought his large caliber anti-aircraft battery into action.

Depth Charges Dropped.

"As we moved downstream, headed for the channel, we kept up a hot fire with our main battery and machine guns. Four planes engaged by our guns were seen to go down in smoke. Two planes that dived over us got it from our M. G.'s [machine guns].

"At 9:50 a. m., our chief radioman, who kept continuous watch, got a good contact on his listening apparatus. It was a sub. We maneuvered and let 'em have two depth charges. Then we regained contact and dropped two more.

"We observed a large oil-slick on the sea and bubbles rising to the surface over a length of 200 feet.

"Then we knew the submarine had been destroyed.

"We'd picked up one of our heavy cruisers by this time, when suddenly a third contact was reported. Apparently it [a submarine] was heading for the big ship. We made an emergency turn and loosed another pair of depth charges. When we swung around again we saw another oil-slick. We figured we'd sunk our second sub.

"From then on," the 24 year old acting captain concluded laconically, "we screened the cruiser upon orders from that vessel."

The youthful captain brought his ship back to Pearl Harbor without a single personnel casualty.

ONLY SMALL PORTION OF ENEMY ALIENS GIVE UP CAMERAS, ARMS

(Picture on page 8.)

With 11 o'clock tonight the deadline for enemy aliens to surrender their short wave radios, cameras, and firearms, a report yesterday from the city's 39 district police stations where the articles are to be brought indicated that only a small portion of the forbidden articles has been surrendered.

Up to noon yesterday enemy aliens had brought to police stations 509 cameras, 151 radios, and 31 firearms, including revolvers, shotguns, and rifles. Immigration officials in Chicago have estimated that there are about 250 Japanese, 20,000 Germans, and 26,000 Italians in this area who are subject to the regulation, which was announced from Washington, D. C., last Wednesday.

United States Attorney J. Albert Woll warned that those who fail to obey the regulation would be subject to arrest and internment and articles found in their possession confiscated.

ASIA SPLOTCHED BY GORY TRAIL OF JAP AGGRESSION

Tribune Color Map Shows Singapore's Value.

The extent of Japan's present aggressions in Asia is shown in the colored war map on the back page of this issue. This is a map of the heart of Asia and the westerly islands of the Netherlands Indies, showing the location in respect to important continental and insular areas of Singapore, Great Britain's strongly defended army, naval, and air base at the tip of the Malay peninsula.

Singapore, in the opinion of military observers, is the main objective of the Japanese thrust against British security in the far east. It is the belief in allied councils that the enemy regards it as of far greater importance to his success in his general plan of conquest than the Philippine Islands.

Mark Trail of Conquest.

Various shades of green on the map indicate the areas that have fallen to the Japanese, beginning at the north with Corea, which was annexed by Japan in 1910, and Manchukuo, which was made a puppet kingdom by the Japanese in 1932. The present Chino-Japanese war began in 1937, with an invasion of the Chinese republic by troops of the mikado, and has been in progress ever since. Lacking in many of the essentials of war, the Chinese, however, have managed to maintain a front of resistance that the enemy has been unable to crush—as witness today's dispatches indicating Japanese losses of 52,000 men in three days in their third and bloodiest offensive in an effort to capture Changsha, capital of Hunan province.

In their more recent aggressions the Japanese thus are not free to use all of their military power, since many of their troops have to be retained in China to hold back the Chinese armies.

Japan's push toward Indo-China and Thailand was marked by the capture of important Chinese ports and coastal areas. These are shown on the map within green outlines. Today Japan occupies every important Chinese coastal city from the Yellow sea to Indo-China, and also the strategic island of Hainan. The last capture in the now unbroken line on the route from Japan to Singapore was the British island of Hongkong, upon which stands the city of Victoria.

Make Fine Offensive Bases.

These prizes not only give the Japanese complete control of a communication line between the main islands of Japan and Thailand, nearly 2,000 miles long, but also provide bases from which Japanese naval vessels and airplanes can operate against the Philippines and American and British craft at sea.

Singapore, the "Gibraltar of the far east," commands the strait of Malacca, which lies on the most direct route from India to the Netherlands Indies, Australia, and New Zealand. It is England's most vital strategic position east of the Suez canal.

North of the Malay states, thru the jungles of which the Japanese are striking at Singapore, lies the narrow isthmus of Thailand territory that divides Malaya from Burma. The lines left open between Burma and Malaya are those of the sea and the air, while Burma itself is menaced by the Japanese, with whom the third rate army of Thailand now is cooperating.

Burma Would Be Rich Prize.

Burma in itself would provide a rich prize to conquerors, since it has valuable oil fields, vast acreages devoted to rich cultivation, and extensive timbered areas. More important for the time being is the fact that Burma is the eastern doorway to India, the British empire's most populous land and the western doorway to China.

An invasion of Burma by the Japanese would cut the Burma road, China's lifeline. Against this possibility, however, remains the danger to the Japanese of extending their lines too far and scattering their forces over too much area.

U. S. NAVY TO GO TO AUSTRALASIA, CURTIN ASSERTS

Australian Tells 'United Nations' Strategy.

John Curtin.

MELBOURNE, Australia, Jan. 4 (AP).—Prime Minister John Curtin announced today that under the "united nations" strategy, the United States navy will operate from an Australasian station.

Declaring that Australia's strategic position was vitally important in the plan of Britain, the United States, Dutch East Indies, and Australia to fight and work together, Curtin said:

"The part which American forces will play gives great encouragement, and we vividly recall the statement of the commander of the United States naval squadron which recently visited Australia, 'You talk like us and fight like us.'

Calls Plan "Natural Sequel."

"That United States naval units will operate in an Australasian station is a natural sequel to that declaration."

[*The term Australasia is a loose term which might include New Zealand, the Dutch East Indies, the Malay archipelago and the numerous surrounding archipelagos, as well as Australia. The United States naval commander referred to by Curtin was Rear Adm. John H. Newton, who led a squadron of seven United States warships to Australia on a good-will visit last March.*]

Curtin, whose statement was released in Canberra, said the Australian people were greatly heartened by developments in the Washington strategy conferences and said they affect "our commonwealth as no previous alignment of great powers has ever done.

"It represents a policy of concerted Pacific strategy which the Australian government has advocated, and amply justifies all that has been said as part of that advocacy," he continued.

Interdependence Hailed.

"In this country there will be a feeling that the defensive interdependence of the United States and Australia has become a tangible thing. Among the democracies, the people whose fate is involved will face the foe knowing that Britain, the United States, the Netherlands East Indies, and Australia are fighting and working together to a common plan, with common execution of that plan assured.

"Australia has now obtained the closest association and coöperation with America."

Almost simultaneously with Curtin's announcement, Japanese bombers extended their forays to within 800 miles of Australia, twice bombing the Australian air force airdrome at Rabaul on the island of New Britain in the Bismarck archipelago, 300 miles northeast of New Guinea. Airport installations were damaged and a few natives killed.

The Japanese previously have reported reconnaissance flights in the direction of Australia; and they have bombed Ocean Island, 1,200 miles east of Rabaul.

Greenwich, or Kapingamarangi, Island, the nearest Japanese mandated island, recently was bombed by Australian aircraft. It is about 400 miles north of Rabaul.

PETAIN RESISTS NAZI DEMANDS, LONDON IS TOLD

[Chicago Tribune Press Service.]

LONDON, Jan. 5 [Monday].—Despite Prime Minister Churchill's denouncement of the Vichy government in his Ottawa speech and newspaper comment here suggesting that an overt break is imperative, the Daily Sketch says today:

"Marshal Petain has definitely defeated Hitler's latest efforts to drag France's navy into the war, having refused all overtures, and is standing out against threats."

Hitler does not dare at the present moment to march across France, as he has threatened, and Spain has rejected all suggestions for closer cooperation with the axis, the Sketch adds. The newspaper expressed the opinion that Spain and Vichy have reached an understanding by which they will stand firm against German encroachments toward Africa.

A Jap Bomb Which Fell in Hawaii

INDIAN LEADERS ASK CHURCHILL TO AVERT CRISIS

Seek 'Truly National' Rule for War Aid.

NEW DELHI, India, Jan. 4 (AP).—A group of 15 distinguished Indian leaders appealed directly to Prime Minister Winston Churchill today for "some bold stroke of far-sighted statesmanship without delay" to avert a political crisis in India and insure her full coöperation in Britain's war effort.

The plea, cabled to Churchill in Washington, was placed above Indian party politics, for none of the signers is now active in the Congress party or Moslem league—the two dominant political factions.

The signers, representing some of the influential, but less vocal, moderate and liberal circles in Indian opinion, asked the prime minister to declare at once that:

"India will no longer be treated as a dependency to be ruled from Whitehall and henceforth her constitutional position and powers will be identical with those of other units in the British commonwealth."

Four Point Plan Urged.

Proposing that the question of a permanent constitution be shelved until after the war, the group recommended that the following four measures be inaugurated immediately:

1. "Conversion and expansion of the central executive council into a truly national government . . . subject only to responsibility to the crown."

2. Restoration of popular governments in the provinces, or, "failing this, the establishment of nonofficial executive councils responsible to the crown."

3. Recognition of India's "right to direct representation in the imperial war cabinet if one is established, in all allied war councils and at the peace conference."

4. Consultation with the national government on the same footing as the dominion governments.

Stress Urgency of Situation.

The appeal, first such message directed to Churchill, ended:

"Knowing intimately the feelings and aspirations of our countrymen as we do, we must express our conviction that nothing less than inauguration of this policy can resolve the crisis in India. The urgency of immediate action cannot be overestimated.

"We appeal to you in all sincerity but with the greatest emphasis to act while there will be time for such action, so that India may line up with the other anti-axis powers on a footing of absolute equality with them in the common struggle for freedom of humanity."

The signers, led by Sir Te Bahadur Sapru, have distinguished records of service in Indian public life, at least three having been members of the privy council.

Included in the group were T. R. Venkatarama Sastri, V. S. Srinivasa Sastri, Sir P. S. Sivaswami Aiyer, Sir Jatdish Prasad, Raja Sir Maharaj Singh, Sir Chunilal Be Mehta, Sir Rahmitoola Chinoy, Sir M. V. Joshi, Sachidananda Sinha, Mohomad Yunus, Sir S. Radhakrishnan, M. R. Jayakar, Sir Raghunath Paranjype, and J. N. R. Mehta.

MILLIONTH TON OF AMERICAN FOOD FOR BRITAIN REACHES PORT

[Chicago Tribune Press Service.]

LONDON, Jan. 4.—The millionth ton of American food given Britain under the lend-lease act has reached a British port, K. B. McGeachy of New York told British Broadcasting corporation listeners today.

He read a message from United States Secretary of Agriculture Claude R. Wickard assuring the British that "the American farmers are going to produce sufficient quantities of food to be able to take care of your needs with some to spare for emergencies."

McGeachy, who is here for the United States agricultural department, announced that American farmers broke production records in 1941, would do better in 1942, and had increased the output of cheese largely for the benefit of the United Kingdom, by 40 per cent.

ALLIES MASSING IN BURMA; DRIVE ON JAPS LOOMS

RANGOON, Burma, Jan. 4 (AP).—In view of the gathering of large allied forces in British Burma and intense air activity, the possibility of an offensive based on this flank of Japan's southward drive was widely discussed tonight.

An unspecified number of Chinese troops joined British empire forces in Burma last week.

A Rangoon communique of the RAF said that three Tomahawk fighters of the American volunteer group [which has been assisting the Chinese] destroyed seven Japanese planes in a foray over enemy occupied territory on Saturday and returned unscathed.

WE'LL THROW THE MURDERERS OUT, WAVELL PLEDGES

Predicts Tide Will Turn When Time Comes.

NEW DELHI, India, Jan. 4 (AP).—With soldierly reserve but with quiet confidence and frank recognition of the problems that lie ahead, Gen. Sir Archibald P. Wavell, newly named supreme commander in the southwest Pacific, predicted today that Japan faces only ultimate defeat.

"The situation may become worse until the tide turns," said the soft-spoken British general at a farewell interview, "but turn it will with inexorable strength when the time comes."

Naturally, he did not disclose where he will establish his new headquarters or who would succeed him as Britain's commander in chief in India.

"I would like to take this opportunity to convey to the people of the United States, Britain, the dominions and their allies how deeply sensible I am of the honor done me and the confidence reposed in me by their governments in appointing me supreme commander in the southwest," he said.

Japs Murderers, Cheats.

"I am fully conscious that it is a great responsibility which rests on me in the situation where the treacherous attack by Japan has given their forces an initial advantage.

"This is the advantage which the murderer, thief or cheat can always gain against an unsuspecting ordinary and decent citizen."

He made no effort to conceal and, rather, emphasized that it will not be possible to reverse the situation with one blow. But, he declared, "we can throw these Japanese freebooters from the places they have temporarily seized."

Referring lightly to the magnitude of his assignment he said "it looks like quadruplets this time. I shall do my best to look after them and bring them up the way they should go."

He said the first phase, in some ways, was parallel with the situation which confronted Britain in the middle east in 1940 after the collapse of France.

"We must hold on with what we have until we can collect our forces for the return blow," he said.

Pays MacArthur Tribute.

Never before since he assumed the Indian command had Sir Archibald received newspaper men at a conference in his own home. He bade them farewell with an expression of regret at leaving India, with whose war effort he said he was greatly impressed.

"I have a great deal to think about and do," he explained, adding: "The pooling of forces shows the determination to get together and get the job finished."

He paid tribute to Gen. MacArthur's defense of the Philippines against huge odds, the resolute stand at Hongkong, the offensive blows of the Dutch by sea and air in the East Indies, the resistance of British forces in Malaya, and the work of British and Australian air forces.

"This," he said, "is a heartening overture to the eventual coördinated action for the defeat of Japan."

RECOMMENDS AWARD OF FLYING CROSSES TO 2 RESCUE PILOTS

ANCHORAGE, Alaska, Jan. 4 (AP).—Maj. Gen. Simon B. Buckner has recommended the award of distinguished flying crosses to two army officers who rescued a marooned pilot from an ice floe on Turnagain arm on Dec. 10.

The officers for whom the honor was recommended were Lieutenants E. T. Yarbrough and Frank L. O'Brien.

The two took part in the rescue of Lieut. Elmer Booth after he had been marooned in a forced landing. Yarbrough succeeded in landing a small army plane on the jagged ice despite a high wind. O'Brien, flying with him, remained on the ice while Yarbrough flew the injured Booth to a hospital. Later, under more favorable conditions, Yarbrough returned to pick up O'Brien safely.

Removal of Museum Art by Nazi Chiefs Confirmed

[Copyright: 1942: By the New York Times.]

ANKARA, Turkey, Jan. 4.—Reports from travelers coming out of Germany this week-end confirmed rumors that the Nazi leaders, including Air Marshal Hermann Goering, have removed the art treasures of the famed "Brueghel room" of the Friedrich museum at Vienna, transferring the masterpieces to their private homes and estates. The "Brueghel room" is now closed to visitors, it is learned.

BRITISH-RUSSIAN TIE TO BE CLOSER STILL, EDEN SAYS

'Must Get Rid of Legacy of Suspicion.'

LONDON, Jan. 4 (AP).—Great Britain and soviet Russia have been drawn closer in trust and common effort than at any time since the World war and still closer ties are in prospect, Foreign Secretary Anthony Eden broadcast today, informing the world of his recent talks in the Kremlin.

Anthony Eden.

Of his talks with Joseph Stalin and the soviet foreign commissar, Vyacheslav Molotov, Eden declared:

"When our communique states our identity of views on all questions relating to the conduct of the war, those words are not mere diplomatic jargon; they tell the literal and absolute truth."

Eden, who toured behind the Russian lines during his visit to the soviet union, praised the Red army's defense of its homeland and of the industrial machine backing it.

Asserts Hitler Blundered.

He grew bitter as his account touched on Adolf Hitler and declared that the German Fuehrer had blundered by invading Russia and drawing on his armies the might of a united soviet.

"The experience of my first visit and the talks that I had with Stalin and Molotov have convinced me that closer political collaboration between us can and will be realized," Eden said.

"We have to get rid of the legacy of suspicion on both sides.

"There is a contrast in the forms of government.

"But I will never accept that this need divide us.

"What matters in foreign affairs is not the form of the internal government of any nation but its international behavior.

"The trouble with Hitler, for instance, was not that he was a Nazi at home. The trouble with him was that he would not stay at home."

"No Free Nation Secure."

Eden bitterly added, "No free nation will be secure so long as he lives and the German military power is unbroken."

Then he cited the unity of Britain and the U. S. S. R. and expressed the conviction that the allies would gain a lasting peace for all peoples.

He dwelt on the caliber of Russia's stand against the Nazi invasion, relating how flying conditions were so bad on his wintry arrival in Russia that he went by train to Moscow.

"One stretch of our journey," he said, "was over a section of railway which Goebbels [German propaganda minister] has told you has been cut."

Calls Spirit Magnificent."

Vividly describing his trip to the front outside Moscow, Eden pronounced the spirit of the Russian troops as magnificent, their morale higher than ever, and declared they are hammering without respite at the retreating Germans.

"There were plenty of signs of the fighting by the roadside—shell-torn trees, derelict guns, shattered homes," he related.

"Hitler has always liked a war of movement. He is getting it now."

Eden said he had no doubt that the harmony achieved between the allies on all war matters alone would have more than justified his trip but that "personally I attach as much importance to the discussions which we had upon the organization of peace and security after the war."

He pointed out that neither he nor Stalin could take any final decisions during the meeting and added:

"Intimate consultations with the governments of the dominions with the United States and with our other allies will be necessary."

Of the situation ahead Eden referred to the German-Russian front and said, "the Russians know very well how formidable is the German military machine, but they believe they have now the measure of their foe."

The Inquiring Camera Girl

THE QUESTION.

What household task do you dislike and what do you do about it?

WHERE ASKED.

Randolph street and Michigan avenue.

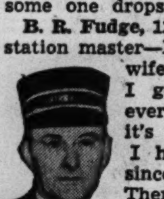
THE ANSWERS.

Mrs. W. G. Rottschafer, Grand Rapids, Mich., housewife—I hate dusting. You have to bend and stoop over so much. One minute you're on your head and the next on your feet. You never feel that you're accomplishing anything, because you know you'll have to do it all over again the next day. There's nothing I can do about it.

Dale Anderson, 5524 South Kenwood avenue, piano player—My pet household peeve is filling up the oil burner every night. It's a messy job and it's hard to get the oil off your hands. My sister and I live in an apartment in a remodeled garage and I like to have the place warm for her when she comes home.

Miss Lenore O'Connell, 7006 Chappel avenue, secretary—I really don't have much housework to do because I am a business woman and have a small apartment. But I do dislike cleaning up after a party. I hate to wake up in the morning and see stale ashes piled in the ash trays and sticky glasses all over the place.

Mrs. J. L. Finleyson, Maywood, housewife—Dusting is the dirtiest job in the whole house. I hate getting dirt on my hands. We live in a six room home and something needs to be dusted every day. When I get too annoyed with it, I let the rooms go for a couple of days. As soon as I do, you can be sure some one drops in for a visit.



B. R. Fudge, 12419 Stewart avenue, station master—I dislike helping my wife with the washing. I get roped in on it every now and then and it's a wet, ugly job. I have hated washing since I was a little boy. There were nine boys in our family and no girls. I was the one who always had to help mother with the washing.

Miss Eleanor Gatrell, 14816 Winchester avenue, Harvey, telephone operator—Doing dishes is my bugbear. I don't like to put my hands in water. It takes all of the joy out of a meal when I know I am going to have to wash the dishes afterwards. Generally I sit around after the meal until my sister starts to wash the dishes; then I dry them.

SOVIET PUSH PUTS GERMANS IN NEW DANGER OF TRAP

Borovsk Captured, Key to Mozhaisk Positions.

MOSCOW, Jan. 4 (AP).—The town of Borovsk, an important position for the security of German held Mozhaisk, was captured today by the Red army in a new onslaught against the Nazi forces before Moscow, it was announced officially.

The soviet information bureau's communique reported the recapture of Borovsk, 50 miles southwest of Moscow and 25 miles southeast of Mozhaisk, a key to the main Moscow-Smolensk highway, and said the Germans had failed to consolidate themselves in new positions and had suffered heavily in losses of men and arms.

Official bulletins told of new positions retaken by the counterdriving Russian armies and of progress on all fronts.

New Air Force Rises.

The account of Germany's steadily receding front in Russia, shoved back now from one of its farthest approaches to Moscow and confronted with the threat of a Mozhaisk pocket, coincided with an authoritative picture of a new and mightier Red air force rising to replace the air power lost in more than a half year of war.

An indication that the Germans already may have been driven back beyond an intended winter line at one point on the southern end of the front was contained in a report in Pravda, the communist party newspaper.

Soviet troops and tanks, it said, fell upon an "intermediate line" the Germans had prepared and fortified in that area, destroying it and holding it against tank supported Nazi counterthrusts.

Telling of the successive entry into several towns identified only by cryptic initials, the dispatch cited one village defended by the Germans desperately for days. It said the Germans had to be driven at bayonet point, house by house, but ultimately were forced out after they had lost 400 officers and men.

Review Nazi Losses in Week.

In all, said the soviet information bureau in a review of the week from Dec. 25 to Dec. 31, the Red army wiped out more than 10,000 Nazis southwest of Moscow and another 2,000 in the Theodosia sector of the Crimea.

Not only will the Russians come back in the air with faster and mightier fighters and with bombers able to carry heavier bomb loads greater distances during 1942, declared a Red army major general of aviation, Scherbakov, but also will hold the upper hand during the winter months because of foresighted preparations.

Because the Germans were sure of victory before the winter, he wrote in the government newspaper, Izvestia, they made inadequate preparations and their air operations consequently have dwindled sharply.

Air Attacks in Crimea.

BERLIN, Jan. 4 [Official Broadcast Recorded by Associated Press].—The German high command reported today that its air force was carrying on night and day raids against Russian troops which counterattacked on the Crimean peninsula and won a foothold at Theodosia.

The Nazi communique said a small merchant ship was sunk in the harbor of Theodosia and a larger vessel and a floating crane were damaged.

Elsewhere on the southern front, the high command declared, there was only "local patrol action," but on the central and northern sectors soviet troops which pierced the Nazi lines "at several places" in their continued attack were said to have been trapped and wiped out.

Russian infantry and motorized columns, airdromes and railway lines in the Moscow zone were the targets of air attack. The Murmansk railway line, in the far north, was reported cut at several places by bombing attacks.

FORMER POLISH CHIEF TURNS UP INSIDE GERMANY

[Copyright: 1942: By the New York Times.]

KUIBYSHEV, Russia, Jan. 4.—The foreign diplomatic colony here has found interest in the adventures of former Polish Premier Leon Koslowski, who was reported from Berlin to have crossed thru the German lines from Russia.

Koslowski, professor of archaeology at the University of Lwow, was chosen by the late Marshal Pilsudski to head the cabinet for a brief period in 1934. Koslowski later returned to his studies at Lwow and ceased exercising any political influence.

In 1939 the invading Russians interned him until after the soviet-Polish agreement of last July. Reportedly piqued because he was not offered a post in the Polish embassy here, Koslowski then proceeded to where the Polish army was being formed. Offered a lieutenancy, he apparently remained dissatisfied and disappeared in December. Polish circles here are anxious only that German propaganda should not give Koslowski the importance he never possessed even when in office.

ENDS LIFE WITH GAS.

John Christl, 56 years old, was found dead yesterday in the gas filled basement of his home at 4833 Kentucky avenue. He was a stationary engineer. Police said he had fitted a hood over his head, and attached it to a hose connected with a gas jet.

SWEDISH TROOPS AND WORKERS GO TO HELP FINLAND

Captured Tanks Are Being Reconditioned.

BY DONALD DAY.

[Chicago Tribune Press Service.]

HELSINGFORS, Finland, Jan. 4.—Interest is being renewed in Sweden for Finland's fight with Russia, and many Swedes are again volunteering for service in the Finnish army.

A Swedish battalion of 175 men which returned to Stockholm after the siege of Hango has reëntered the service till the end of the war. New recruits also are applying for permission to leave Sweden and fight on the eastern front, and it is expected that a new battalion will be formed.

Tanks Are Reconditioned.

Sweden's aid to Finland has taken many forms. Swedish factories have sent crews of specialists to work in Finnish plants. Many tanks captured by the Finns have been reconditioned and reëquipped for service in the Finnish army by Swedish workers.

The last Finnish newsreel shows these tanks in action during the battle of Karhumaki, when they escorted the soldiers in the storming of the town from which the Finns are now conducting operations.

Films Show Advance.

Ghostly looking Finns, clad in white snow suits, are shown gathered around their campfires in the forest, while the guns are bombarding the soviet positions. Then comes the order to advance, and tanks and infantry descend from the surrounding hills into the town.

Finnish officials have expressed warm thanks for the interest the Swedes are showing in Finnish children, of whom 4,000 are already being cared for in Sweden.

FALL INJURIES FATAL.

William Gibson, 50 years old, 5507 Lake Park avenue, died yesterday in Illinois Central hospital of injuries suffered in a fall Saturday while at work as a furniture mover.

LOW FLYING RAF RAIDS GERMAN TOWNS AND BREST

Troops and Railways are Machine Gunned.

LONDON, Jan. 4 (AP).—British flyers made a bold daylight raid on northwest Germany today, penetrating German anti-aircraft defenses to strike at railway communications and other objectives.

Such raids by daylight indicate that the Germans are so occupied in Russia and have had their air power so severely diminished that they are unable to maintain adequate defense at home.

Tonight German and Paris radio stations went off the air at 9 p. m., the usual time of sending news bulletins. This ordinarily is a sign of RAF activity.

Flying singly, the British planes in the daylight raid used both bombs and machine gun fire, swooping down close to the ground to pepper their targets. The air ministry said northern French objectives also were attacked.

German Soldiers Attacked.

"Fighters attacked targets including a warehouse, lock gates on a canal and German soldiers," said the communique. "No aircraft is missing from these operations.

"Docks at Brest were again attacked by aircraft of the bomber command last night. Mines were laid in enemy waters. One of our aircraft is missing."

British officials called the raid "just a foretaste" of what 1942 holds for Germany and the occupied territories.

German soldiers were attacked in the raid on northern France, and the air ministry news service said they were surprised by two Australian Spitfire pilots who machine gunned them and demolished their hut with cannon shells. These planes encountered only slight opposition, it was said, including rifle fire.

Taking advantage of low clouds, a German raider swooped over a town on the northwest coast of England today, dropping bombs and strafing the ground with machine gun fire. Four persons were killed.

Claim 3 Cruisers Sunk.

BERLIN, Jan. 4 [Official broadcast recorded by Associated Press].—German naval and air forces sank three British cruisers, one aircraft carrier, three destroyers, three motor torpedo boats, a gunboat, and a submarine during December, the Nazi high command said today.

In addition, a communique declared, six British cruisers, five destroyers, four motor torpedo boats, a minelayer, two guard vessels, and a submarine were seriously damaged.

British merchant losses due to German sea and air action during December were put at 74 vessels totaling 251,200 tons.

The Erman family of 3253 West 66th place, who paid a total of $1,200 for defense bonds yesterday in The Tribune Public Service office.

Despite the cold and the fact that it was a good Sunday afternoon for sitting near the radiator, six persons yesterday came down to the Tribune Public Service office in Tribune Tower and purchased a total of $1,293.75 in defense bonds and stamps. It was a record high for stamps sold on a Sunday.

The largest sales were made to Mr. and Mrs. Ben Erman, 3253 West 66th place, who bought $1,162.50 in bonds and two additional $18.75 bonds for their son, Richard, 11 years old and daughter, Sandra, 7, making a total of $1,200.

Other customers were Mrs. Carol Ann Marek, 5914 South Richmond street, who purchased four $18.75 bonds, and Harold Winston, 5900 Kenmore avenue, one $18.75 bond.

ATLANTIC STILL CRUCIAL FRONT, BRITISH ASSERT

View Battles in Far East as Side Issues.

BY LARRY RUE.

[Chicago Tribune Press Service.]

LONDON, Jan. 4.—Like the Atlantic charter, the strategic plans discussed and agreed upon between Prime Minister Churchill and President Roosevelt are expected here to be more decisive toward victory than the announcement that 26 nations have agreed not to sign a separate peace.

Commentators here have been declaring for some time that the battle of the Atlantic is more important than the battle of the Pacific, as far as Great Britain is concerned. It is presumed that the recovery of the Philippines, Malaya, and Borneo from the Japanese can be adjusted as soon as Germany is defeated.

Predicts "Moves on Vichy."

The political correspondent of the Reynolds News today asserted that Churchill and Roosevelt have agreed on the importance of the battle of the Atlantic and have taken steps to prepare for complete victory in this as a preliminary to the invasion of the continent. He forecast "moves against Vichy."

"Dakar, Ireland, and the Azores, all essential bases in the Atlantic struggle, doubtless figured in the talks" between Churchill and Roosevelt, this correspondent wrote. "The time may come shortly when Britain and America will tell Petain bluntly that he no longer can be allowed to collaborate with the Nazis without being regarded as an open enemy."

The writer further predicted that "talks with Ireland" will be resumed.

Germany Enemy No. 1.

In Britain's outlook on war, Germany remains enemy No. 1, and, altho it seems that the Russian offensive, which was announced here more than a month ago as having achieved the proportions of a rout, still hasn't pushed the Germans back more than 65 miles west of Moscow, the Sunday Dispatch in streamer headlines today said the "real Russian offensive is now to begin. Attack, encirclement, annihilation are Stalin's plan. The enemy will get no time to consolidate."

A columnist in the Sunday People said:

"Brilliant as is Churchill's personal triumph in Washington and Ottawa, there still remain to be faced grave problems in world strategy. Where is the man with brain large enough to master them? I doubt if he exists."

"Leaving It to the Russians."

He also asserted that in spite of the fact that victory depends on understanding these problems, "the alternative is blundering on—and leaving it to the Russians. My chief worries about the future arise because even after well over two years of war, I see almost no change in the mentality of our leaders."

He criticized the British government for failing to copy "Russia's ruthlessness" in making war, and reiterated the charge of Pravda, the Moscow newspaper, that the failure to defend Manila was "an act of cowardice."

BEG YOUR PARDON

UNION PACIFIC OVERLAND

Announcement by Wm. M. Jeffers

PRESIDENT, UNION PACIFIC RAILROAD

Because of the imminent shortage of nurses for Red Cross and similar purposes related to the National Defense, and for the duration of the war, we have decided to discontinue nurse-stewardess service on Union Pacific trains, effective January 15, 1942, and thereby release graduate nurses whose qualifications for National Defense purposes are considered such as to render them invaluable for such services.

In 1935, Union Pacific instituted stewardess service — the first railroad to take this progressive step. Each stewardess employed was a registered nurse, a graduate of a leading hospital. Each stewardess was required to meet exacting qualifications, not only in the matter of training, but also in character, appearance, personality and the ability to give thoughtful, conscientious service to Union Pacific patrons.

How well these stewardesses performed their varied duties has been evidenced by the many commendatory letters and statements constantly received.

For many months the Union Pacific Railroad has been devoting practically all its interests, its time, its manpower and facilities to the transportation of men and materials vital to National Defense.

I know our stewardesses are as strongly patriotic, and as jealous of their American freedom, as you or I, and therefore with their training and experience there are many ways in which they can be of more value to their country than in their present occupation.

In releasing these splendid young American women from duty with the railroad I wish to point out, clearly and definitely, how greatly we regret that the association must be disturbed. They leave us with every good wish for their welfare and with the sincere hope that the association may be renewed after the war is won.

Wm Jeffers

President, Union Pacific Railroad

NAPLES BOMBED IN WIDE SERIES OF BRITISH RAIDS

Claim Hits On Plane Plant and Railway Station.

CAIRO, Egypt, Jan. 4 (AP).—Royal air force bombers, striking at both sides of the Mediterranean, blasted Naples and Tripoli in week-end attacks, while fighter planes and bombers swept over the chief Libyan battleground and harried the axis supply route, it was announced today.

Fighting on the Agedabia front was restricted chiefly to artillery fire and lightning thrusts by mobile columns against German Gen. Erwin Rommel's axis army "on a wide front."

At Naples, 800 miles across the sea from the most advanced British position in Libya, bombers scored hits on a railway station and an aircraft plant.

[In London the air ministry said that in the Naples raid, which took place on Friday night, one series of high explosive bombs "hit the railway station and two more exploded close to it." Several fires were started in the city by incendiary bombs, the ministry added. Reconnaissance flights over the Italian seaport had revealed "extensive damage to military and industrial objectives, with half of the royal arsenal "devastated," oil tanks, factories, and warehouses "gutted," and a torpedo factory "damaged seriously."]

Fire Near Radio Stations.

In the attack on Tripoli, main Axis supply port more than 400 miles west of the Agedabia area, British bombs started a large fire near the radio station and exploded on the main quay and a power plant.

Off the coast of Tripolitania, torpedo planes attacked a 5,000 ton merchant ship, but could not discover the effect of their blows because of intense anti-aircraft fire from a protecting warship.

Fighter planes sweeping the Libyan battle zone damaged a number of German planes in dogfights, and bombers destroyed a number of axis fuel trucks in raids on a transport column on the coast between El Agheila and Sirte.

Axis counter thrusts at Malta on Friday night and Saturday were carried out at the cost of one German fighter and one bomber shot down and other raiding planes damaged.

Both Sides Move Supplies.

An authoritative British source said the apparent lull in the Libyan land fighting was due directly to the "race for supplies," in which both the British and Germans are straining every effort toward reinforcing their troops.

[In London, Reuters news agency quoted the Rome correspondent of the Swedish newspaper Stockholm Tidningen as declaring that the Italians fully expect a heavy allied attack on Tripolitania. The Italians, according to this dispatch, are aware the British have made every preparation for such a drive but are waiting only until their bases are in complete readiness.]

CLAIM BRITISH WARSHIP HIT.

In a two sided intensification of the African air war, the German high command reported a British destroyer badly damaged off Bengazi and direct hits on an airdrome near there; Rome claimed a "particularly successful" bombing attack on artillery and harbor installations at Tobruk, and the axis partners asserted their combined raids on Malta had resulted in the explosion of an ammunition dump and direct hits on hangars and grounded planes.

Axis communiques on the land fighting reported British attacks at Agedabia repulsed, Rome adding that a number of armored cars were destroyed. The Italians also said fighting continued between British forces and axis troops holding out at Sollum and Halfaya, near the Libyan-Egyptian border.

REPORT 32 DIE, SCORES INJURED IN PARIS RIOTS

Nazis Order Curfew to Halt Terrorism.

[Copyright: 1942: By the New York Times.]

BERNE, Switzerland, Jan. 4.—A report from Paris reaching usually well informed diplomatic quarters here this evening said 32 persons were killed and scores wounded yesterday when German patrol cars plowed thru shouting, gesticulating students and bystanders in the Latin quarter, fired a warning burst from machine guns over the heads of the crowd, and then proceeded to "clean up the situation."

Late this evening it became known here that, as a consequence of the demonstration and "other acts of terrorism," a 5 p. m. curfew had been reimposed on the Parisian region. A separate report stated that at least a hundred hostages had been "liquidated."

Report Nazi Officer Killed.

The possibility of another hundred hostages facing the firing squads—this time at Dijon—also appeared imminent when it was reported that one high ranking German officer had been killed and three others injured in that town late last night when, it was charged, they were set upon by a "band of at least 35 individuals."

The "other acts of terrorism" referred to in the Paris region, according to information reaching here, included one bomb outrage reported to have occurred during a meeting of German officers; the shooting at a German staff car, which car is understood to have run against a moving train, killing its three occupants; an "epidemic" of stench bombings; and the usual "petty sabotage."

Simultaneously with this reported wave of outrages came newspaper reports from Berlin quoting high German quarters as declaring Franco-German relations are "critical." The official Berlin spokesman also criticized Chief of State Marshal Petain openly for his "mishandling of state affairs" and this was followed by the warning that "Berlin's patience is bound to have an end."

Brest Council Suspended.

VICHY, France, Jan. 4 (AP).—A new "terroristic" outbreak in Paris resulted today in the imposition of a 5 p. m. curfew by the German occupation authorities while a "serious incident" in the occupied French seaport of Brest led to the suspension of the entire city council.

Altho the nature of the incident was not revealed, it was said to have occurred during an inaugural ceremony for the council, which had just taken office.

NAZIS DESTROY SERBIAN RESORT; KILL 25 CIVILIANS

[Copyright: 1942: By the New York Times.]

ANKARA, Turkey, Jan. 4.—German artillery and dive bombers destroyed the Serbian resort of Banja Bachka during an attack three days ago against the suspected headquarters of Gen. Draja Mikhailovitch, commander of the royalist Serbian armies, according to dispatches today. More than 25 civilians were killed with several hundred wounded.

Serbian regulars and guerrillas fought a delaying action south of Banja Bachka, inflicting heavy casualties upon the German armored columns and Premier Gen. Milan Neditch's forces fighting with the Germans. Gen. Mikhailovitch's forces reoccupied the Banja Bachka district after the German retirement.

Mikhailovitch's staff is extremely mobile and rarely operates in any district for more than a week.

NEW KITTYHAWK FIGHTERS SCORE IN NORTH AFRICA

CAIRO, Egypt, Jan. 4 (AP).—Kittyhawk fighter planes—a new, improved version of the battle proved Curtiss Tomahawks—were disclosed today to have drawn their first blood in North Africa on New Year's day, downing at least five German Messerschmitt-109s and damaging seven others at a loss of only one of their own.

The Kittyhawks were flown by Australian pilots who encountered a flight of Nazi dive bombers escorted by the Messerschmitts. It was the first time in several days that any enemy air formation had been encountered in force.

One sergeant pilot was credited with destroying or damaging five Messerschmitts which abandoned the dive bombers they were supposed to protect and fled while the Junkers were jettisoning their bombs.

EXPECT AFL, CIO WILL CALL TRUCE IN CHICAGO AREA

Leaders to Hear Talk by Kelly Tomorrow.

An armistice in the labor war between the American Federation of Labor and the Congress of Industrial Organizations is expected to be called tomorrow night at a meeting to rally union forces in the Chicago area for the war effort.

Both AFL and CIO officials will gather at 8 p. m. in the council chamber of city hall to hear an address by Mayor Kelly, civilian defense coordinator for the metropolitan area.

The summons, signed by Victor A. Olander and W. L. McFetridge of the AFL and Fullerton Fulton and Albert E. Glenn of the CIO, was addressed to all trade union presidents and secretaries.

Serious War Problems.

"It is highly important that every trade union in the metropolitan area be represented at the meeting by at least one of its regular officers," the letter said. "Serious war and defense problems, more pressing and more difficult than any previously experienced by mankind, call for immediate and most earnest attention.

"We are confident that the officers of the organized labor movement will respond wholeheartedly to this call. It is essential that they do so."

Other groups pledged their support and services to the war drive.

A letter addressed to 6,000 attorneys of the Illinois State Bar association by Benjamin Wham, president, called for volunteers to carry out the war program.

Its members were asked to perform legal services free of charge for men in service and their dependents, serve as speakers in the defense savings and civilian defense campaigns, offer legal service in setting up local defense councils and rationing boards, and assist in the coördination of law enforcement agencies.

Donation of Study Materials.

In order that Illinois soldiers at Camp Forrest, Tenn., may continue their studies while in training, Mayor Kelly appealed to Chicagoans to donate study material for their use.

He asked that textbooks, drawing, art, and artcraft material, either new or second hand, be sent to the civilian defense headquarters at 23 North Wacker drive. The material will be turned over to the morale officer of the camp, who has instituted a study program as an aid to morale.

Retired firemen, 450 strong and ranging from 50 to 88 years old, offered their services yesterday to the civilian defense office. The firemen, members of the Retired Firemen's Association of Chicago, filled out application blanks at the group's regular meeting in the La Salle hotel.

OUTLINE VICTORY PLANS FOR 1942 IN FORUM OF AIR

Industry and Labor Pledge United Efforts.

[Chicago Tribune Press Service.]

Washington, D. C., Jan. 4.—United efforts in 1942 to assure victory for American military forces were pledged tonight by representatives of government, industry, and labor in a coast to coast broadcast over the Mutual Broadcasting system.

Undersecretary Patterson.

They participated in the 14th anniversary broadcast of Theodore Granik's American Forum of the Air from a hotel here. Each participant read a statement outlining victory plans for 1942.

Spokesmen for the armed forces were Undersecretary of War Robert P. Patterson and Assistant Secretary of the Navy Ralph A. Bard. Patterson said 1942 will be a "tough year," but there is every reason for the highest confidence.

Need Civilian Effort.

"To start a victory tide surging forward there lies ahead of us in 1942 a stupendous civilian effort," he said. "Every available worker, every idle inch of factory space, every smallest tool must be brought to their fullest function in the vast program of producing the implements of victory."

He added that within the last year at least one plant has been completed of each of the 13 types required in the manufacture of munitions. Twenty-eight of these plants are in operation and an equal number will enter production soon, he said.

Bard said that Pearl Harbor, Wake Island and Manila have rebuilt the nation over night "resulting in a unified power so great and unmatched in the world today that the accomplishments in the last year will look like child's play compared to the smashing record breaking results to be achieved this year."

Industry, Labor Pledge Aid.

Albert W. Hawkes, president of the chamber of commerce of the United States, pledged the support of American industry in unprecedented war production. The first obligation is to win the war, he said, and this will require economy in expenditures and efficiency in operation.

Philip Murray, president of the Congress of Industrial Organizations, said the 5 million members of the CIO "are ready and eager to coöperate to the fullest with industry and government, and with other sections of organized labor, for the fulfillment of our country's aims."

William Green, president of the American Federation of Labor, said there is but one thought and resolution in mind, "That this war must be won as quickly as possible."

Federal Security Administrator Paul V. McNutt and Price Administrator Leon Henderson also spoke.

F. X. RYDZEWSKI TAKES OVER HELM OF POLISH LEGION

Frank X. Rydzewski was installed as national commander of the Polish Legion of American Veterans last night at the organization's annual dinner in Oaza hall, 1250 Milwaukee avenue. More than 600 persons witnessed the installation, which was the first since the national headquarters was moved to Chicago from Cleveland.

Civic officials and army officers also took part in the program. Speakers included Brig. Gen. Joseph Barzynski of the Chicago quartermaster's depot, and Maj. Gen. John Clinnin, commander of the Illinois reserve militia. Judge Victor J. Schlaeger was toastmaster. Tytus Kochanski, state commander, was chairman of the dinner.

Other national officers installed included Frank N. Block, vice commander; Henry Trowinski, adjutant; Dr. Eugene Ezwajkart, treasurer; Edward Fetro, financial secretary; Bronislaw Moroz, judge advocate, and Dr. Longin Tavenski, surgeon.

Judge E. K. Jarecki's Aid Is Called for Army Duty

Sidney T. Holsman, secretary to County Judge Edmund K. Jarecki and former Cook county commander of the American Legion, has been called to duty in the army reserve, it was announced last night. Holsman holds a commission as first lieutenant.

Friend of the YANKS

[The Friend of the Yanks department in The Tribune will attempt to answer draft and military service questions, both in the daily columns of the newspaper and personally if stamped, self-addressed envelopes are sent with the query. Information on army and navy service also will be given by The Tribune's Public Service offices in Tribune Tower and at 1 South Dearborn street.]

BY CLAY GOWRAN.

Many letters received by the Friend of the Yanks department in the last few days ask a question which it is impossible to answer satisfactorily in this time of war. The question is:

"I haven't heard from my son [or brother, or sweetheart] in weeks. He is a soldier [or sailor, or marine] assigned to duty in the Philippines [or Hawaii, etc.]. How can I find out where his unit is and whether he is all right?"

In wartime the movement of troops or ships, or the location of troops or ships, is adjudged a military secret of the highest possible importance. Disclosure of the whereabouts of regiments, destroyer squadrons, aircraft carriers—any units of the fighting forces—might lead to an attack by the enemy upon those units, with possibly disastrous results.

Whereabouts a Secret.

For this reason, the war and navy departments have ruled that the families and friends of members of the fighting forces in the battle zones cannot be informed of their whereabouts.

Not that the war and navy departments believe that the folk at home intentionally would disclose such information, with its great value, to enemy ears. But, if information of this type were released from Washington, it would be a simple matter for trained espionage agents to pick it up, piece it together bit by bit, and learn a great deal about the battle plans of the fighting forces.

Notify by Telegram.

Altho the war and navy departments keep mum about men in the active fighting units, when such men are wounded, killed, lost in action, or taken prisoner, their next of kin are notified by telegram from Washington, D. C. Usually such notification is received within four or five days after the incident, often sooner.

So, if you hear nothing about your boy, you can be sure that he is in good health and in there pitching.

QUESTIONS

"Joe" writes: "What are the age limits for the navy, and is it possible to join if you are under the limit if you can get the consent of your parents?"

Answer: Age limitations for the regular navy are 17 years to 31, and for the naval reserve 17 to 50. It is impossible for a boy under 17 to join, and naval recruiting officers advise that he not attempt to fake his age because he will be caught. Young men between 17 and 21 must have the consent of their parents.

Mrs. W. M. asks: "Can a young man who could not complete the army air corps flying course become a pilot in the navy reserve?"

Answer: Naval regulations specify that individuals who have failed the army flight training course are not eligible for flight training in the naval reserve.

New York, Jan. 4 (AP).—Two gray painted American vessels arrived today from West Indies ports carrying more than 350 members of families of army and navy officers and men evacuated from bases for the duration of the war.

EDUCATORS VOTE FAVOR OF DRAFT OVER ENLISTING

Protect Youth from Itself, Urges Dr. Elliott.

BY HAL FOUST.

[Chicago Tribune Press Service.]

Baltimore, Md., Jan. 4.—Voluntary enlistments for the army and navy were opposed in favor of the draft system in a resolution adopted this afternoon by a conference of 1,000 college and university presidents. The resolution conflicts with recruiting efforts for commissioned fighters.

Edward C. Elliott.

"The experience of the United States in the last war, and of England in the early months of the present conflict, offers abundant evidence that volunteer enlistment for military service is a threat to the total allocation of man power for its most effective utilization," the resolution said.

"In their eagerness to serve the nation, many of our most capable youths enter the armed forces despite the fact they may now be serving or preparing to serve in ways even more vital to total war and more in keeping with their training and ability.

Draft Termed Most Effective.

"Therefore the conference records its belief that the general application of the principle of selective service promises the most effective means for the placement of the individual according to his capacity to serve national needs and with the least disturbance of basic social institutions."

President Edward C. Elliott of Purdue university, chairman of the resolutions committee, said the committee of 11 college presidents debated long on this issue. It rejected a proposal that would have asked President Roosevelt to halt all volunteering.

"It was our consensus that youth must be protected from its own patriotic but misguided enthusiasm," said Dr. Elliott.

Deferment Plan Urged.

The conference also adopted a resolution to defer certain students from the draft to permit them to continue graduate work in essential fields requiring a high degree of training. Deferment of premedical, predental, and pretheological students until at least two years of college work is completed also was urged. Several other resolutions were adopted, ending the two day conference, which was called by the divisional committee on higher education of the United States Office of Education and by the committee on military affairs of the national committee on education and defense.

One resolution said colleges will coöperate with the government in surveys of available man power and woman power for essential national services, military, industrial, and civilian; of college and university facilities to prepare students to meet these immediate needs, and of ultimate needs in professional personnel for a long term conflict and for the post-war period.

Farm Program Urged.

Another urged the office of education to coöperate with the department of agriculture in the expanding of farm production.

A third resolution called on colleges and universities to bring each student to his highest level of physical fitness for national service.

In the final address of the meeting Dr. Isaiah Bowman, president of Johns Hopkins university, said American colleges will contribute actively to a victory and a just peace.

M. L. Wilson, director of extension work of the department of agriculture, told educators at the morning session they must help "every hen and every cow to do its duty" in a program that calls for an all-time high in production by America's 6¼ million farms. He said this country must provide Great Britain with one-fourth of its food.

Short Courses Suggested.

Wilson urged that undergraduates—women as well as men—take summer farm jobs and said schools should give short courses in training for the jobs. He also urged short courses in nutrition and home economics as a protection against malnutrition.

Arthur S. Flemming, civil service commissioner, said another half million men and women will be placed in government jobs by his commission between now and June 30. He said the jobs require education and that additional training also is needed by many of the 1½ million now on the federal payrolls "who have been promoted into tasks they are performing with difficulty because of lack of training."

He said part of the half million civil service jobs will be replacements and that the employment turnover is between 300,000 and 350,000 a year, partly because of the completion of projects. Jobs to be filled call for experts in personnel, economics, accounting, costs, taxes, meteorology, medicine, radio, chemistry, nursing, as well as stenographic and clerical help.

Need for Pilots Told.

Robert H. Hinckley, assistant secretary of commerce, said the civilian pilot training program, now three years old and operating in 700 colleges, must be greatly expanded. He blamed the setbacks suffered in the Pacific upon America's failure to appreciate the importance of aviation.

Dr. Leonard Carmichael, president of Tufts college, spoke as chairman of the national roster of scientific and specialized personnel. He said the roster is an index of America's trained brains designed to utilize them to full capacity for war work. He urged all with academic training of special demand to enroll for national service and said 60,000 have been placed in special services in the last 18 months.

Orville S. Poland of the treasury department's defense saving staff asked more coöperation from colleges and universities in the sale of defense bonds and stamps.

VICTIMS OF AXIS INVITED TO BACK UNITED NATIONS

Declaration Is Opened for New Adherents.

[Chicago Tribune Press Service.]

Washington, D. C., Jan. 4.—The United States government tonight invited those peoples overrun and shackled by the axis, to express their support of the declaration of united nations thru appropriate representatives.

The declaration was signed on Jan. 1 by 26 nations, headed by the United States, Great Britain, soviet Russia, and China. The accord declared a fight to the finish against the axis nations and pledged each signer not to make a separate peace with the enemy.

Open to Liberty Lovers.

Tonight's brief announcement from the state department merely said:

"In order that liberty loving peoples silenced by military force may have an opportunity to support the principles of the declaration by united nations, the government of the United States, as the depository for that declaration, will receive statements of adherence to its principles from appropriate authorities which are not governments."

The action was believed prompted by the Danish minister, Henrik De Kauffmann, who said last night that while the government in Denmark is under duress from the Germans, "Danes in the free world feel pledged to contribute the best of their efforts" to the war against the axis and adhere to the principles of the declaration. He made a formal representation to this effect to the state department Friday after the pact had been announced. Apparently he had not been asked to sign the document.

No Others to Sign.

State department officials explained that the "appropriate authorities" representing suppressed people would not become actual signatories to the declaration but their adherence to the pact would be deposited for the record.

[*In London a Free French spokesman said Gen. Charles De Gaulle's followers wholeheartedly would welcome the United States state department invitation to adhere to the pact of Washington.*]

One official said the term "appropriate authorities" was vague and probably would remain so inasmuch as those countries occupied by the axis which have recognized governments in exile already are signatories to the document.

FOOD POISONS 200 IN CORPS AT LAKEHURST

Lakehurst, N. J., Jan. 4 (AP).—Comm. F. C. Sachse, commanding officer of the naval air station here, disclosed today that 200 marines, sailors, and aviation cadets who ate at general mess yesterday noon had suffered food poisoning.

He said their attacks were painful but not serious and that all had recovered. They were stricken during the late afternoon and night.

An investigation was under way, he said, and samples of the meal, which included boiled ham, cabbage, and fruit salad, were being analyzed.

He stated "There is no indication of sabotage."

purposes. To these chaotic conditions is attributed the failure of the administration to effect a greater degree of industrial mobilization for turning out war material.

Outstanding example is the months of delay in putting the automobile industry fully to work on arms manufacture. The latest delay until Feb. 1 is being attributed to the war department, which, according to Leon Henderson, was not ready with war work for the auto plants this month.

Pressed to Create Supply Chief.

The President is being pressed from many quarters to create a war production czar heading a ministry of supply similar to the British organization of which Lord Beaverbrook is the chief.

Lord Beaverbrook, who is here with Prime Minister Winston Churchill, is advising Mr. Roosevelt on this matter, and it is more than likely that the President will adopt the British suggestions. He already has embraced Lord Beaverbrook's views in proclaiming an arms production objective that will consume half the national income, or about 50 billion dollars, this year.

The dollar a year men in the production setup blame the New Dealers' inefficiency and suspicion of business men for the failure to speed up output. The New Dealers accuse William S. Knudsen and other industrialists in the Office of Production Management of reluctance to abandon business as usual and are agitating for a new superproduction organization headed by Vice President Henry Wallace from whom Knudsen and his colleagues would take orders. Outstanding candidate against Wallace for production czar is Donald M. Nelson, now executive director of SPAB.

Interallied Board Expected.

The expectation in official quarters is that the formation of an interallied supply board having jurisdiction of production and allocation of completed war equipment will emerge as the next concrete result of the deliberations of the Anglo-American war council. It is understood the joint board will be headed by an American and that the headquarters will be in Washington.

The name of Mr. Nelson figures prominently in the speculation on the selection of the head of this agency. Mr. Nelson left for Havana today for a vacation. He participated in a White House conference last night on coördination of war production and lend-lease shipments.

Some surmised that he is vacationing in anticipation of assumption of more arduous duties. Nelson is reputed to be the author of a plan for pooling strategic war materials that has impressed both American and British authorities.

The President has not signified whether he will deliver his message in person or transmit it in writing. If he follows the Wilson precedent he will send it to the capitol to be read by the house and senate clerks. President Wilson revived the custom of appearing in person to deliver the annual message, but after the United States entered the World war Mr. Wilson transmitted the message in writing.

The house will get to work about Jan. 15 on the 1942 war tax legislation. The budget will be submitted by the President the latter part of this week.

Consideration of appropriation bills will begin at once with attention centered on efforts to cut down nondefense expenditures. A joint committee has recommended cutting 1 billion 300 million dollars from the appropriations for the current fiscal year and that 400 millions more of unexpended appropriations be transferred back into the treasury.

Price Control Bill Up.

The price control bill will be considered by the senate this week. As the house has passed a differing bill the legislation will be finally written in the conference committee.

The question of labor legislation will turn mainly on the success of the new war labor board, soon to be appointed by the President. Altho the house has passed anti-strike legislation and Senator Tom Connally [D., Tex.] is pressing for such legislation in the senate, the leaders are disposed to mark time pending a test of the device for ending labor stoppages of war production.

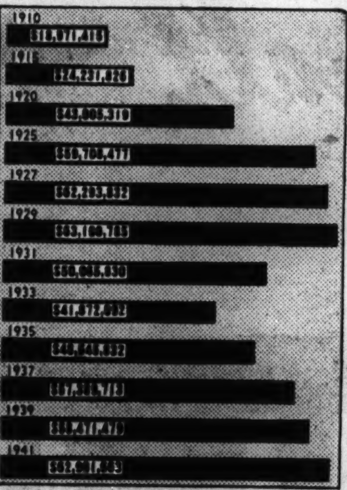
One of the first bills passed will be one authorizing the President to institute daylight saving by adjusting the clocks of the nation within a range of two hours.

ROB TICKET AGENT.

Two men waited until several persons in the Wellington avenue elevated station had boarded a train yesterday and then drew revolvers and took $11.57 from the ticket agent, William Gibson, of 2106 Bissel street.

Postal Record

(Story in adjoining column.)



Chicago postal receipts in various years since 1910.

CHICAGO'S 1941 POSTAL RECORD BEST SINCE 1929

The Chicago postoffice, one of the city's largest business establishments, did more business in 1941 than it has in any year since 1929, Postmaster Ernest J. Kruetgen reported yesterday. Total receipts of $62,901,663 were only $207,122 less than the predepression high.

Postal receipts are widely accepted as a barometer of business conditions since they are among the first to show the effects of increases or decreases in trade. Records in the postoffice dating back to 1878 reflect all the major depressions in the city's history.

The figures show postal receipts have increased steadily every year except in 10.

Kruetgen said that last year's figures also reflected world conditions in that they increased steadily as industry accelerated production for war and defense, then slacked off in December while the country was adjusting itself to the new burden of direct participation in the war.

Kruetgen said the postoffice sold $5,162,737 in government bonds during December. The sale of stamps brought in $1,532,602. A large amount of money invested in these bonds and stamps, said Kruetgen, probably was withdrawn from postal savings funds.

At the end of the year deposits totaled $107,639,710—$3,543,945 less than last year's total. Kruetgen said it was the first time in years that postal savings have not shown an increase.

BEAVERBROOK TO REMAIN IN U. S., BRITISH BELIEVE

LONDON, Jan. 4 (AP).—The possibility that Lord Beaverbrook, Britain's minister of supply, will remain in Washington, D. C., to assist in American production problems after Prime Minister Churchill leaves was being discussed tonight in informed circles. Tho there was no official confirmation, the parliamentary reporter of the British Press association pointed out that Lord Beaverbrook's first hand experience would be invaluable to American officials; that he would be a "dynamic influence" at war conferences of the "united nations," and that he would be able to relieve Lord Halifax, Britain's ambassador to Washington, "of some of his rapidly increasing duties."

HOW YOU CAN GET A $25 LOAN AT A TOTAL COST OF $1.60

Repay in four monthly instalments of $6.65 each, a total of $26.60—No endorsers or guarantors required

NEED EXTRA CASH? If you have a job, you can get a Household Finance loan at very reasonable cost. Suppose you borrow $25 and repay in four monthly instalments of $6.65 each, a total of $26.60. The cost of your loan is only $1.60. Or take a $50 loan repaid in four monthly instalments of $13.30 each, totaling $53.20. You pay just $3.20 for your loan. A $100 loan, repaid in six monthly instalments of $18.18 each, costs only $9.08.

All you do

You may apply for any loan shown in the table. And you may choose the payment plan which best fits your own income. So why not phone or visit us now? All you do to apply for a Household loan is to tell us how much you need and how you wish to repay. You need no endorsers or guarantors—just the ability to repay in small monthly instalments. This saves you the embarrassment of asking friends or fellow-workers to sign the loan papers with you. And at no time do we question friends or relatives about your credit. You get your loan simply and privately.

Household Finance loans are made in three ways. First way: On your personal note. No security required. Note loans are made, under proper conditions, to both single persons and married couples. Second way: On your car. This plan may suit you best. Third way: On your furniture. Many people prefer this plan. When making car and furniture loans, we consider character and income far more important than the value of your security. Your loan will be made the way which is best for you.

Why pay more?

Payments in the table include all charges. You pay nothing more. Household's charge is 2½% per month on that part of a balance not exceeding $100 and 2% per month on that part of a balance in excess of $100. The Small Loan Law permits us to charge substantially more than this. We publish our rates and payments to help you compare costs, to help you shop for your loan.

If you need money, see us at once. Or just phone and tell us how much you wish to borrow. We are always ready to make helpful loans. Phone or visit us without obligation.

WE-ALL

The Japanese attack on the United States instantly changed our trend of thought in this country.

Before that attack some of us thought in terms of "I", others in terms of "we". Neither of those terms expresses our feelings today.

"I" represents only one person.

"We" may mean only two or a few persons.

Our slogan now is WE-ALL, which means every loyal individual in the United States.

We are facing a long, hard job, but when the United States decides to fight for a cause, it is in terms of WE-ALL, and nothing can or will stop us.

President Roosevelt, our Commander-in-Chief, can be certain that WE-ALL are back of him, determined to protect our country, our form of government, and the freedoms which we cherish.

TIRE RATIONING BOARDS IN CITY TO OPEN TODAY

Purchases Must Be for Defense Needs Only.

Boards thruout the city will begin functioning today in the governmental tire rationing program, but no certificates for qualified purchasers of tires and tubes will be issued for probably three days. The quota for Chicago for this month is 2,523 passenger and 5,003 truck tires.

Michael F. Mulcahy, metropolitan tire rationing administrator, told board members yesterday their first duties will be chiefly to disseminate information. He suggested that they issue no certificates for two or three days and to meet in his offices this evening to discuss mutual problems.

Tires for Defense Use Only.

"In this way," he said, "we will get some idea of how many applicants there are and also clear up any points of information desired by the members. We want to cause as little inconvenience as possible to applicants, but we have a great task of conserving rubber to win the war and we hope that motorists who do not clearly qualify for tires will not slow up the process by seeking certificates."

Mulcahy again noted that tires for ordinary passenger use are unavailable, no matter how worn the tires or tubes. "Only those essential to defense," he said, "will be given applications. And they will get certificates only if accredited inspectors certify the tires are needed."

Boards to Judge Needs.

Under the regulations, Mulcahy said, motorists will go to any one of eight rationing boards for an application. If they fall into authorized categories they will fill out the applications, then go to any of the 12 testing stations to learn the extent of h[illegible] needs, if any. The boards will be open from 9 a. m. to 5 p. m. each day and the testing stations longer periods of varying length.

For the time being, Mulcahy has authorized regularly elected supervisors in 20 townships outside metropolitan Chicago as tire administrators in their respective communities. These will set up their rationing boards in a day or two.

Testing Station Locations.

The city's rationing boards are at 20 North Carpenter street [or 19-21 North Aberdeen street]; 2322 South Ashland avenue, 2019 Fullerton avenue, 6934 Cottage Grove avenue, 3308 Belmont avenue, 9038 South State street, 5140 Lawrence avenue, and 1745 East 95th street.

The testing stations are at 1617 South Michigan avenue, 4655 West Madison street, 26 East 16th street, 2247 Cottage Grove avenue, 2800 South Michigan avenue, 146 West 27th street, 752 North Ogden avenue, 658 West Chicago avenue, Arthington and Homan avenue, 333 West Lake street, 1903 West Pershing road, 1111 West Addison street.

Twenty four inspectors who will be assigned to the stations were sworn in yesterday by Mulcahy and Oscar Hewitt, commissioner of public works.

FIREMEN FIGHT 2 HOUR BLAZE IN FREEZING COLD

(Picture on page 8.)

Firemen fought a 3-11 fire for almost two hours yesterday morning at the Playhouse café, 550 North Clark street. Seventy hastily clad residents of the rooming house on the second and third floors of the building fled thru the smoke filled corridors into the zero cold of the street.

The fire, which started near the heating plant in the basement shortly before 9 a. m., caused $15,000 damage to the café, according to Deputy Fire Marshal Anthony J. Mullaney. An investigation was launched by Assistant Corporation Counsel Earle Downes, who today will question Ed Franks, owner of the café; Harry Gordon, manager, and Sam Sacks, rooming house owner.

The Playhouse, formerly called the Nut House, was managed several years ago by Edward Freed, whose wife, Carmelia, was acquitted by a jury in the unsolved slaying of Andrye Vallette, blonde party girl.

69 GERMANS AND SPANIARD NAMED SPIES IN MEXICO

Mexico City, Jan. 4 (AP).—A Mexican congressional committee today accused 69 Germans and one Spanish phalangist in Mexico of conducting espionage and propaganda work for the axis powers.

Alfredo Felix Diaz Escobar, committee president, charged in a statement listing names of the 70 persons, that there was a full-fledged campaign afoot to create differences among Mexican people and to promote opposition to coöperation with the United States.

The committee's list included three German gestapo agents, a newspaper editor, a German arms dealers, a nephew of Franz von Papen, Nazi ambassador to Turkey, and the proprietress of a fashionable apartment house.

Milk Mixture for Stomach Ulcer Pains

A recent medical discovery now being used by doctors and hospitals everywhere has proven unusually successful in the treatment of stomach ulcer pains caused from excess acid. It is a harmless preparation yet so effective that in many cases the pains of stomach ulcer pains disappear almost immediately after it is used. Also recommended for gas pains, indigestion and heartburn due to hyperacidity. Sufferers may now try this at home by obtaining a bottle of Lurin from their druggist. Lurin contains this new discovery in its purest form. Easy to take. Just mix two teaspoonfuls in a half glass of milk. Costs but little. Try a bottle. It must satisfy or money refunded. Lurin for sale by Walgreen, Stineway and drug stores everywhere.

Dog Leads Help to Dying Woman

Jack, the dog that drew attention to his mistress' plight when fire trapped her in her flat.

Call Is Heeded

Mrs. Tina Pint, 74 years old, has visited Oldrick Pencik's grocery at 1703 South Halsted street every Sunday morning for years. When she had not appeared at noon yesterday Pencik went to her home at 1709 South Halsted street to see if she were ill.

The elderly woman's small dog, Jack, met him at the stairway door and led the way, barking excitedly, to Mrs. Pint's second floor apartment. The grocer found Mrs. Pint almost unconscious, her bathrobe blazing, and the room filled with smoke.

Mrs. Tina Pint, 74 years old, had pital, where she died late last night. Lieut. John Hoff of the fire department said he believed the robe caught fire from a short circuited extension cord.

IDENTIFY THIRD BANDIT IN THEFT OF $26,800 GEMS

James Hayden, 29 years old, was identified at the detective bureau showup yesterday by August Axt of Milwaukee, Wis., a wholesale jeweler, as one of the bandits who robbed him of $26,800 in jewelry in Milwaukee Oct. 5, 1940. Five other witnesses also identified him.

Hayden, who lives at 120 South Wood street, was seized by agents of the Federal Bureau of Investigation at 2350 Madison street three days ago and turned over to police.

Police said that Earl [Big Earl] Herbert, notorious Chicago dry era hoodlum, and Frank Blacka, alias Novak, an ex-convict, are now serving terms of 3 to 30 years in the Wisconsin state prison at Waupun for the robbery. Herbert once served a sentence for killing, and was sentenced to prison for a second killing but won a reversal in that case.

RED CROSS GIVES WOMEN CHANCE TO DO THEIR BIT

110 Units Now Prepared to Enroll Workers.

Mrs. E. L. Ryerson.

The hundreds of women who swamped the offices of the Chicago chapter, American Red Cross, with demands to be allowed to help in the making of surgical dressings and garments for war victims following Japan's attack on Hawaii, now will have the opportunity to do their bit for national defense.

Mrs. Edward L. Ryerson, chairman of the volunteer production corps of the Chicago chapter, said yesterday that 110 units of the corps are now prepared to enroll women workers. The corps has been expanded by 100 more units and alterations have been made necessary at chapter headquarters, 616 South Michigan avenue, for their supervision.

Home Nursing Classes.

The surgical dressings production room at headquarters is to be closed for alterations temporarily and all production corps volunteers who have been working there are asked to report to their neighborhood units or to the loop workroom at 115 North Wabash avenue, Mrs. Ryerson stated.

Women wishing to register as volunteers of the corps may call chapter headquarters for the location of their nearest neighborhood unit.

Other women who wish to take part in the Red Cross civilian defense program are invited to join special classes in home nursing and family nutrition, Mrs. Estelle Weltman Blatt, director of home nursing for the American Red Cross, said.

Registration for the classes will take place between 2 and 4 p. m. today in six park district fieldhouses on each side of the city. The fieldhouses are located in Greenbriar park, 2650 West Peterson avenue; Independence Park Community building, 3800 West Byron street; Almira Simons park, Wabansia and Drake avenues; Garfield park, Washington boulevard and Central Park avenue; Sherman park, 33d street and Racine avenue, and Fernwood park, 104th street and Lowe avenue.

Daily Registrations.

The courses will consist of one session of two hours each for 12 weeks.

Also part of the park district-Red Cross coöperative program are first aid classes conducted in 100 fieldhouses for which registrations are taken daily.

Marking the first Monday of the year, Bundles for American Bluejackets will open its financial drive to raise funds for comfort kits for navy men and marines today, Mrs. John P. Cohane, chairman of the women's committee, announced yesterday. Contributions, which may be sent to 337 North Michigan avenue, will be spent for materials for several thousand kits a month, she said.

Part of the drive will be the enrollment of members in the Komfort Kit Klub at $1 a year.

The Illinois committee for Bundles for American Bluejackets will meet at 3:30 p. m. tomorrow in the Casino club at which time Mrs. Cohane will make a report of the organization's activities.

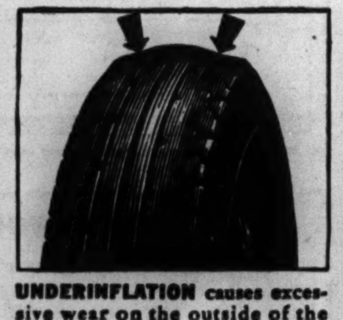
ADVERTISE IN THE CHICAGO TRIBUNE

FOR THE DURATION OF THE WAR
"Every Ounce of Rubber is a Sacred Trust"

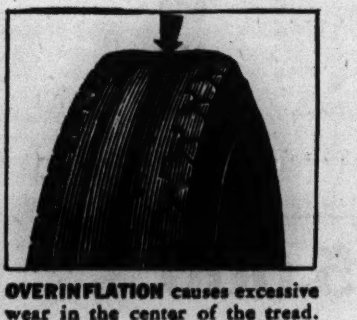
The Car Owner's Creed

- I will drive my car only when absolutely necessary ...avoiding extra trips by doubling-up with my neighbors whenever possible.
- I will drive at a moderate speed to avoid burning up my tires.
- I will start and stop my car slowly and slow down on turns to avoid grinding off the tire tread.
- I will park carefully to avoid scraping and bumping my tires against curbs.
- I will keep brakes adjusted to avoid spotty tread wear.
- I will use my brakes carefully, shifting into second gear going down steep hills, to avoid excessive tread wear.
- I will keep my wheels correctly aligned and balanced to avoid uneven tread wear.
- I will have my tires cross-switched at least every 5000 miles to increase my total mileage.
- I will have the air pressure of all my tires checked every week to get the greatest possible mileage.
- I will have my tires and tubes inspected regularly as a precaution against future trouble and wasted rubber.

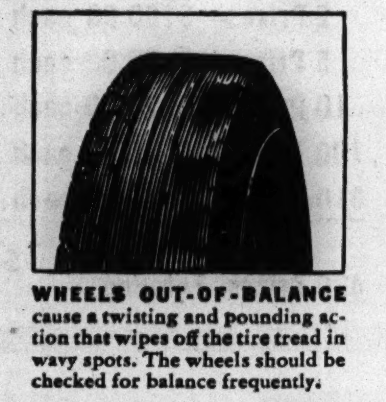
WATCH OUT FOR THESE SIGNS OF TIRE WASTE



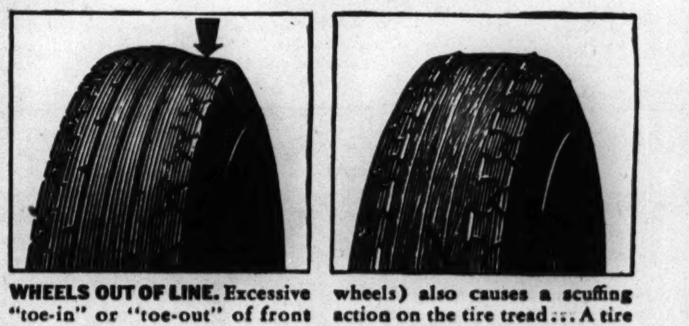
UNDERINFLATION causes excessive wear on the outside of the tread and shoulders. The tire crushes easily, flexes violently and builds up unnecessary internal heat.



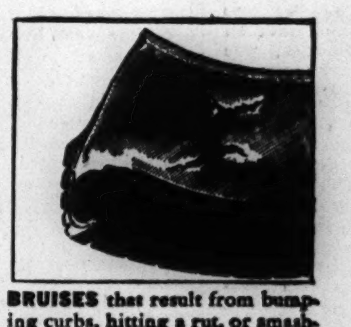
OVERINFLATION causes excessive wear in the center of the tread. Mileage is greatly reduced—non-skid safety impaired, and tires ride hard—bruise more easily.



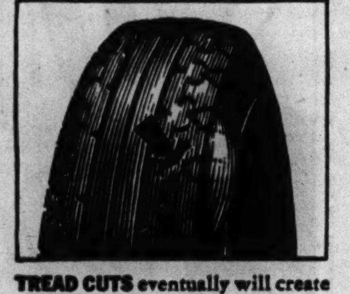
WHEELS OUT-OF-BALANCE cause a twisting and pounding action that wipes off the tire tread in wavy spots. The wheels should be checked for balance frequently.



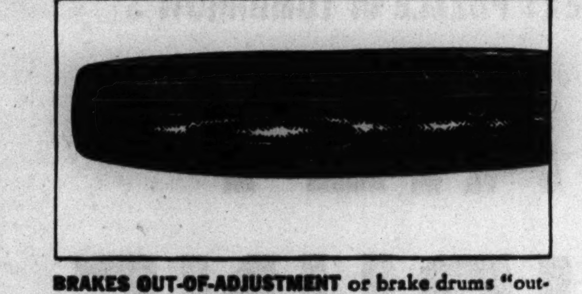
WHEELS OUT OF LINE. Excessive "toe-in" or "toe-out" of front wheels literally scuffs away the rubber. Too much or too little "camber" (outward tilt of the wheels) also causes a scuffing action on the tire tread . . . A tire on a wheel that is only ½ inch *out of line* is literally dragged sideways 87 feet in every mile.



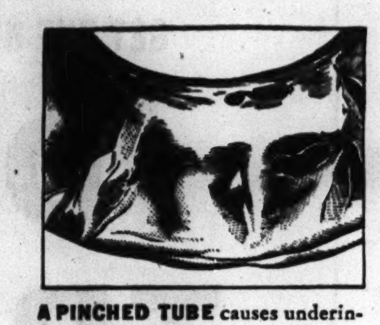
BRUISES that result from bumping curbs, hitting a rut, or smashing against any hard object often break the cord fabric inside the tire and start a blowout on its way.



TREAD CUTS eventually will create a separation of the tread from the cord body and ruin the tire. These cuts, if repaired in time, will be rendered harmless and save the tire.



BRAKES OUT-OF-ADJUSTMENT or brake drums "out-of-round" cause the tire tread to wear out in only one spot. Brakes out of adjustment often cause one tire to scuff and slide more than the others which scrapes off the tread of that tire very rapidly.



A PINCHED TUBE causes underinflation that wastes tire mileage—sometimes causes a tube failure. This pinching and buckling often results from improper mounting.

GO TO YOUR U. S. DEALER . . . He is a tire expert you should get to know. He will be glad to check your tires regularly for signs of trouble that you might easily overlook. He will keep the correct air pressure in them, too, and on a regular schedule.

WAR PUTS CRIMP IN SUPERHIGHWAY PLANS IN COUNTY

3 of New Board Members to Meet This Week.

Robert A. Gardner, newly appointed chairman of the Cook county highway authority, said yesterday that the war may prevent carrying out any of the plans for toll superhighways envisioned by the legislature when it created the authority last spring.

Projects which might be developed during the war probably would be based upon federal funds, and possibly would be linked with unemployment relief, Gardner said. He is president of the Chicago Community fund and a member of the brokerage firm of Mitchell, Hutchins & Co. His home is in Lake Forest.

Business Common Sense.

"I intend to apply business common sense to the job, since I am not an engineer," he said. "It appears that there won't be much of a building program with the present situation in the world. I discussed highway matters, including those on which some pressure has been brought to bear, with Gov. Green prior to my appointment.

"Naturally, I have been impressed by the elevated highways I have seen in New York City. I am approaching the subject with an open mind, however."

The board has the power to issue bonds to be redeemed out of highway toll payments.

Others Named to Authority.

John J. Schommer, professor of industrial chemistry at Illinois Institute of Technology and a well known athletic official, and Albert H. Veeder, a lawyer and member of the Chicago Planning commission, also were appointed to the authority by Gov. Green Saturday.

"We can listen to the suggestions of property owners but it is certain that any building done during this war must be correlated with the defense effort," Schommer said. "The military value for moving troops into or thru Chicago would be a factor in any project proposal.

"I've got a lot of work to do to find out about the subject of superhighways, including such controversial questions as the Lake street and Congress street plans."

They May Meet Today.

The three Green appointed members of the board will meet this week, perhaps today, in an office of the state highway division at 35 East Wacker drive. As the state administration finally shaped the legislation creating the board, there are to be only two members not appointed by the governor.

The county superintendent of highways is a member by statute. He is Maj. George A. Quinlan. Mayor Kelly has not yet made the remaining appointment, allocated to him. One report is that he will name Philip Harrington, city commissioner of subways.

GROCER WHO SHOT SELF DIES.

SPECIALISTS PREVENT BALDNESS

CHICAGO, Jan. 5—"If you are losing your hair or have an annoying scalp disorder, you can be helped," says John E. Warner, noted scalp specialist. "By correcting and eliminating the cause of your trouble we can prevent baldness and give you a normal, healthy scalp. Our services are NOT offered to those completely bald (except cases of alopecia areata) because hair once lost cannot be regrown. Don't wait until disfiguring baldness has permanently ruined your appearance. If your head itches, or your hair is excessively dry or oily and falling, take heed of these signs of approaching baldness and come in for a free hair and scalp examination. No case is ever accepted unless we are sure you can be helped. Our scientific treatment is superior and more effective because of constant research and study; yet the fees are within the reach of all. Come in and learn how we can help you just as thousands of others, troubled as you are, have been helped." There is no charge or obligation for a scalp examination and consultation. Examination and treatment are given in strictest privacy. FEES FOR TREATMENT ARE VERY MODERATE AND ARE PAYABLE AS THE TREATMENTS ARE TAKEN—NOT IN ADVANCE. Hours 10 A. M. to 8 P. M. daily, Saturdays to 6 P. M.

There is a separate department for women. Other Warner offices located in Boston, Pittsburgh, Hartford, Philadelphia, Detroit and Los Angeles.

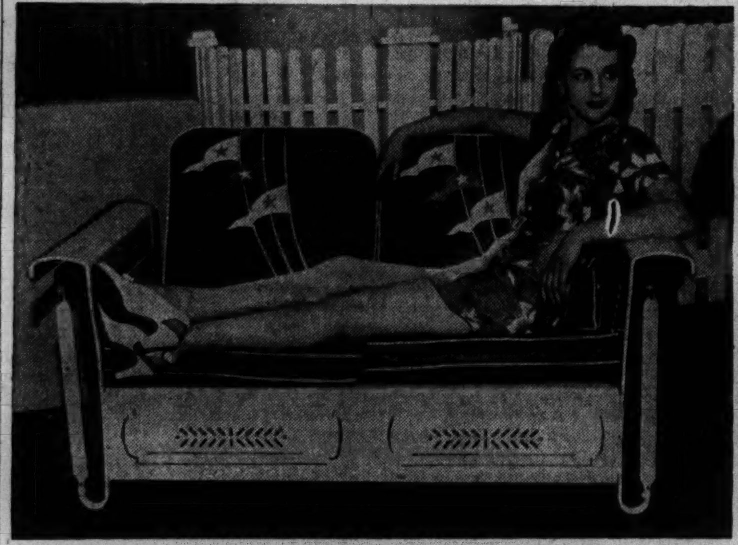
At the Home Furnishings Show



[TRIBUNE Photo.]

Estelle Page relaxes in an outdoor summer love seat of the glider type on exhibit at the National Furniture and Home Furnishings show, which opens today in the American Furniture Mart.

Continues 2 Weeks

More than 25,000 furniture buyers from thruout the country are expected to attend the midwinter markets at the American Furniture and the Merchandise Marts, officials of both marts said yesterday. The shows open today to continue for two weeks.

Fourteen thousand buyers are expected in the American Furniture Mart, which will be a new high in attendance. Last year the midwinter show hit its peak with slightly more than 13,000. Approximately 5,000 manufacturers and salesmen will be on hand to serve the buyers.

An all-time high of 2,500 buyers will open the show at the Merchandise Mart today, Percy Wilson, managing director of the building, predicted. Over 1,950 home furnishing lines will be displayed with the total market attendance from all states expected to exceed 12,000.

DRIVER OF AUTO KILLED IN CRASH WITH STREET CAR

Fred Lepey, 23 years old, 2649 North California avenue, was killed yesterday in a collision between his automobile and a street car in front of 614 North Western avenue. Firemen had to use acetylene torches to cut away parts of his wrecked car to extricate his body. His wife, LaVerne, 19, was seriously hurt. Two street car passengers also were hurt. They are Meyer Batko, 49, of 716 South Keeler avenue, and Isadore Brooks, 40, of 1815 South Central Park avenue. Injured were taken to St. Mary's hospital.

A man believed to have been Victor W. Bolden, 48, of Plano, was killed when his automobile was struck by the Denver Zephyr of the Burlington railroad near Bristol, 15 miles west of Aurora.

Up to 4 p. m. Yesterday, 12 persons had been killed by automobiles in Cook county since Jan. 1. Of these, seven were killed in Chicago where 231 were injured in the same period.

DIES OF FALL INJURIES.

Mrs. Margaret Bickler, 82 years old, 4224 North Harding avenue, who was injured Dec. 31 when she fell as she stepped from a street car at North and Elston avenues, died yesterday in St. Elizabeth's hospital.

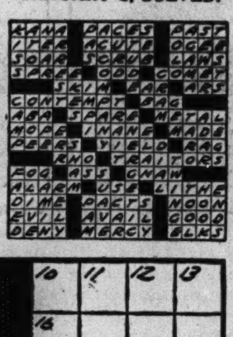
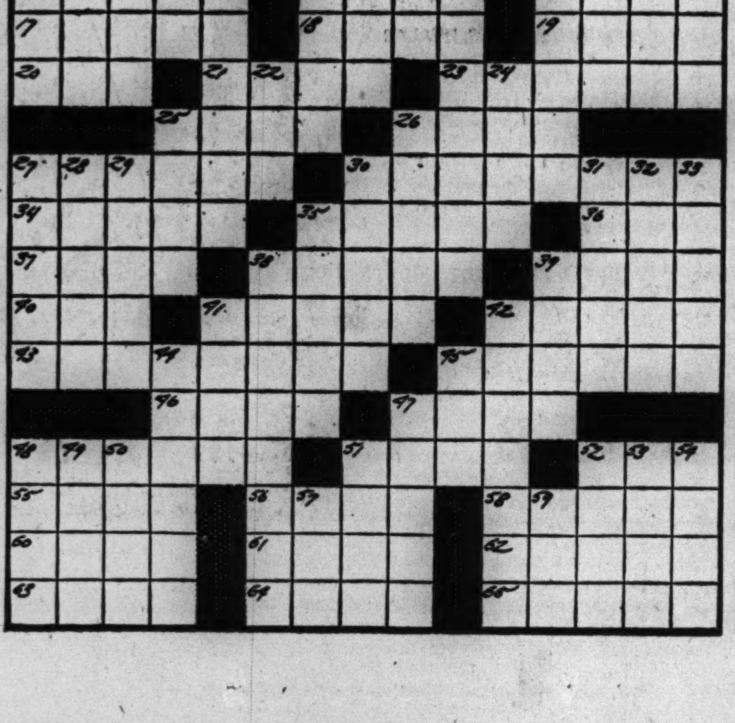
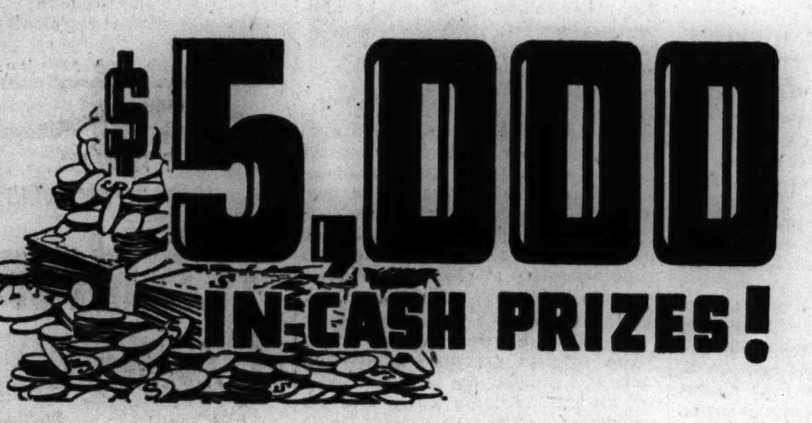
PUZZLE OF SATURDAY, JANUARY 3, SOLVED.





DADDY WARBUCKS
Who's Who IN THE COMICS?
CINDY
SMITTY



THERE'S still time to start this interesting new game. For the benefit of late starters, the first four puzzles are printed here. Can you rearrange the letters of each of these puzzles to spell the name of a popular Tribune comic character?

This offer is open free to all. There are no subscriptions to solicit—no strings or catches. Simply enjoy yourself solving the puzzles. Start with the four printed here, then continue the series in tomorrow's Daily Tribune. You may win as much as $1,000 in cash.

★ THE RULES ★

WHO CAN ENTER? This game is open to everybody—men, women, boys and girls everywhere—excepting employes of the Chicago Tribune and members of their families.

WHAT TO DO? Each weekday a picture containing the scrambled name of a Tribune comic character will be published in the Daily Tribune until 45 have appeared. Unscramble the name. Use every letter in the picture. Write or print the name on the line provided. Facsimilies are acceptable. Hold all answers until you have the complete set of 45. **Do not send them in separately.**

WHERE TO SEND? Mail your entry by First Class Mail to "Comics," Chicago Tribune, Post Office Box 1539, Chicago, Illinois. With your entry send a letter, giving your name and address, and telling in 50 words or less which is your favorite comic character and why. Letters will be considered only in the event of ties in naming the comics. Entries must be in the office of the Chicago Tribune by midnight one week after Name No. 45 has appeared.

BASIS OF AWARDS: Entries will be judged by a committee appointed by the Chicago Tribune. Entrants agree to accept the judges' decisions as final. Awards will be paid to the persons who send in the nearest correctly solved, complete sets of unscrambled names. Neither handwriting nor elaborateness will count. In case of ties, duplicate awards will be paid.

SOURCE OF POISON THAT KILLED TWO AT TRYST HUNTED

Police investigation yesterday of the tryst deaths of a St. Louis business executive and a Chicago divorcée narrowed down to two major points:

1. The source of the violent poison that mixed in champagne brought quick death to Clare S. McArdle, 50 years old, and Mrs. Nancy La Motte Wassman, 39, a beauty parlor owner, as they dined early Saturday morning in a private room of L'Aiglon restaurant, 22 East Ontario street.

2. The identity of the person to whom Mrs. Wassman put thru a long distance telephone call from the restaurant a short while before the bodies were discovered by a waiter.

The poison, which causes death in five seconds, was found in the champagne glasses. Police established that Mrs. Wassman carried a quantity of it in the powder compartment of her handbag.

Mrs. Wassman's brother-in-law, Walter Prill, a tool and die maker, with whom she made her home at 1419 Hollywood avenue, has told police that he occasionally used the poison in connection with his work, but officials have not determined whether the divorcée secured her supply from him.

Police considered the telephone call important to the case, since a colored maid who overheard the placing of the call said it was to some point in Missouri—possibly to McArdle's home in fashionable Clayton, suburb of St. Louis.

BOND FUND PLAN FOR 40,000 TO BE DISCUSSED TODAY

One hundred employers of 40,000 Chicagoans will meet this morning to play voluntary pa yroll allotments for the purchase of defense stamps and bonds. The meeting will be at the defense savings staff headquarters in the Bankers' building.

Under the plan workers voluntarily pledge themselves to turn a percentage of their weekly income into the buying of defense bonds.

Half a million Chicago employés of more than 400 firms already are buying 1 million dollars worth of defense bonds weekly, according to E. R. Seese, co-chairman of the life insurance underwriters' defense bond campaign.

PERTINENT QUESTIONS.

The order closing down the automobile industry, America's largest, coincided with the fall of Manila. Whether intended to do so or not, the order did succeed in distracting public attention from the loss of our principal base for military and naval operations in the western Pacific. Today the American people are talking about automobiles and tires and not about catastrophic blunders and criminal negligence in Washington and Hawaii.

Except for the negligence which exposed our fleet to the surprise attack at Pearl Harbor and the blundering which dispersed our armament all over the world, there would be no occasion today for alarm over supplies of rubber and tin. As if to make it certain that the American people would not concentrate their attention upon the responsibility for the loss of the naval base at Cavite, Mr. Leon Henderson has now hinted that the government may soon find it necessary to requisition private cars.

The American people are not unwilling to make any sacrifice which will hasten the winning of the war. That goes without saying. They will expect, however, that the sacrifices asked of them are unavoidable.

It is not encouraging to find that Mr. Henderson these days is full of oats. He is in a mood of exaltation. "If you think it's tough now," he says, "you ain't seen nothing yet. Wait until March or April." It is to be hoped that this mood will pass and that Mr. Henderson and his colleagues will come to realize that their most important task is not to create a maximum of economic disturbance but the minimum of disturbance consonant with winning the war.

Those in Washington who have long striven to establish an economic dictatorship are having a field day. The war is made to order for their purposes. It makes it relatively easy for them to obtain legislation and impose regulations which will be difficult to repeal after the war and which, if they remain in force, will destroy the American form of government.

The country, accordingly, has reason to be grateful to Congressmen Woodruff and Hoffman of Michigan for their insistence upon asking pertinent questions. Why are we being pushed around in the Pacific? Billions were appropriated for airplanes and other arms. Why hasn't Gen. MacArthur got them now? Are all the regulations which have been instituted as war measures strictly necessary for winning the war? Why, for instance, is it proposed to export to South America some of the few cars which will be made this year? Haven't we plenty of gold to exchange for anything we may buy from foreign lands?

Other representatives and senators should show equal courage and join in the demand for removal of incompetent burocrats who are more intent upon reorganizing American life than on winning the war.

THE GRAND JURY REPORT.

The December grand jury was the second such body to investigate the gambling industry in Cook county since THE TRIBUNE printed the gang financial records that proved the wide extent of the corruption practiced by the Guzik-Nitti mob of panders and murderers.

After returning minor indictments the grand jurors sought to file a report disclosing the nature of the evidence presented to them. Altho he had accepted a similar report from the November grand jury, Judge Dunne refused to enter this one in the record and ordered the grand jurors to destroy it.

A month ago he advised the November grand jury that their report was not privileged and that they might be sued for libel for any statements made in it. This did not frighten the grand jurors. They probably realized that any one considering a suit against them would be dissuaded by the fear that they could prove what they said.

It is the primary function of a grand jury to indict for crime rather than to inform the public. The grand jurors would have done better had they embodied their information in indictments rather than in a report, but a grand jury report disclosing the alliance of crime and politics is better than the drawing of a smoke screen around it.

A CRUEL GIBE.

Hannen Swaffer, a London practitioner of what in America is called the gents' room school of journalism, could not forbear to print a wisecrack at the expense of the American navy. In the London Sunday People he quoted an official of the American embassy in London as saying after the Pearl Harbor attack, "We are thinking of dressing our bluejackets in kilts, so that the next time they cannot be caught with their trousers down."

The American government, thinking of almost 3,000 brave men who died in the treacherous Japanese attack, showed a natural interest in discovering the identity of an American representative who could speak so callously of his own countrymen. Mr. Swaffer then explained that the "quip" was quoted to him by Lieut. Col. Arthur J. McChrystal, an assistant military attaché in the American embassy, but that McChrystal had repeated it with indignation as an example of the misplaced levity of some Britons.

This would appear to leave McChrystal in the clear. It does not relieve Mr. Swaffer of responsibility for presenting the cruel gibe with a distorted explanation of the circumstances under which it originally came to him. Nor does it place in a favorable light the Briton who originated the remark and passed it on to McChrystal.

The British went thru the successive humiliations of Norway, Flanders, Greece, the second battle of Libya, and Crete, and on this side of the water there was never a disagreeable remark about their failures. The press and the public commented on the military consequences of each of these reverses, but there was never anything but sympathy for the brave men of the empire who did not have the numbers, the weapons, and the preparation to halt a foe who had them all.

But the first time the United States sustains a crushing blow, even tho it was struck treacherously, some Britons turn the disaster into a scornful joke. Levity at the expense of men who faced death bravely will hardly promote understanding between the two nations or aid in successful prosecution of the war.

BUSINESS LOANS IN WAR.

When the first World war started in 1914 Chicago banks had 701 million dollars in loans outstanding. As orders poured into this country from England and France, corporations were obliged to borrow funds to finance the expanded scale of production. In the interval between the beginning of hostilities in 1914 and our declaration of war on Germany in 1917 the loans of Chicago banks increased 40 per cent to 985 million dollars.

This experience has been repeated during the last two years. When Hitler marched into Poland in 1939 the loans of Chicago banks totaled 665 million dollars. A table published in Saturday's TRIBUNE showed that by the end of 1941 loans here had risen 67 per cent and stood at 1 billion 108 million dollars. Loans are a little higher now than when we went into the first World war, but there is very much greater industrial and financial power here now than there was then.

In the year and a half that this country was in the World war Chicago bank loans increased less than 100 million dollars. Since the banks during that time were offering loans to all comers, customers or not, on the security of government bonds, at very attractive rates, it seems probable that commercial loans dropped here during the last war.

While the business loans of the banks appeared to have declined in 1917 and 1918, so did the floating of new capital issues. The amount of new financing in the United States by the sale of stocks and bonds dropped from 2.1 billion dollars in 1916 to 1.5 billions in 1917 and 1.3 billions in 1918. This was less new capital than had been poured into business for a number of years, and 1918 made a low record which was not broken until 1932.

Experience thus suggests that business houses in time of war are reluctant to go into debt, either by borrowing from the banks for short periods or by floating new security issues. Business men are cautious in wartime and are not swept off their feet by the swollen volume of orders pouring in.

Despite the fact that it is the tendency of corporations to pay off their debts in wartime and to show great restraint in making new commitments, word comes from Washington that one government agency after another is seeking power as a war measure, to put the brakes on business financing. The Wall Street Journal reports that the treasury wants to be able to sidetrack private security offerings when it is floating an issue of its own. The Federal Reserve board is asking for a broadening of its authority to control the lending power of the banks. The Securities and Exchange commission is seeking more power over security flotations, dividends, salaries, and other matters.

Some of these agencies are getting in each other's way. The board of one corporation was recently perplexed whether to pay out most of its earnings as dividends as had been suggested by a treasury department agent or to use the earnings to pay off bonded debt as suggested by a member of the SEC.

Every burocrat, big and little, seems intent upon using the war as an excuse to grab himself some extra authority. It may be wise to widen some of the powers of the executive for the period of the war, but the record of business in the last war shows that there is not the slightest need for the capital market controls which the opportunists in two or three agencies are seeking.

MONEY IN THE BANK.

The people of Milwaukee are to be congratulated on the management of their municipal finances. At the bottom of the depression, in 1932, the city had a bonded indebtedness of $51,000,000. This year opens with the debt reduced to a little more than 13 million dollars, and within a few years it will be completely discharged. At the same time that the bonds were being paid off the city was putting its current expenses on a cash basis to avoid the necessity for tax anticipation borrowing.

The record is a remarkable one and reflects the greatest credit upon the character of the community. A city gets the kind of fiscal management its people want and evidently the people of Milwaukee want theirs honest and efficient.

In this connection it is worth noting that when the economy program was undertaken there were numerous objections from those who feared that the quality of the municipal services would decline. Evidently these fears were groundless. Mr. Thornton Smith, THE TRIBUNE'S correspondent in Milwaukee, notes that there are no complaints from citizens to suggest that the taxpayers are getting less for their money than they got before.

Milwaukee has money in the bank to meet its bills as they come due. Milwaukee is nearly out of debt. Even the problem of tax delinquency, which is so troublesome in Cook county, appears to have been met there with considerable success. Milwaukee shows what any city in the nation can do to improve its financial management if the will to improve is present.

Editorial of the Day

THIS WELL ORDERED WORLD.

[New York Herald Tribune.]

Is it disconcerting to look out of the window and observe that everything except human beings is in perfect order as the old year ends? Thru any window that includes some sky and a few fields or hills one can see a great deal of security. Heavy and light machinery of prime quality also is operating with precision and reconditioning itself as required, in space. The sun turned promptly in his tracks before Christmas, as he has always done, and began at glorious leisure to bring summer back to the northern hemisphere. The stars have not been unsettled by planes at combat in realms where nothing [unless it was angels] has flown. Weeds, in brown filigree, are shaking out seeds as usual for next spring. The regular robin which always stays over applies for his pension from people who will later announce him to the press as "the first robin." Energy meets wood, and fire springs upon the hearth as it did for Old Stone folks; unchanged and satisfactory. The dog finds and gets on the good side of man, as when they gnawed each other's bones. Under and over human beings the universe whirls along serene, not slightly altered by threatening disaster to our species, since, after all, so many wonderful earthly species have been exterminated.

How sane it is that no attention is paid to man except by men! We have filled the air with irradiated nonsense, but only we hear it. We did succeed in bombing a few atoms, but their place was taken by others waiting about. We have conquered the air and sea, but there is no way of getting this news thru to Orion or the Honduras Deep. Even when flying above the atmosphere we have to keep on turning with the earth, like butterflies tied to a bush. With or without us, all moves in its established order.

There is order in the world and beyond it. There is no malice except among men.

THE GIFT OF TONGUES.

Linguists have a habit of turning up in unexpected places. The gift of tongues is often hidden in humble vessels, and seedy chairwarmers of public libraries or scrubby bus boys in hotel restaurants are more likely to possess it than sleek La Salle Streeters with a high opinion of their Harvard diplomas. . . . But we never expected to hear that the elder statesmen of congress contained an expert in Japanese, and we bow in awestruck admiration before Senator Thomas of Utah, a state which seems to have a bent toward the miraculous.

• • •

It is interesting to note that the amazing senator acquired his proficiency in speaking Japanese while following a religious rather than a political vocation. Missionaries have always been doughty fellows among peculiar and exotic languages; consider the Jesuits who wandered among the barbaric tribes of this continent when it was a wilderness, translating the Bible into Iroquois, Ojibway, and whatnot.

• • •

The average educated Japanese knows about 8,000 ideographs—the characters in which the language is written or printed. Their memorization is a difficult feat for an occidental, accustomed to our easy way into language study thru the phonetic alphabet. After that, however, the task ought to be simple, if one has the gift.

• • •

The eccentricities of foreign languages have been a fertile field for American humorists, who have a notion that any form of speech except their own is absurd and ridiculous. A comic essay on studying German is one of the high spots in Mark Twain's works. See, too, the current "Subtreasury of American Humor," which contains a skit by St. Clair McKelway on his brief struggle with Japanese.

• • •

The most familiar American horselaugh about Japanese language habits is Wallace Irwin's "Letters of a Japanese Schoolboy," published in 1909. It was syndicated and became a favorite breakfast food among newspaper readers. Even now, when one wishes to refer humorously or satirically to a Japanese, Irwin's name for his hero comes to mind—Hashimura Togo.

THE MORNING AFTER.

Hand me the arsenic, dearest;
Go purchase some widow's weaves;
Tho barely alive
I shall never survive
This latest of New Year's eves.

Give me the pearl-handled pistol,
And stop up your ears very tight;
And kindly forbear—
I'm too far gone to care,
Or to hear how I acted last night!

Come fry an egg on my brow, dear;
Freeze an ice-cube at my feet.
My morbid reflections
On last night's derelictions
Convince me I'll never repeat!

Next year we'll be staid and conservative.
Next year we won't do a darned thing!
We'll stay home and then
Retire at ten—
[Now why has that such a familiar ring?]

Cholly.

War Comes to the Universities.

It is dusk and the campus buildings are big and black against a sky streaked with dark-blue wash. The long necklace of lights along the Broadwalk comes softly to life. A little Japanese student keeps his head down and his coat collar up as he swiftly paces along the walk.

Nearly 100 students are gathered outside the Auditorium, listening quietly to a speaker. The campus pacifist leader stands beside a tree watching and listening. He can feel the cool air whipping past, smoothing his cheek and tickling his nose.

The speaker talks about the graveness of the emergency, and a co-ed clutches at the arm of an ROTC boy who is looking grim and determined. One of the crowd calls out to the little Jap student as he hurries by, "Hey, Yakuchi!" The Japanese stops dead in his tracks. After a moment of silence, he says, "What?"

"Come on over and join the rally."

Yakuchi walks over, a tight, restrained smile slowly creeping over his face. He listens to the speaker, and thinks of his people and his friends—in San Francisco.

The pacifist lights a cigaret. He looks at the rows of gaunt, black trees with spidery branches forming a lacy collar for the sky, and wonders if it's possible that they'll ever be green again. . . .

The meeting has broken up now and little clusters of people are heading home, some talking in low tones, some clowning and gesturing. No tin-pan parades; that was only in the first flush of immature enthusiasm. The little Japanese student walks away with his coat collar down and his head held up.

The pacifist flicks his cigaret away and for the third time that day vaguely wonders if he shouldn't enlist.

Orange and Blue.

SOME MUST CLIMB.

The sparrows nest secure beneath the eaves,
The changing seasons bring to them no call.
They feel a kinship to all home-bound men
Who live content behind their ivied wall.

The flying geese fling out their trumpet notes,
A challenge to the restless and the bold;
They are the brothers of the stars and winds,
The high and distant peaks their eyes behold.

O, always some must climb and some must stay,
And which the better road, what man can say?

WHY BACTERIA ARE DANGEROUS.

LIKE people, certain bacteria are friendly while others are undesirable enemies. Those which are useful [nondisease producers] contribute largely to the flavors of food, such as cheese. In addition they destroy animal and vegetable refuse which otherwise would encumber and befoul the surface of the earth. The varieties which are able to cause inflammation are looked upon as dangerous. Naturally, every one who "catches" [harbors] them makes an effort to say good-by as speedily as possible. If the resistance is maintained at a high level they will be held under control. But, like a bunch of cattle, there is an ever present risk of a stampede. Should the herders [body reserve] fail, we are in for trouble. Thus it is that microbes which ordinarily would be checked by one who is reasonably healthy may—in one who is run down—multiply in great profusion.

The organisms of tularemia, for example—when inoculated—may bring about the demise of a bunny. As a rule this is the end of the story. The bacilli will cease to live shortly after a rabbit succumbs. If sheep become infected with anthrax, however, the causative agent may form spores [seeds] which can resist heat and drought for months or years. They may pollute the soil and be ready to transmit the disease to all animals grazing in that area.

When one becomes ill because bacteria have moved in, the outcome depends more upon stamina than upon the virulence of the germs. With the tired out or undernourished victim, severe illness may follow. Thus we realize that good nutrition plays an important rôle in resisting contagious maladies. But it is far wiser to keep the vitality at par. This may not be synonymous with a blooming appearance or the fact that one is in "good flesh." In fact, there is reason to believe that poliomyelitis [infantile paralysis] favors those who look well fed rather than those who are thin but who use a balanced diet.

Suppose that a boil has developed. We know that the skin is infected with millions of staphylococci. There is an immediate response on the part of the blood. White cell destroyers are rushed to the area, they surround the nests of cocci, and endeavor to annihilate them. This, in turn, brings about pus formation.

The reason we do not open these lesions during the early stages is because we would carry the invaders deeper into the tissues or allow them to enter the circulation. By means of heat we help to bring the infection to a "head" and—if it does not drain naturally—a small incision encourages the process.

All injurious germs form toxins. If they are concentrated enough life may be in jeopardy. Every medical student has observed the method of testing the pneumococcus poison on mice. The amount which is produced is dependent upon the activity of the bacilli and their ability to obtain food. That from diphtheria may affect the nervous system and actually bring about a paralysis of the nerve fibers leading to the heart.

By means of vaccines, we can protect [immunize] ourselves against smallpox, diphtheria, whooping cough, scarlet fever, lockjaw, typhoid, and certain other maladies. We are winning the battle slowly but surely against the outlaws of the microbe world.

LIVING WITH THE LIVER.

F. X. B. writes: Please advise how to take care of the liver.

REPLY.

Treat it fairly and it will reciprocate with good behavior. This means a balanced diet, with the avoidance of overeating. Certain drugs, such as cinchophen and chloroform, are liver poisons. The same may be said of the steady and excessive use of alcohol.

JOINTS ON THE LOOSE.

H. R. writes: My daughter's jaw and elbows get out of joint easily. What causes this?

REPLY.

Some persons are unusually loose jointed. Ligaments and other structures become overstretched. Occasionally, a congenital defect will be responsible. Elastic supports may be helpful if strain cannot be avoided.

BOOKS FOR YANKS.

Chicago, Jan. 2.—Your editorial of Friday, Jan. 2, on Friends of the Yanks prompts us to advise you that a nationwide Victory campaign for books is opening on Monday, Jan. 12, under the joint sponsorship of the USO, American Red Cross, and the American Library association. The goal is 10 million books, educational, technical, and recreational, to be distributed to USO centers and army, navy, air, and marine corps encampments. The local public libraries and many other places will be collecting and receiving stations. Further announcements and publicity will be released very soon and we invite all persons and groups now soliciting gift books to coöperate with us and combine their efforts with the big campaign. Mr. A. Kroch has accepted the chairmanship for the Chicago area and has set his mark at a million books.

WHISTLES AT CROSSINGS.

Lake Zurich, Ill., Dec. 31.—Today a tragedy struck in our midst out here in Lake Zurich. A neighboring family is without its mother, another mother is reported critically injured, and their children hurt at a crossing of the E., J. & E. railroad.

I only heard about it and do not know the circumstances; but for a long time I have intended complaining about the lack of warnings on the part of approaching engineers as they ply their speeding freights over these unguarded crossings in the country. I have sat in church, beside the tracks, and shuddered as those pounding monsters approached the crossing and thundered on without nary a whistle of warning. Many of our children walk and drive across several of these unguarded crossings as they go to grade and high schools each day.

DEFENSE JOBS FOR CHICAGOANS.

Chicago, Dec. 28.—Could some one give me a reason why we see so many out of state license plates on cars around our few Chicago defense plants when our own Chicago men are looking for work? My husband, 46 years old, recently lost his business. He served 11 years in the army and would gladly go again if he were accepted. He finds it impossible to get any work altho he could learn defense work in a short time.

BUNDLES FOR JAPS.

Chicago, Jan. 1.—In England when some one donates a tank or plane to the government he has his name painted on the sides, so I suggest here in Chicago we set a day aside to take up a collection and have the biggest bomb in the world made and send it to Tokio. We can paint on the side of it "To Tokio from Chicago." This is one package that Uncle Sam will gladly deliver.

THE DRAFT AND A JOBSEEKER.

Chicago, Dec. 30.—My husband is 22, unemployed. My rent is almost due. We are desperate and on the verge of starvation. My husband has tried to get a job and met with this reply, "Sorry, we must know your classification. Only men in 3-A are considered for employment." It may be months before he is classified. Until then what are we to do?

EXAMPLE FOR THE CAPTORS OF MANILA.

Chicago, Dec. 30.—The Filipinos of Chicago wish to express, thru the medium of your great newspaper, their regrets concerning the uncalled for and unwarranted molestations of Japanese. The Filipino National Council of Chicago keeps admonishing our countrymen against committing acts of violence. It is only natural, because of the present conflict in the Philippines, that the Filipinos elsewhere feel bad, but it is no reason for them to lose their sense of balance and good judgment—things which the council is trying to impress on their minds. Let me assure you and the public of our loyalty in this period of national emergency, ready to serve and ready to fight in the cause of democracy.

F. M. DUERME, M. D.,

COMPIEGNE, 1918.

Chicago, Dec. 31.—I think this might interest readers at this time: When the German delegation came to Marshal Foch at the end of the war to ask the terms of the armistice, the Frenchman picked up a paper from his desk and read a set of conditions. "But there must be some mistake," the leader of the German officers stammered in dismay. "These are terms which no civilized nation could impose on another." "I am very glad to hear you say so," replied Marshal Foch gravely. "No, gentlemen, these are not our terms. They are the terms imposed on Lille by the German commander when that city surrendered." The quotation is from Sir Basil Thomson's "The Scene Changes." J. M. G.

BONDS FOR VETS.

Chicago, Dec. 30.—Gov. Green's request of 2 per cent deduction from state employés, salaries to buy defense bonds sounds good, but I don't think this is enough. May I suggest that he ask all public officials, also business men and women, to contribute 1 per cent extra to buy bonds and keep these for each boy that comes home after serving his country? Many families who have no member serving in the army could also contribute to this. LUCY PALERMO.

READ THE CONSTITUTION.

Waterloo, Ia., Dec. 29.—I am suggesting to my senator and representative that as soon as possible emergency bills be introduced in the house and senate relieving the President of the arduous duties of commander in chief and substituting a man of proved ability and experience in war maneuver and strategy, his appointment and recall to be retained by the houses or a committee composed of members from each.

Considering our tieup with Great Britain, we should be allowed to borrow this one item of general procedure, incidentally the only one to date that has appeared of any advantage over our own, for the duration at least.

RIGHT TO PROPERTY.

Chicago, Dec. 31—[Legal Friend of the People.]—My mother owns real estate and she left for Europe.

1. When she left she made me her administrator.

2. She also made out a joint tenancy between us.

I have a sister and brother who are contesting this and want to straighten out the title to the property in Chicago [3] to protect their interests.

4. Can this joint tenancy be broken without my mother's signature or mine?

J. R.

1. An administrator is a personal representative appointed by a court to handle an estate after the death of the owner. You evidently are misusing the term. It is not clear to us whether you mean that she made a will naming you as executor or that she gave you a power of attorney to manage the property during her life or something else.

2. Did she take the usual step of conveying to a third party and having him convey back by joint tenancy deed?

3. Is this the same property above referred to?

4. Your brother and sister cannot set it aside unless they can prove undue influence or lack of testamentary capacity.

FM IS EXPECTED TO GAIN HIGHER FAVOR IN 1942

New Radio System Free from Summer Static.

BY LARRY WOLTERS.

Frequency modulation broadcasting will continue to forge ahead this year, despite any limitations the exigencies of war may impose. This is the forecast for this new type of high fidelity, static-free broadcasting by its pioneer developer, Edwin H. Armstrong.

The complete certainty of FM service during the next summer season of static, Armstrong said, will attract increasing listening attention of the public. Armstrong gave his views in reply to an inquiry by THE CHICAGO TRIBUNE as to what may be expected of FM in the year ahead. Armstrong has turned over all his FM findings to the war department for military application.

The total number of FM sets distributed as the new year started has been placed at around 240,000, assuring probably one million listeners. New York, Chicago, and Boston lead in FM listeners. Chicago has three stations: W59C, sister station of W-G-N; W51C, pioneer FM station, and W67C, operated by the Columbia network.

Martial notes in the news: Sunset Serenade, featuring Glenn Miller's orchestra, will be aired over Mutual at 3 p. m. Saturday, starting Jan. 10. Each week five camps are to be chosen at random and a poll conducted among men to determine their favorite popular tunes. The next Saturday Miller will play the favorites, salute each camp and present each with 50 recordings.

W-G-N-Mutual's Double or Nothing at 5 p. m. next Sunday will introduce a new song and guest feature. Successive broadcasts are to be devoted to salutes to nations dedicated to destroy the axis powers. On the first show the tribute will go to Great Britain. Gertrude Lawrence, British actress, will be a guest. Frank Forest, regular soloist, will sing "There'll Always Be an England."

For the first time in the history of the United States marine corps a mass induction of recruits will be aired today. Ceremonies in connection with the entry of more than 150 men into the corps will be broadcast over W-G-N at 4:15 p. m. Col. Chester L. Fordney, chief marine recruiting officer, will administer the oath in the grand ballroom of the Stevens hotel where the group will assemble. Del Courtney's orchestra will be on hand to accompany them in the singing of the "Marine Hymn."

JOHN MEETS FOUR WOMEN; THREE OF THEM HIS WIVES

John Rodagski was faced yesterday by four indignant women. He had married one of them in Indiana, another in Iowa, a third in Kentucky, and courted the fourth in Illinois. Rodagski is 36 years old and a chauffeur, and he lives at 6212 Woodlawn avenue. He will be arraigned in Felony court today.

Mary Kopaczewski of St. Louis, said Rodagski had married her at Crown Point, Ind., on Oct. 29, 1937. She added that he left her in May of 1940 with all the furniture and $1,000 he got from her.

Rose Hill of Davenport, Ia., said Rodagski had married her in Davenport, Oct. 12, 1940, leaving her June 29, 1941, with $500. Rose now lives at 816 West 72d street.

Celia Kurek, 1635 Superior street, said she was married to Rodagski in Louisville, Ky., on Oct. 8, 1941. Their two month marriage ended with the loss to her of $1,400 and her car.

Besides the three wives, Rodagski was faced by Olga Karl, 4928 Drexel boulevard, who said he tried to rape her after wooing her for a few weeks. She is the one who told police where Rodagski might be found, at a dance sponsored by a lonely hearts club.

JEALOUS SPOUSE BLAMED BY JURY IN PYRE SLAYING

Carbondale, Ill., Jan. 4 (AP).—A Jackson county coroner's jury today recommended Seibert Gregg Stratton, Mount Vernon machine shop operator, be held for grand jury action, Jan. 12, in connection with the burning to death of Hildreth E. Kinkade, 28 year old Mount Vernon oil worker.

Kinkade's charred body was found last Thursday night in his flaming car a few feet off United States highway 51 near the Union county line, 10 miles south.

Stratton's estranged wife, Mrs. Josephine Stratton, a Mount Vernon waitress, told the jury her husband had threatened to kill any one she dated and that she and Kinkade had had a New Year's eve engagement. Kinkade, she testified, formerly worked for her husband.

Climaxing a three day investigation the jury decided Kinkade died by felonious means and Stratton, held in jail in Murphysboro since Saturday, should not be admitted to bail.

LOBBY IS FLOODED AS MERCHANDISE MART PIPE FAILS

Water cascaded down the central stairway and formed a six inch pool in the main lobby of the Merchandise Mart yesterday before firemen could locate and shut off the broken main. They found the trouble in a 2½ inch pipe between the first and second floors. Water also ran over the second floor and down into the Merchandise National bank, shorting a police alarm and bringing three squads from East Chicago avenue station rushing to the scene. Damage was estimated at $5,000.

"Pursuit of a Parcel"

INSTALMENT I.

In October, 1940, two interviews took place, one in Berlin and one in London. As a result, some lives were risked and some were lost. Inconsiderable against the mass wastage of war, but of interest to the persons concerned. There were also larger issues.

The first interview took place in Berlin.

Cornelius Rossiter, sometimes called Cornelius Roos, walked into the inner office and swung up his hand in the universal salute.

"Heil Hitler!"

The door closed at his back.

"Heil Hitler!" said the man behind the desk—a small man hunched in his chair, thin and sallow of cheek, with deep eyesockets under brows as symetrically arched as a woman's. The hands were like those of a woman, too—a woman or an artist—long and white, and finely kept. The eyes beneath the arched brows were of a dark intensity beyond belief. They were as powerful and impersonal as an arc light, and a good deal more intelligent. They rested for a moment upon Cornelius, while the right hand moved among a pile of papers. Then a smooth voice said:

"Ah—Cornelius Roos——"

"At your orders, sir."

He watched the moving hand. It picked up one paper and rejected another. It was as if the fingertips could see. The eyes had not left his face. The voice said, honey smooth:

"I wonder——"

Cornelius said nothing. He stood a yard inside the door, a big man, heavily built, with a large pale face, light eyes, and colorless hair. There was no gray in it yet, altho his 40 years had provided him with plenty of excuses for getting gray. His expression of simple stolidity had served him well in the past. It served him now. He took refuge behind it, and waited for the other man to break the silence left by that "I wonder——"

The silence was a long one. Some men crack under a silence like that. The eyes which looked at Cornelius had seen many men break.

Cornelius stood there, respectful and stolid. The trouble was that if he had really been as stolid as he looked, the man behind the desk would have had no use for him, and he would not have been here to report—or to be reported on.

The voice said at last, low and quietly, entering the silence rather than breaking it.

"I wonder whether you are at my orders—or at those of some one else." On the last words there was hardly any sound at all.

Cornelius said, "I am at your orders."

At once a liveliness leaped into the voice, the features, the hands. There was flashing gesticulation, a jerk of anger.

"Two masters, and I'm one of them—is that what you are going to say? Something for each of us, and pay for both? It's done, you know, and it's been done with me—but not for long." The hand with the paper was thrust forward as if it held a weapon. "Do you think I use people and don't check up on them? This information has been tested, and it is false. Do you think you can get away with it?"

Cornelius moved for the first time. He came forward in a lounging manner and stretched out his hand for the paper. After a glance he laid it down.

"To the best of my knowledge and belief it was accurate—at the time."

"What was your source of information?"

"Confidential, of course. If I give it away I shall have killed the goose that lays the golden eggs."

The white womanish hand came out and took the paper again.

"You've played a game with me. Nobody gets away with that. You're done."

The paper was dropped, as if to illustrate the point. The hand went out towards an electric bell.

Cornelius went back and stood against the door.

"Stop!" he said.

The hand remained poised, the eyes watchful. The voice said:

"Why?"

"Because you'd better," said Cornelius grimly. "No, I'm not armed. I'm not a fool, to come in here with arms on me. But I've got something to say, and it's going to be worth your while to listen. I know as well as you that I can't get out of here alive unless you say so. But it's going to be worth your while to say so—I only want you to listen. I'll put my hands up and keep them up if you like."

The hand that had played with the paper now held a little pistol like a toy—small, ornate, deadly. The smooth voice said:

"It will not be necessary. What have you to say?"

Cornelius squared his shoulders against the door.

"Just this. I served you well, believe it or not. That makes no difference now—you've wiped it off. You don't trust any one—do you? You never use the same man long. I've had a longer run than most and, not being a fool, I've taken precautions. If anything happens to me, then something will happen to you. If I'm for the high jump, you'll be for it, too."

The sallow face showed anger, not by movement, but by a sort of carved stillness. The eye sockets appeared to be more deeply cut. The features sharpened and whitened. The eyes veiled their power.

"Very interesting. And how do you propose to bring this about?"

Cornelius looked at him across the room.

"That is just what I was going to tell you. There are people who would like to see you take that high jump—we both know that. There have been times when you haven't been so far from it, either. There's just one thing that keeps you where you are—his belief that you're necessary."

He waved a casual hand in the direction of a large framed photograph of the Fuehrer hanging lonely on the cinnamon colored wall. "If he didn't hold you up, how long would it be before Goering got you down? And how long would he hold you up if he knew what you said about him—let me see—eight months ago? March 15 is the date—it's just as well to be accurate. Of course, 'know' isn't quite the right word to use, because he'll be able to hear what you said, which will make it so much more convincing. There's a bit where you laugh in the middle of a sentence just before you come to his name—well, it's quite irresistible—I joined in myself the first time I heard it."

"You—heard—it?"

Cornelius went on looking stolid. Even if he were going to die, here in this room, he was enjoying himself. This man was a quintessence of power, and he, Cornelius, at this moment was in control of this power. He held it on a leash of fear. The sensation was worth while, even if he died for it. But he did not think that he was going to die. He went on explaining quite pleasantly.

"March 15—that is where we were. You were out of favor with him"—that casual wave of the hand again—"and things weren't looking too rosy. You had a rendezvous—I wouldn't dream of mentioning the lady's name—and you drank a little too much champagne and got going about your grievances.

"The lady did her best to stop you, but you would talk. She was frightened, even if she didn't know there was a dictaphone on the premises. But you can't ever be sure these days, and I don't wonder she was scared stiff. Really—the things you said! I'm afraid once he's heard that record you won't be able to explain them away. Just between ourselves, I shouldn't think you'd get the chance. There's one bit in particular——"

He paused for a moment as if ruminating and then shook his head. "No—I shouldn't think he'd see you after that. And—again between ourselves—he's never really liked you. Nor has Goering." His voice dropped to a friendly, conversational note. "You're cleverer than he is, and that's a thing that never gets forgiven."

The man behind the table said, "Enough!" Just the one world, cold and acid. The smoothness was all gone from his voice. It struck with a cutting edge.

"Yes, it's enough—for a man of your brains."

The eyes focussed themselves upon him, sharp and bright as a snake's.

"And you—have you no brains? How long does a man live who talks to me as you have talked—and how does he die?"

Cornelius stood easily against the door.

"O, yes—I was coming to that. If I die, Goering will get that record at once—well, let us say within three days. If you think I'm bluffing you've only to call my bluff—kill me and see what happens. I'm afraid you won't like it, and the game isn't really worth the candle. The same thing applies to my disappearing into a concentration camp or anything like that—Goering will get the record."

[Continued tomorrow.]

La Guardia Says Hospitals to Be Commandeered Soon

New York, Jan. 4 (AP).—Mayor Fiorello La Guardia said today the army and navy soon would be commandeering hospital facilities in New York City. He made the assertion at the dedication of a nine story 150 bed brick addition to St. Vincent hospital which he said was erected at a "most propitious time." The mayor did not elaborate on his statement.

Vacationists Hasten to Store Up Sunshine for a Busy Winter

BY JUDITH CASS.

MANY Chicagoans have seen their winter vacation plans dissolve into dreams since the attack on Hawaii, and others who still hope to get away for a few days realize that their projects, too, may pass into limbo. To the latter group belong those with reservations for Sun Valley, who, in spite of the uncertainties of the world see the wisdom of storing up sunshine energy before plunging into war work.

The David A. Crawfords and their family are inveterate Sun Valley fans. The Crawfords helped open the resort and have spent some time there each winter. Mrs. Crawford and her two sons, David Jr. and Edward, are expected at home from a week at the Idaho resort just in time for the boys to return to their classes tomorrow at the Boys' Latin school. Mr. Crawford didn't accompany them west, nor could the Crawfords' son-in-law and daughter, the Nathaniel Duvals, be lured away from their new farm in Barrington.

Report Ideal Conditions at Winter Sports Resort.

Ideal skiing conditions and the best snow in years are reported at the winter sports Mecca by Mrs. Julian Armstrong and her daughter, Miss Priscilla, who returned on Saturday from Sun Valley. Expected back the first of this week after several weeks there are Mr. and Mrs. George C. Moseley and their children, Bill and Melissa. Mr. and Mrs. Donald B. Douglas, Donald Jr., and William arrived at home on Saturday.

The junior Joseph T. Ryersons at present are testing the ski runs on the slopes of Baldy. The plan to leave on Saturday for their home in Paepack, N. J., stopping over in Chicago to spend one night with the senior Ryersons.

Mrs. Henry Noyes Barkhausen and her sister-in-law, Miss Kate Barkhausen, also are at "the Valley" at present. Miss Kate and her mother, Mrs. Henry G. Barkhausen, traveled to California last month in hopes that the latter's son, Ensign Barkhausen, would be reunited with his family for Christmas. His leave was denied, however.

The senior Mrs. Barkhausen returned to Chicago on Friday, while her daughter and daughter-in-law went on to Sun Valley for an interlude of winter sports. Within a week they'll be returning to their homes, Miss Kate to Chicago and young Mrs. Barkhausen to Coronado, Cal.

Mrs. Frederick Spiegel Leaving for Sun Valley.

Mr. and Mrs. T. Lloyd Kelly have been in Sun Valley since Dec. 28. They and their young son, Arthur, are expected at home in two weeks. Mrs. Frederick Spiegel is getting her sports togs in readiness for a trek west. She leaves for Sun Valley on Saturday.

Miss Kathleen Kelly hopes to take advantage of the resort's "talcum powder snow" and heated outdoor swimming pool when "Carey's Cottage Comiques" take over a wing of the Challenger Inn during this month or next. The Comiques, a group of 40, are led by Charles Carey of Omaha, Neb., and this will be the sixth year they have skied and skated together.

Mr. and Mrs. Philip D. Armour Jr., are weighing plans for a Sun Valley trip against staying at home. The young Armours are inveterate winter sports fans, as is Mrs. A. Watson Armour III., whose proposed Idaho trip also is indefinite.

Definitely off the reservation list for Sun Valley are Ensign and Mrs. F. Newell Childs. Their trip was abandoned when Ensign Childs, who is on duty at Great Lakes, found that his leave was to be canceled. The Ted Wilders also have decided against a jaunt west at this time.

Katrina Mauff Engaged to Middleton Miller.

John Reginald Mauff of East Goethe street announces the engagement of his sister, Katrina, to Middleton Miller of Chicago. Miss Mauff, daughter of the late Mr and Mrs. John Reginald Mauff, was graduated from the Spence school in New York and attended the Sorbonne in Paris. She is a member of the Chicago Junior league.

Mr. Miller, son of Mr. and Mrs. James Cale Guthrie of Winthrop, Ia., received his degrees from Princeton university and from the Harvard law school. He is in practice in Chicago. The wedding is planned for the near future.

From New York City comes news of the engagement of a former young Winnetkan, Dudley Foulke Cates. Mr. and Mrs. Cortlandt Waite Handy of New York have announced the engagement of their daughter, Marjorie Sloane Handy, to Mr. Cates, who is the son of Mr. and Mrs. Dudley Cates of Park avenue, New York, and Winnetka.

Miss Handy was graduated from Milton academy in 1938, the same year she made her debut at a tea dance given by her parents in the Junior League clubhouse in New York. She is a member of the Junior League. Miss Handy is a granddaughter of the late Mr. and Mrs. Parker Douglas Handy and of Mrs. Robert Ramsey of New York and the late Mr. Ramsey.

Following his graduation from the Loomis school in 1935 Mr. Cates attended Harvard university and the school of economics of the University of London. At present he is in business in New York. He is a grandson of the late Mr. and Mrs. William Dudley Foulke of Richmond, Ind., and of the late Mr. and Mrs. George L. Cates of the same city.

Robert Barker to Wed Girl from Philadelphia.

Today, in Philadelphia, the engagement of a former Chicagoan is being announced. Mrs. W. Dayton Shelly of that city is announcing that her daughter, Elizabeth Van Dyke, is engaged to Robert R. Barker of New York, son of Mr. and Mrs. James M. Barker of Lake Shore drive. Miss Shelly is attending the Philadelphia Academy of Art. Mr. Barker is a graduate of Harvard university, class of 1936. The wedding is planned for June.

Mr. and Mrs. Hirum Herbert Lane of Kenosha, Wis., announce the engagement of their daughter, Roberta Stratton Lane, to Lyle Harper Jr., son of Mr. and Mrs. Harper of Northfield. Miss Lane was graduated from Kemper Hall in Kenosha and studied at Barnard college in New York City. Young Mr. Harper, a graduate of the Berkshire school in Sheffield, Mass., is in his senior year at the University of Chicago. He will begin his naval training at Abbott Hall as soon as he is graduated.

Michael Cudahy made a trip to Rhinelander, Wis., over the week-end to be best man on Saturday for his Harvard classmate, Dickson Smith of Wayland, Mass. The bride, Miss Elizabeth Ewing Becker, daughter of Mr. and Mrs. Nils Folke Becker of Rhinelander, has a number of friends here, as she attended Ferry Hall before entering Miss Wheelock's school in Boston.

Racquet Club to Give Up Ball for Bridge Lessons.

The Racquet club thought rather half-heartedly in the late autumn about giving a costume ball this month, or next, but at a meeting the other day the governors voted definitely against any such festivity at this time. They are starting a series of Thursday night dinners and entertainments, however, the first of which will be given this week. The entertainment will consist of a bridge lesson, and before the series is ended the members will have had an opportunity to have five of them. Other programs being planned include lectures on current topics.

The Musicians' Club of Women has postponed its benefit concert on Jan. 12 for the Provident hospital because of the illness of the artist, Mme. Claire Dux [Mrs. Charles H. Swift].

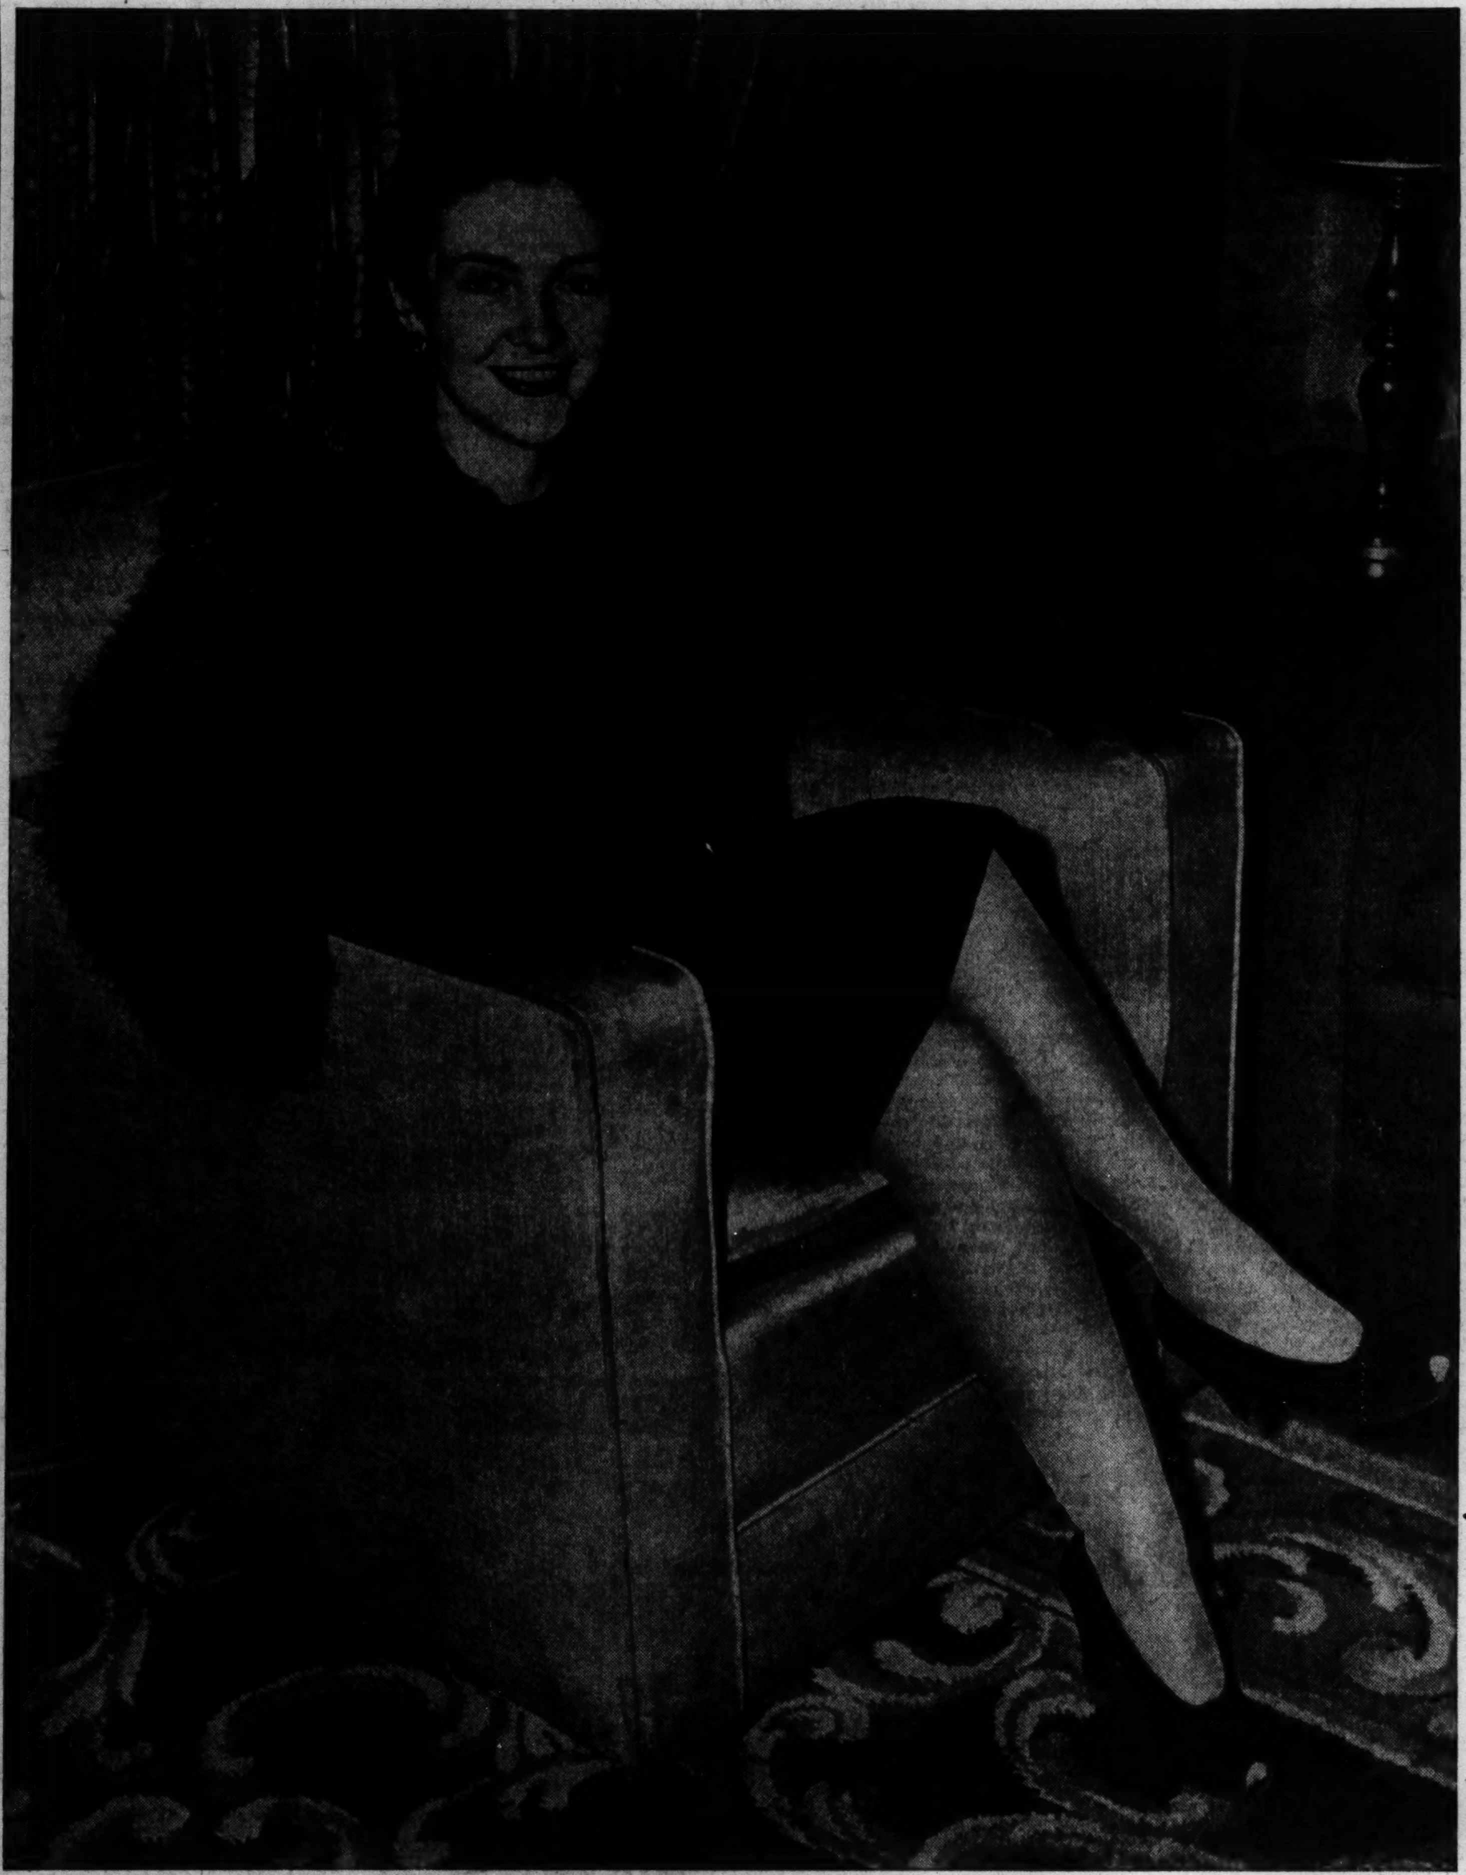
Returns to Smith College to Resume Studies



In grandmama's day it was decreed that ladies always wear gloves but nothing was said about hats. Today some of the most correctly brought up young women appear in public in the daytime with no hats, but with their hands properly covered. Here is pretty Nancy Davis, Dr. and Mrs. Loyal Davis's daughter, waiting for a luncheon partner to appear at the Buttery. Miss Davis left yesterday to resume her studies at Smith college.

As the Balsam Burns.

The holly wreaths are stiff and brown, the scent of dried balsams and pine fingers thru the rooms and Christmas ornaments are being stored away in tissue. Gone from Michigan avenue are the bright, brave uniforms home on furlough, the olive winter field dress of the marines, the blue of the navy, the khaki and sand of the army. Gone from the shop windows are the red velvets, the gold kid, the myriad sparkling sequins, and in their place come summer stripes and cool short sleeves. But Christmas comes again, tomorrow and tomorrow. *Twelfth Night* or *"little Christmas,"* the Feast of the Epiphany on the Gregorian calendar, from time immemorial consecrated to the burning of Christmas greens and the lighting of candles of prayerful hope, comes tomorrow, and many Chicagoans will observe it. Hundreds will troop into the Rockefeller Memorial chapel on the University of Chicago Midway at 7:30 for its annual candle lighting ceremony. At the same time thousands of Russians and Greeks will throng church and cathedral to celebrate the Christmas eve of their Julian calendar, their Christmas coming Jan. 7 and their Twelfth Night another 12 nights away.

Gift of the Magi.

A sad vignette of the holiday scene is the tale of the boy who loved beautiful things and a beautiful girl. He could think of no more fitting present than a white orchid and, to obtain one, offered to work two weeks in a florist shop. He took it to her, a delicate jewel on its bed of cotton, and offered it as tribute to a goddess. "O," she cried petulantly, "why didn't you get me a purple one?"

Of Names We Remember Too Late.

The smiling face of the short, gracious little woman sitting quietly on the sofa at a pre-New Year's tea was as familiar as the melody of an old song, her name as elusive as the song's title. While scouring her mind for a vagrant clue as to her identity, the Chicago matron greeted her

Glamor Yields to Practicality in Skiing Garb

BY REA SEEGER.

There seems to have been some muttering about too much "glamor" in ski suits, so we hasten to assure every one interested that there are some functional models. But if these outfits are strictly functional, the glamor stuff must be equal to any theatrical chorus appearance . . . and to date we've not seen anything remotely resembling such finery.

To get back to the so-called functional suits. There are knockout ones in stern, sturdy gabardine [wool], the jackets piped in scarlet to match the scarlet buttonholes and the edges of the zippered pockets. Navy and cadet blue give you a couple of slenderizing colors, the scarlet the highlights. The pants are streamlined and taper downhill to the ski shoes into which they are tucked snugly.

◆

One new item is a famous designer's special, black pants with the smartest of cinnamon colored doeskin jacket . . . complete with covered buttons marching down the center front. With this jacket comes a short cinnamon colored doeskin skirt with kick pleats, and for more money a classic topcoat of black with the lower half lined with gay Scotch plaid in blending colors.

While this last outfit is expensive [but worth every penny] there are many less costly and comparatively as smart. For a sum around $30 you can assemble a complete outfit with the exception of skis and shoes, an outfit that will not be dated after three or four seasons of hard wear.

◆

Water repellent jackets in reversible models, some with hoods lined with Scotch plaid and others with fur band around the face are neat and streamlined and you plan your own color contrast with ski pants. The wool underwear is a necessity, whether it is the red flannels, the flesh tints or the luxurious Jaeger woolies in snowy white.

Hadassah to Open Tithe Campaign for Palestine Aid

The 15th annual tithe campaign in support of its medical organization in Palestine will be started tomorrow by Hadassah, woman's Zionist organization. Members will gather to plan the drive at nine district luncheons held simultaneously thruout Chicago and the suburbs.

While urging their members to make maximum contribution to America's war effort, leaders are emphasizing the recent statement of Joseph E. Davies, chairman of the President's Committee on War Relief Agencies in Washington, that "the state of war now existing between the United States and the axis countries does not alter the desirability of endeavoring to meet the urgent relief requirements of foreign countries associated with the United States in the present war effort."

Hadassah has increased bed capacity in its base hospital in Jerusalem and in the auxiliary hospitals thruout Palestine. Thru its Youth Aliyah movement, more than 7,000 young people have been rescued from Hitler dominated countries and repatriated in the land of their ancestors. Nurses have been sent to Egypt. Aid has been given the Free French.

Chicago chapter of Hadassah is headed by Mrs. S. H. Soboroff. Mrs. James Olshan is general chairman of the tithe campaign in this area.

Kansas Woman's Club Group to Observe Twelfht Night

In holiday spirits, Kansas Woman's club members and their husbands will gather tonight at the country home of Mr. and Mrs. Charles W. Balch in the Indiana dunes to celebrate the Twelfth Night with traditional ceremony. Twelfth Night, or Epiphany, recalling the coming of the gift-bearing magi to Bethlehem, officially ends the holiday season. The Kansans' celebration anticipates the holiday, which actually falls on Jan. 6. One of the traditional rites to be performed at the Balch home will be the ceremonious burning of the Christmas greens.

Picture Based on Blackout Has Its Points

"PACIFIC BLACKOUT."
Produced by Paramount.
Directed by Ralph Murphy.
Presented at the Roosevelt.

THE CAST.

Robert Draper	Robert Preston
Mary	Martha O'Driscoll
John Ronnell	Philip Merivale
Marie Duval	Eve Gabor
Kermin	Louis Jean Heydt
William	Thurston Hall
Irene	Mary Treen

By Mae Tinée.

Good Morning!

"Pacific Blackout" evinces a desire to be timely, gay, and casual about the present war situation the while pointing out that traitors in high places can wreak plenty of damage.

As the picture opens you behold Seattle preparing for a "blackout" drill—and one Robert Draper on trial for his life. Mr. Draper, inventor of a device he had thought would be of great aid to the government, has been "framed." . . . A night club entertainer whom he has never seen before declares that he killed in a jealous rage and because of her. . . . Swearing as to his fine character comes one John Ronnell, chief adviser to the police authorities as to technicalities of the "blackout." . . . Mr. Ronnell, it seems, has been prominent in the war overseas and knows just how this sort of thing should be done. . . . Well—

All isn't as it appears on the surface. . . . Robert is convicted. . . . Handcuffed, he is on his way to jail in the police patrol during the "blackout." . . . A car crashes into the patrol wagon and overturns it. . . . Draper escapes. . . . And meets a pretty telegraph operator who has a great deal to do with succeeding events. . . .

It would rather spoil your zestful interest in the picture for me to go on with the story here. . . .

I think the film's principal drawback IS that story. . . . It's complicated. Direction sort of wavers and wanders. But the cast is an able one. . . . Mr. Preston plays his quite incredible rôle with assurance. . . . Martha O'Driscoll is a blithe young thing who will make you think of Rita Johnson. Eve Gabor is smooth in a couple of "bit" sequences as the blonde prevaricator of the night club.

Philip Merivale—ah-h-h! O that he might have had a better rôle in which he might have been featured more prominently!

The production has some suspense and several laughs. . . . I wonder if "blackout" drills WILL be as pictured?

See you soon.

Dr. Weng Leads Lutheran Seminary in Maywood

The Rev. Dr. Armin George Weng, president of the Illinois synod of the United Lutheran church, yesterday was named president of the Chicago Lutheran Theological seminary, Maywood, to succeed the late Dr. L. Franklin Gruber. Dr. Weng will continue as president of the synod. The announcement of the trustees added that Dr. Weng, who is also professor of historical theology, will remain president of the seminary at least until the consummation of the proposed merger of the Maywood seminary with Hamma Divinity school, Springfield, O. The Maywood seminary recently raised $100,000.

Mr. McHugh is the son of Mr. and Mrs. John J. McHugh of North Lockwood avenue.

Teen Age Girl's Romance Worries Her Grandmother

BY DORIS BLAKE.

[Copyright: 1942: By News Syndicate Co. Inc.]

"Will you kindly help my mother with her problem? Her grandchild, and my niece, is making her simply ill. The girl is 16. She is fatherless and motherless, and my mother has had her since she was 2 years old, and, unfortunately, let her have her own way too much.

"Now mother has a real problem on her hands. The girl is going out with a boy of 15 who lives across the way. They both attend the same high school. We're told by her teachers that the girl is smart in school, but she brings this lad up to my mother's house every night. Or they go walking together and she doesn't return home until 10:30 and 11.

"Mother tries so hard to make the girl understand that it isn't right to see the boy every night, and her answer is that if she can't bring him home, she'll see him elsewhere. She answers my mother rudely. She does not appreciate mother's kindness to her. She'll deliberately do what she likes, and mother's health is suffering. —Aunt."

First, Aunty, you want to be sure in your own mind that a prejudice against the girl, perhaps your mother's favorite, isn't misinterpreting the young girl's motives. Be sure that you are not inspiring the young woman to rebellion and causing some of your mother's worry yourself. The youngster certainly does not seem a big problem to us. The fact that she wants to bring the boy home, instead of meeting him on corners, is in her favor.

Your mother probably has spoiled the girl. We certainly do not like her being rude, but we suspect that you may motivate this rudeness, for it must be done in your presence for you to be able to report it. We have a hunch if you would keep out of the situation entirely, your mother could handle it.

CONCLUSION.

BRIGHT FUTURE.

Carl did not take any chances. He waited by the roadside in front of the store until he saw Waugh's car coming down the street. The two men chatted for a minute, after which Jack said that he would be on his way.

"I just had a telephone call from Mary," Carl explained. "She is heading for town now. Wants to see you before you go."

His friend's heart did a flip-flop. The information was surprising and exciting.

"Sorry I didn't wait to see her and save her the trouble of coming," Jack said.

"Don't worry about that," Carl said with a grin. "When Mary wants something she doesn't mind taking a little trouble. Just now she wants to say good-by to you, I reckon."

Presently her car drew up in the road beside the one in which Jack and Jim Fallon were sitting.

"Much obliged, Carl," she said. Her eyes rested on the little line rider and not on his companion. "Do you mind if I kidnap Mr. Waugh, on a promise to bring him back to you in 15 minutes, Mr. Fallon?"

Jim grinned. "No, ma'am. I sure don't."

Waugh stepped out of his car and took the seat beside Mary. "If I'm not back inside of 13 minutes you get a posse out to rescue me," he told Carl.

Mary drove out of the town and turned into a dirt road which circled to the summit of a hill known as Round Top. It looked across the valley to the ribbed gaunt mountain range beyond. During the ride up neither of them broke the silence. The girl drew up on the flat top and turned to her companion. She waited a moment before she spoke, to quiet the tremulous excitement beating in her blood.

"I expect that what I am going to say will shock you," she said, her low throaty voice a little shaken. "I can't help it. If you won't speak, I must. I have to know where we stand."

"Your mother told you what I said." he asked.

"Yes. A little. The old story of the difference in our background."

"Not only that. I came here to gather evidence against my father's murderers. At the end of two weeks I am leaving. During that time I have become a triple killer."

"No," she protested. "You didn't kill any of these men. Your gun did. You are not guilty of the death of any of them any more than I am. Tracy went into Samson's store to murder you and fell a victim to his own blood lust. The bank robbers died because you were protecting from them an old man, one who had done you a terrible wrong. I won't let you build a wall between us on that account. It would be too silly. What I came to ask you is the only thing that matters. Do you love me?"

Her eyes met his directly, steadily. As always, his near presence stirred her strangely. She felt as tho her whole being were fluid, drawn to him by an uncontrollable force. Before he spoke, she lifted a hand to hold back his answer. There was something more she had to say.

"Because I love you, Jack . . . terribly."

In him there leaped an exultant gladness. "Of course I love you. How could I help it? But how do we know that love is enough, I can't offer you the life you have led. I can't be sure that what I have to give will make you happy."

Her smile was tender and derisive. "Has any man since Adam been sure of that? I'm like all women. I want my mate and a home—and our children. I want to walk with him thru life. If he takes too long strides for me I can't help it. Somehow I'll find a way to keep up with him. We can't be sure of happiness. We have to take that risk. I want to take it with you."

He swept her into his arms, all cowardly prudence banished. She was right. They were man and woman, fused by the alchemy of love. Nature had taken care of that, and nothing else mattered.

The end.

Miss Jannotta Bride of Lieut. Frank Keller

Mrs. Alfredo A. Jannotta of Lakewood avenue announces the marriage on Dec. 27 of her daughter, Elizabeth Lorraine, to Lieut. Frank Leuer Keller, son of Mr. and Mrs. Ruben C. Keller of Highland Park. The wedding took place in the home of the bride's brother, A. Vernon Jannotta of Kenilworth. The bride was graduated from Northwestern university and Lieut. Keller received his degree from the University of Illinois. Formerly an instructor of geology at Northwestern, he now is in the army's department of military intelligence in Washington, D. C. Lieut. and Mrs. Keller will live in Washington.

The marriage of Miss Marjory Stanley, daughter of Mr. and Mrs. Charles J. Stanley of Woodlawn avenue, to John T. Mehigan, son of Mr. and Mrs. John J. Mehigan of Ingleside avenue, took place on Dec. 27 in St. Thomas the Apostle church. A wedding breakfast and reception followed at the Windermere East hotel. After the reception Mr. and Mrs. Mehigan left on a wedding trip to Nassau.

The marriage of Miss Dorothy Gildroy, daughter of Mr. and Mrs. John L. Gildroy of West 22d street, to Stanley Henry Yasbec will take place on Jan. 17 in the Fort Myer chapel in Arlington, Va. Lieut. Yasbec is the son of Mr. and Mrs. Joseph Yasbec of West 22d street. Lieut. Yasbec and his bride will live in Washington, D. C., where he is with the signal intelligence service. He is a graduate of the University of Illinois.

The marriage of Miss Mardel Jerrick, daughter of Mr. and Mrs. Frank T. Jerrick of Berwyn, to John Wood Harpham, son of John Harpham of Eugene, Ore., took place on Nov. 26 in Seattle, Wash. Mr. and Mrs. Harpham, who both were graduated from Northwestern university, are at home in Seattle.

Mr. and Mrs. Elton E. Hoff of Kansas City, Mo., announce the marriage on Dec. 26 of their daughter, Marilyn Elizabeth, to John Colliston Hower, son of Mr. and Mrs. Harry C. Hower of Beverly Hills, Cal., formerly of Chicago. Mr. Hower took his bride to Palm Springs, Cal., for a wedding trip.

The marriage of Stanley E. Jacobs, a sergeant at Camp Lee, Va., and Jean Lawrence was announced yesterday by the bridegroom's parents, Mr. and Mrs. Ernest R. Jacobs of Evanston. The bride's parents are Mr. and Mrs. Chester Lawrence of New Rochelle, N. Y., formerly of Wilmette. The bride attended the University of Illinois and Sergt. Jacobs was graduated from Northwestern.

Front VIEWS and PROFILES

[Continued from page 17, column 5.]

cordially and chatted about the weather, that being the era when it was a seemly topic of conversation and not vital military information.

"I hope you had a very nice Christmas," the short little woman said.

"Yes," the Chicagoan replied, "and I hope you have a very happy New Year."

"Well, I don't expect to," the former said quietly. "Your government has invited my husband and me to West Virginia for the war, and we leave tomorrow."

Then miscreant memory returned. She was *Madame Baranyai,* wife of the Hungarian consul.

And Empty Ears.

This brings to mind the visit here not long ago of *Hal Noble,* Philadelphia archæologist who has a beautiful handlebar mustache, a liquid tongue, an aura of great charm, and a common inattention to what others say. Meeting a woman he knew, he made courteous inquiry, "O, how are you?" as his absent gaze flitted about the room. "I have leprosy," she replied quietly. "Fine," Noble said gayly, "and how is your dear mother?" "O, she has leprosy." "Hmmmm, how nice, and your father, how is he?" "He has leprosy, too." "Now isn't that lovely!" Noble cried happily. "I'm so glad to hear it." In this he fulfilled the contention of a southern minister who, convinced that no one at a reception listened to what the guests murmured, went the length of the receiving line mumbling, "How *do* you do? It's a very sad day for me. My mother just drowned in the bathtub."

Gift of the Month.

Item in the Field museum's list of December gifts: From *Dr. Henry Field* [who left his post as the museum's curator of anthropology to take his vast knowledge of the near east to Washington's strategists]—"281 insects and allies."

Mosaic of Defense.

Dorothy Lamour swooping into town, a radiant salesman of defense bonds in pale taupe wool and a wide peaked hat of taupe beaver edged in mink, her only jewelry a magnificent sunburst pin and earrings of shining gold particles. . . . The gentleman who lifted his head from cocktails at the *University club* to summon a waiter and say, "Go to the nearest drug store and buy me $100 worth of 10 cent defense stamps."

We Sing the Lonely Heart.

In the mail bag:

"Would it be too much trouble for you to give my address to one lonely, wealthy widow who would write me here at Chicago Naval pier and come to see me? I am 5 foot 6 inches, weigh 140 pounds, am 35 years old, look 25."

Looking at Hollywood . . By John Chapman

Hollywood, Cal., Jan. 4.—Sunday—Just talking to myself about airplanes and their effect on me. . . sitting before an upstairs south window trying to write a piece, all of a sudden I realize that Sundays aren't quiet any more. Almost always somewhere in the clouds the roar of a big plane, and often a group of ships, can be heard. I just got thru making a test: For 30 minutes there wasn't one second in which the whirr of planes was not audible. There's no way of telling what they are or where they are going, but their sound is now comforting and not disturbing, and one says in one's mind, "Tallyho, fellas."

Monday—To Metro, where the press department is excited because Johnny Weissmuller is wearing a business suit for the first time in his career in "Tarzan." It's a courtroom scene and naturally Johnny can't appear in a physical culture costume. This is probably a notable event, and a number of correspondents are around taking notes. But I get to thinking it's more remarkable than just being a "Tarzan" novelty, for Johnny never wears anything but haphazard sports clothes offstage. Playing golf he wears a sweat shirt, battered slacks, and a handkerchief binding his long hair. . . . To the "Tortilla Flat" set, where Victor Fleming is putting H. Lamarr and S. Tracy thru a scene, and Fleming says he can't get used to this new 8 a. m. starting time and wishes the whole country would go on daylight saving. "When a clock says it's 9 a. m. you believe it, even tho it's really 8," he says. There's a fine scene in his picture in which Spencer Tracy talks John Garfield out of a watch by arguing that the sun is the only reliable timekeeper.

Tuesday—To Columbia, where Gregory Ratoff, the mad Rooshian, is winding up the Pat O'Brien-Brian Donlevy "Trinidad." "It's been a toff job," says Ratoff. "It's an army picture, and almost thru it the war comes and we have to write the war in. But we got it in all right. It's a good picture. And I'm a seek man with a dialect." . . . Lunch with, among others, Bill Rich and Max and Nathaniel Lief. . . . And to RKO for a look at D. Hempstead's completed picture.

Wednesday—A full day of home work to end the year, and then to see the new one come in at the John Francis Larkins'. Much interesting theater and movie talk with William Joyce Cowen and his wife, Lenore Coffee. He's been a director and scenarist, now is doing a novel; she's a screen writer who did, among many things, the script of "My Son, My Son." Together they wrote what is to me a memorable play, "Family Portrait." They both favor the movies over the stage as being more resourceful and more efficient; they shudder at memory of the small bickerings that went on during the production of their drama about Christ's family. "You know," says Miss Coffee, "I have never seen an actor throw a temperamental tantrum on a movie stage. The films have real discipline." . . . And, come to think of it, neither have I. In 18 months of almost daily prowling about sound stages, I've never seen a ham toss a fit.

Thursday—For a New Year's day in southern California, it's a honey. Snow, even! and for 24 hours the papers won't be able to mention it on account of war regulations. Imagine California weather being really page one stuff—and nobody able to print it! It's undoubtedly a record of some sort, and I get to chuckling about the possible cause of it. Maybe our little slant-eyed pals have turned off the Japanese current.

Friday—To Warners', to ask Bette Davis on or off the record if there was anything behind her resignation as president of the Academy other than what had been printed. "No," she says for the record. "I just found that I couldn't give the office the time and the energy it deserves, and I didn't want to be a stooge with somebody else doing the work." . . . Bette is doing some retakes for "In This, Our Life," and Director John Huston is at the helm. Too bad John couldn't have got to New York for the opening of the hit drama about Woodrow Wilson, "In Time to Come," which he co-authored with Howard Koch. . . . A round of golf, and find that many players have begun to pay their bets in defense stamps.

Saturday—To RKO-Pathe, where Orson Welles is doing a grand new camera trick for "The Magnificent Ambersons," and more about it in the next column. Lunch at the Brown Derby with D. Selznick's W. Bolton.

War Service Organizers in Hospitals Will Speak

Dr. Katherine True, who is organizing Chicago hospitals for war service and protection, and Dr. Carroll Birch, who is active in national hospital organization, will discuss "Vital War Emergencies; What Is Your Part?" at 4 o'clock tomorrow at the Chicago Woman's club, 72 East 11th street.

U. of Chicago Doubles War Training Class; 1,000 to Be Enrolled

With the opening today of the winter quarter the University of Chicago is preparing to train 1,000 men in the fundamentals of warfare thru its institute of military studies. The original quota of 500 men was promptly filled after the Japanese attack on Pearl Harbor, and another section was created.

The training program is open to students and nonstudents at the university. Instruction, except for field training, is given one evening a week. The course has trained 1,650 men since it was started in October, 1940.

In other departments the university also is on a war footing. The science faculty is giving more than half its time to war research and is preparing to give even more. Hundreds of students are planning to give part or whole time to war work, many by entering the armed services.

BY MARY MEADE.

[Copyright: 1942: By News Syndicate Co. Inc.]

A cooking course, which she took 28 years ago, furnished Mrs. E. J. Lindsten, 2830 Fitch avenue, Chicago, with her favorite fish pudding recipe, a near prize winner in THE TRIBUNE'S recipe contest. It's a delicious dish with the savory sauce that goes with it. Mrs. Lindsten triples the recipe for her own family, and serves potato chips and tomato aspic with it.

The pudding may be served cold as a salad, with the sauce, she says.

Fish Pudding.
[Four Servings.]
2 cups ground or flaked halibut
1½ teaspoons salt
¼ teaspoon pepper
½ teaspoon grated onion
1½ tablespoons butter
1 tablespoon flour
½ cup milk
2 eggs

Parboil fish a few minutes in a small amount of water, so that skin and bones may be easily removed. Drain off water. Grind or flake fish, and season with salt, pepper, and onion. Make a white sauce of butter, flour and milk, and add the flaked fish. Remove from heat, add beaten eggs, and mix well. Place in well oiled fish or border mold, and cover with oiled paper. Bake in a 325 degree oven for half an hour. Turn out on a chop dish, fill center with potato balls, pour white sauce over them and garnish with tomatoes. Or serve with this sauce: 1 cup mayonnaise, 1½ tablespoons tomato catsup, 1 teaspoon dry mustard, 1 cup finely cut celery, ½ cup chopped parsley. Fold in 1 cup whipped cream.

Mrs. Hedwig Pheanis of Monticello, Ill., deserves credit for her recipe for Swedish potato sausage which, she says, is popular in Sweden at Christmas time. The broth in which the sausage is cooked is used for "dunking," she writes.

Potatis Korf.
[Swedish potato sausage.]
[Serves Six.]
1 pound ground beef
Equal amount ground raw potatoes
1 large onion, chopped
1 teaspoon white pepper
1 teaspoon allspice
2 teaspoons salt

Mix ingredients together and stuff into clean beef casings. Boil very gently for about 45 minutes in water to which 1 teaspoon black pepper and a bay leaf have been added. Serve hot [but the sausage may also be served cold, if you like it that way].

Miss Anna Van Brussel of Mt. Pleasant, Ia., suggests eggs poached in chicken broth and served on toast as an excellent luncheon dish. "When we were little, we used to quarrel over the tiny egg yolks that went into the kettle whenever a hen was stewed," she writes. "One day I decided I wasn't going to lose out, so I cracked a big egg into the kettle. Now every one in the family likes them that way. We always save chicken broth for poaching eggs."

TODAY'S PRIZE RECIPE

Mrs. W. M. Newman, 165 15th avenue, Columbus, O., wins today's $5 recipe contest award for her very simple recipe for a delicious ice cream. "It's inexpensive, easy to make and grand for the youngsters in the family," she says.

Graham Cracker Ice Cream.
[Serves four.]
1 pint coffee cream
½ cup sugar
1 cup graham cracker crumbs
1 teaspoon vanilla

Mix ingredients and freeze in tray of automatic refrigerator. When partially frozen, remove to a chilled mixing bowl and beat with rotary beater until smooth. Then continue freezing without stirring until firm.

If you've a good recipe you'd like to enter in this contest, send it to Recipe Contest, Chicago Tribune. Be sure that it is written legibly and that full, clear directions are given. There'll be a prize every day for some lucky cook. Watch for the prize winners, and clip them for your recipe books. Each prize winning recipe has been thoroly tested by contest editors.

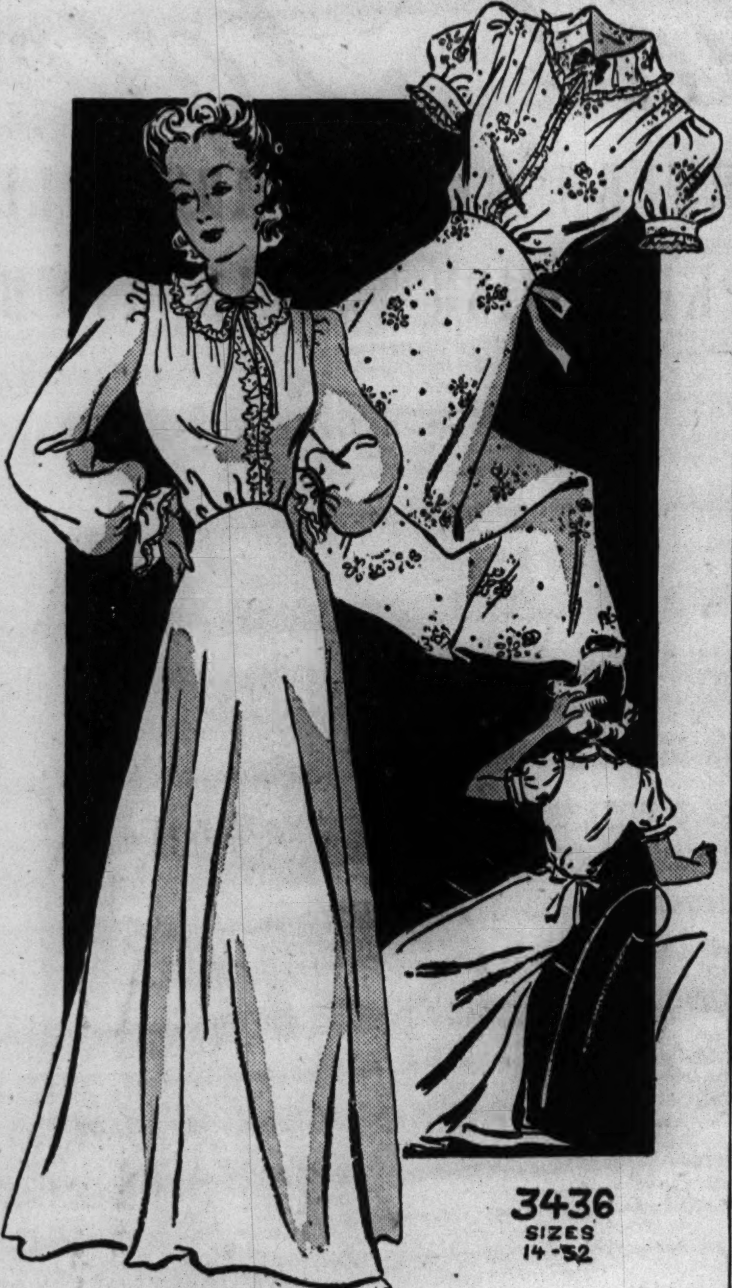
Lovely, Delicate Gown



3436
SIZES
14-52

WOMAN'S AND MISS' NIGHTGOWN.

Just in case Santa Claus forgot to bring you a delicate nightie you have been cherishing, don't feel sad about it. Simply order this pattern, shop for some luxury material, and go to work. It's an easy sewing job, and you'll look like a heroine in a novel when you don the finished gown.

Style No. 3436 is designed for sizes 14 and 16, and 36, 38, 40, 42, 44, 46, 48, 50, and 52 inch bust measurements. Size 36 requires 5¾ yards of 39 inch material, with 3 yards of lace for long-sleeved version; 5¼ yards of 39 inch material, with 2½ yards of lace, for short-sleeved model.

Address orders for Clotilde patterns to Chicago Tribune, P. O. Box 537, Grand Central annex, NEW YORK CITY, including 10 cents in stamps or coin (coin preferred — wrap it carefully) for each pattern ordered. IMPORTANT! Be sure to state clearly the number of the pattern and the size desired and write your name and address plainly. The winter pattern book costs 15 cents, 10 cents if ordered with a pattern.

According to Culbertson

[Copyright: 1942: By Ely Culbertson.]

"Dear Mr. Culbertson: You have often warned your readers not to double a slam contract. Nevertheless, there still are many bridge players who spoil their chances of setting a contract by foolishly doubling on the basis of mere probabilities.

"The other night, in a rubber game, the following deal exemplified the soundness of your advice.

"North opened with a diamond, obviously fascinated by the four honors. East passed and I, sitting South, bid one heart. After West's pass, my partner, without further investigation, jumped to six hearts. East promptly doubled, and everybody passed. West laid down the ace of spades, and I sat there with rather gloomy feelings. When I saw my partner's hand, the aspects still were not too rosy. East, for his double, was almost certainly marked with the outstanding ranking cards, king of spades and club ace and queen. I could discard three losers on partner's diamonds, but unless the opponents trumps were divided evenly, there would be no chance of sufficient cross-ruffing.

"After winning the first trick, I drew the outstanding trumps which, as I expected, necessitated three rounds. However, due to East's double, I found the right way to handle the contract. On the five diamonds, after following suit twice, I discarded one spade and two clubs, leaving one trump, Q-7 of spades, and the club ten. Dummy held one trump and the original three clubs. East was reduced to K-10 of spades and A-Q of clubs. West's holding was meaningless. The lead of the club 8 put East on the spot. Winning with the queen, he had no exit. If he returned the ace of clubs, I could ruff, and dummy's trump and spade queen would win the rest. If he led the low spade, of course I would win with the queen.

"East's double had given away his holding and shown me the proper way to fulfill a dubious contract by a throw-in play. Without the double, I might have made a wrong guess about the club situation.

—J. P., New Jersey."

Comments are scarcely needed. The hand was beautifully played by declarer, who took full advantage of the fortunate opening lead made against him. This is merely case No. 9,752,868 in the series, "Don't Make Doubtful Doubles of Slam Bids."

Your Handwriting

BY SHIRLEY SPENCER.

D'Artega, musical conductor of many radio programs and now heard with his rumba orchestra on "The Hit Parade," has a syncopated movement to his writing which is very intriguing. A page of his writing looks like a group of dancers doing a scarf dance. Long loops float over the page with long streamers in heavier ink attached, curling and twisting as if blown by strong currents. It doesn't look as if you could ever get a person who writes like this down to earth!

D'Artega

You can get some idea of the curling strokes if you look at the t-crossing and the tail of the "a" in his signature. Multiply these strokes by three and four to a word and you have some idea of what I mean.

Here is emotionalism, a vivid imagination, a very capricious spirit with a great love of mystery, romance, and adventure. And temperament? Well, rather!

For Handwriting Analysis send 10 cents (in coin) and a stamped, self-addressed envelope, together with a sample of handwriting. IMPORTANT: Write 25 words and signature in ink to Shirley Spencer, Box 116, General Postoffice, New York City.

Rest and Food Often Help a Cranky Child

By GLADYS HUNTINGTON BEVANS.

[Copyright: 1942: By News Syndicate Co. Inc.]

Other things being equal, that is, granted that he has normal activities and is understood, a healthy child is a happy child.

But when a child we know to be healthy is not happy, it's a good plan to look for some small detail of his physical condition to account for it.

I have a tall young cousin who says: "I know what makes me so cranky. I'm hun-n-n-gry!" ending with a roar like that of a starved animal.

And I know a small boy who ordinarily gets up in the morning beaming and affectionate. When he doesn't, I know what's wrong. He's tired. Crossness with him at any time of the day is almost invariably a sign of fatigue. He's a pretty intense child and he needs lots of rest.

Just watch your children for crossness, or irritability, or quarrelsomeness, or disobedience, as symptoms of tiredness or hunger. You may think they've had plenty of sleep, but it may not be enough. Remember how prodigal they are with their energy and remember how they are growing.

I know a woman who has several very healthy children. When their dispositions are out of gear she says she either feeds them or puts them to bed. Of course, she doesn't tell them all about that. She gets them to bed an hour earlier on some pretext, or she supplements their meals with extra food of one sort or another without drawing their attention to it.

In my own experience I've so often seen the dispositional effects, as you might call them, of hunger and fatigue. An insufficient luncheon for two weeks, with too much brain work and too early rising, made, in one case, an unhappy, unnatural child.

In another, a change in school, with lots of freedom and air, and an especially well planned midday meal, with about half an hour's added sleep in the morning, worked wonders.

Just experiment with this theory yourself, with special emphasis on the rest angle.

THRU THE LOOKING GLASS

The woman who wants to preserve her youthful figure—and her youthful vigor—might very well look into winter sports. They're among the best of beautifiers and health promoters.

Take skiing, for instance. It's a beautiful exercise for streamlining. Skiing and a bulging midriff just don't go together. The muscle control in skiing, and the rhythmic swing of it, is one of the best of all strengtheners for flaccid abdomen and leg muscles. The posture in skiing is tremendously important and the right posture for skiing is the right posture for beauty. The hips are set well beneath the spine and the spine itself is straight, with the head naturally erect.

Skiing takes every bit of flabby fat off the leg muscles, too, and like so many other good exercises, skiing is as good for the too thin as it is for the too plump. If they work up to it gradually the scrawny people will find that skiing develops their muscles beautifully, giving them a good foundation for a figure such as they never had before.

Skating is a marvelous exercise, too. The posture here again is good and the necessity for balance is of great importance. The combination of good posture, perfect balance, and free and easy movement makes for physical grace that carries over into everyday life with the most gratifying success.

If you'd be beautiful take your winter sports rather seriously. The fresh air and the exercise incidental to their performance are invaluable.

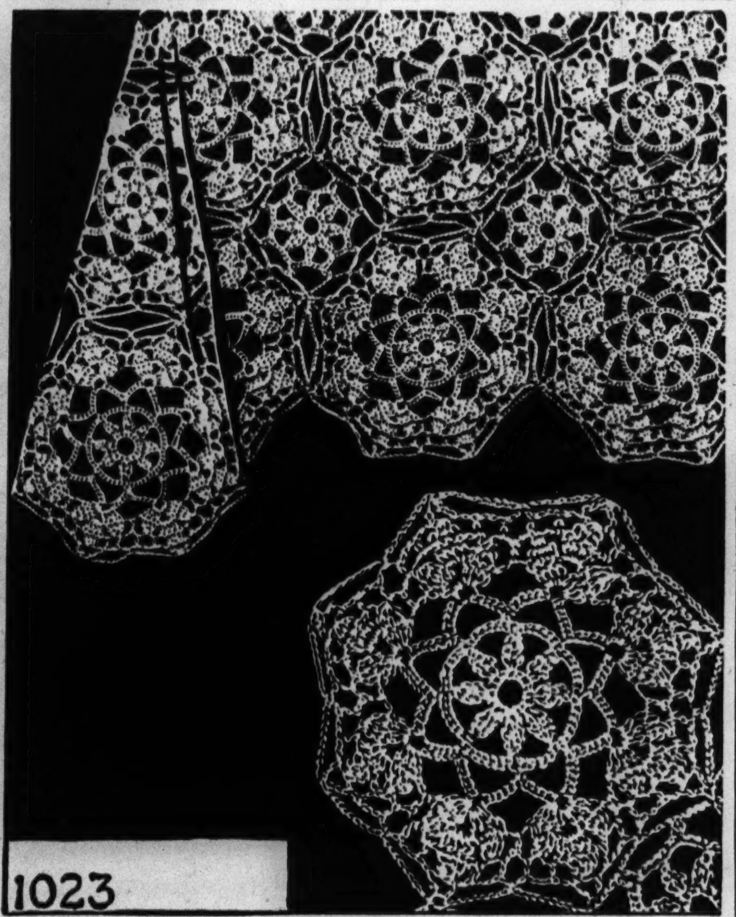
Pretty Clover Medallion



1023

BY ELLEN BRUCE.

Single clovers are said to be the symbol of good luck, and this crocheted clover design for a tablecloth will bring good fortune to beginners and experts alike. It is not difficult to create, and its effectiveness is only partly shown by the illustration. The handsomeness of a completed tablecloth must be seen to be adequately appreciated.

For instructions in crocheting the clover medallion for a tablecloth, No. 1023, send 10 cents in stamps or coin to the Needlework Bureau, Chicago Tribune, 220 Fifth avenue, New York City.

White Collar GIRL

BY RUTH MAC KAY.

Opportunity.

The number of women in industry has increased 20 per cent since 1930; 50 per cent since 1920; and almost 60 per cent since 1910. With employment of women definitely on the increase a new wartime boom for women in the accounting field is predicted by Charles H. Langer, president of a business school.

Mr. Langer's explanation is that never before has the office worker needed to know so much about accounting. There's just no telling when Mr. Employer is going to call upon his secretary to assist in social security reports, old age pensions, unemployment compensation, excess profit taxes and income taxes, and the girl who has a knowledge of accounting is not only likely to prove invaluable to her employer, but also to find herself in possession of a well paying profession.

It was stated recently that the accounting profession averages a higher salary than the movies or the radio.

Sally Says.

Sally says [feeling doleful]: "'Happy New Year' this year sounded just like 'Happy Operation' to me."

Check.

A large bottle of mouth wash and an equally large bottle of milk of magnesia have stood—a depressing reminder of holiday indulgence—on the shelf of a popular restaurant for 10 days. The check room girl says a woman checked them and then, apparently, forgot them.

If one can take the word of attendants in stores, hotels, and restaurants, people check a motley assortment of articles. The smallest on record is a box of hairpins; the largest [checked in a department store] is a tricycle, altho scooters, sleds and even wash tubs are no rarity. One of the heaviest, aside from suit cases, was an old fashioned flatiron, unwrapped, which appeared to be the twin of the old fashioned iron which flourished in the family basement long ago.

Any reference to check room girls is inadequate without mention of Josephine . . . of the indescribable memory. She checks hats in the Congress hotel and out of a possible 200, gives checks for only 50. Nobody knows how she does it. She just remembers which hat goes on which head! Grateful out-of-town customers, appreciative of such attention, remember Josephine as the big city gal with the small town memory for faces . . . and remember her with substantial tips.

THE Kitchen Kibitzer

BY MARIAN CARTER

A look over the shoulder of the kitchen manager in an attempt to speed, lighten and add some novelty to her daily routine.

Want to pep up the morning tomato juice? A little lemon or lime juice and some salt usually will do it. Or how about adding sauerkraut juice?

• • •

Thin white sauce is for soups, medium for sauces, thick for croquettes. Make 'em by a rule of 1-2-3. One tablespoon each of flour and butter per cup of milk for thin sauce. Two tablespoons for medium, three tablespoons for thick.

• • •

Caramel or burnt sugar sirup is swell for ice cream, waffles, pancakes, as well as for cakes and their frosting. Make it by stirring 1 cup sugar in a heavy skillet over low heat until melted, then adding 1 cup boiling water and cooking until lumps dissolve and you have a fairly heavy sirup.

• • •

Hint for using leftover cooked oatmeal or other breakfast cereal. Add brown sugar, mold and chill. Then serve with crushed fruit as a dessert. Something like a cornstarch or tapioca pudding, and good! Also economical.

• • •

Of course, you can add water or milk to cold cereal and reheat it in a double boiler for next day's breakfast. Or mold, slice and brown it in butter to serve with some of that caramel sirup.

• • •

Didja hear the one about the bride who called the butcher for a "yard of beefsteak?" And the true story about the one who was being careful to follow directions for making pickled rabbit ("soak in vinegar solution for 48 hours"), and after two days complained that she'd had the beastie in the pickling brine for that long "and the fur hasn't come off yet!"

• • •

A can of coffee powder on your shelf will be a lifesaver when you run out of your regular ground coffee. Makes a good beverage, too. Also handy when you want coffee for flavoring puddings, cakes, frostings.

Call for Sewing Machine Made for Red Cross

BY SALLY JOY BROWN.

[Activities of the Sally Joy Brown department are sponsored by Chicago Tribune Charities, Inc.]

There are many ways in which those of us who are not members of the armed forces can help in the war effort, and for homemakers in particular, the habit of conservation is most important. We must all try to utilize every scrap of important material and to waste nothing. That applies especially to useful items which we permit to deteriorate thru lack of use.

There are many homes in which sewing machines are seldom used to any great extent. If you have one you no longer need I'm sure Mrs. P.'s letter will interest you.

"Dear Miss Brown: Have heard of your good work and wonder if it would be possible to help us. A group of women in our parish have organized a Red Cross unit, but we are greatly in need of sewing machines. This is a definite handicap, but we cannot afford to purchase them. If any reader has one to offer, we shall be glad to call for it, and it would be a great help to us."

Work such as these women are ready and anxious to do is of great importance, and readers able to cooperate by providing machines will be making a genuine contribution. The address is on the west side of the city, but offers from any section of Chicago will be welcome.

BEARS DEFEAT LEAGUE ALL-STARS, 35 TO 24

N. U. FACES MINNESOTA FOR SHARE OF BIG 10 LEAD

IOWA, PURDUE ALSO BID FOR 2D VICTORIES

Hawkeyes Oppose Maroons Tonight.

Games Tonight

BIG TEN CONFERENCE.

Iowa at Chicago.
Minnesota at Northwestern.
Michigan at Purdue.
Wisconsin at Indiana.

OTHER GAMES.

Morningside at Iowa Teachers.
Ball State at Illinois Normal.
Great Lakes vs. Western Kentucky in Jeffersonville, Ind.
Illinois Wesleyan at Murray [Ky.] Teachers.
Tennessee at Duke.
Tulane at Alabama.

Firing on the Big Ten basketball front will be resumed tonight with four Western conference games. Illinois and Ohio State are the only teams which are idle.

Two of the games will be played on local courts. Northwestern, which opened its campaign with a 50 to 40 victory over Indiana Saturday, will be host to Minnesota, which got away to a flying start by subduing Ohio State in Columbus, 56 to 42. Chicago's Maroons, 64 to 19 losers to Purdue in Saturday's opener, will entertain Iowa, which scored a surprise 40 to 34 triumph at Michigan. Tickets for the Northwestern-Minnesota game in the Evanston High school gym are still available.

Maroons Are Confident.

Tho unsuccessful against Purdue, Chicago has adequate reserve strength for the first time in years and, regardless of Saturday's results, Maroon squad members are convinced the Hawkeyes are one of the conference teams they can beat.

Tom Chapman, forward, and Milton Kuhl, center, are the leading scorers of the Iowa invaders. They are aided by Wendell Hill, forward, and Rudy Soderquist and Vic Siegel, guards. Jack Fons and Ed Nelson will be the Maroon forwards, with Bernard Heinen at center, and the guard assignments going to Chuck Wagenberg and Bob Oakley. Chicago has not won a game since the season's opener against Illinois Tech.

Wisconsin and Indiana, last year's champion and runner-up, respectively, will battle each other in Bloomington. Michigan will face Purdue in Lafayette. Wisconsin lost its conference opener to Illinois, 54 to 40, in Madison.

Five Teams in Chicago.

Five of the eight teams involved in tonight's games were quartered in Chicago last night. In addition to the Maroons and Wildcats, on their home grounds, the others were Iowa, Minnesota, and Wisconsin. The Hawkeyes moved to the Windermere East upon arriving yesterday from Ann Arbor. The Gophers, after an overnight hop from Columbus, went to the Orrington hotel. The Badgers, several hours late in their train ride from Madison last night, will continue this morning to Bloomington, Ind.

The game in Evanston between the Wildcats and the unbeaten Gophers promises plenty of fireworks as both teams displayed speedy attacks in their opening triumphs. In fashioning its 10 point decision over Indiana, Northwestern turned loose the strongest offensive team it has boasted since the days of Joe Reiff a decade ago.

Wildcat Attack Balanced.

Altho Otto Graham, accurate shooting sophomore, led the Wildcat attack with 16 points, Northwestern's victory was largely a team affair in which all of the seven players used by Coach Dutch Lonborg contributed a share. The Purple came up with a tight defense led by Russ Wendland and Don Kruger which throttled the high geared Hoosier attack from start to finish.

Kruger's work in snaring rebounds under the Hoosier basket did much

RONCHETTI WINS 220 YARD DASH IN SKATE MEET

Elaine Bogda Leads in Women's Racing.

Team Standings

Northwest Skating club	520	Farragut High	70
CYO	360	Pierce playground	50
Champaign	160	Elgin	50
Glen Ellyn	130	Barrett	30
		Henry playground	10

Vic Ronchetti of the Catholic Youth organization showed early season speed by winning the Illinois State Skating championship in Glen Ellyn yesterday. Elaine Gordon of the Northwest Skating club captured the women's title by winning two events.

The 1942 champions did not win their races easily, however. Ronchetti scored slight margin victories in the 220 yard dash and ¾ mile and finished fifth in the final three miler, which Bob Heckenbach of the Northwest club won by 20 yards, defeating Steve Gadus of Scott field and Joe Janet of Northwest.

Mrs. Gordon Scores Twice.

Mrs. Gordon scored in both the 220 yard dash and half mile. She was followed by Ann Vitaska and Bessie Laga, who were second in total points for the meet.

Bill Carnduff of Northwest and Don Fahrenbach of the CYO tied for the intermediate boys' title with 40 points each. In a special skate-off, however, Fahrenbach took the 440 yard event to win.

Shirley Jane Burnett glided to victory in both the 220 yard and half mile intermediate races. Dorothy Oul of Farragut High school was second in both events and Shirley Catlin was third.

John Martin Junior Champion.

Junior boys' champion was John Martin of Champaign, Ill., while the junior girls' titleholder was Virginia Mazzetta. Juvenile girls' winner was Mary Allen, juvenile boys' winner, Dave Roll, and the midget boys' and girls' champions were Scotty Wallace and Joan Massoon.

Northwest club's skaters won team honors with 520 points to defeat the CYO's strong aggregation, which wound up second with 360.

Marvin Thomson, 1941 champion, watched the races from a car. His leg was broken recently while in training in Champaign, Ill.

Summaries:

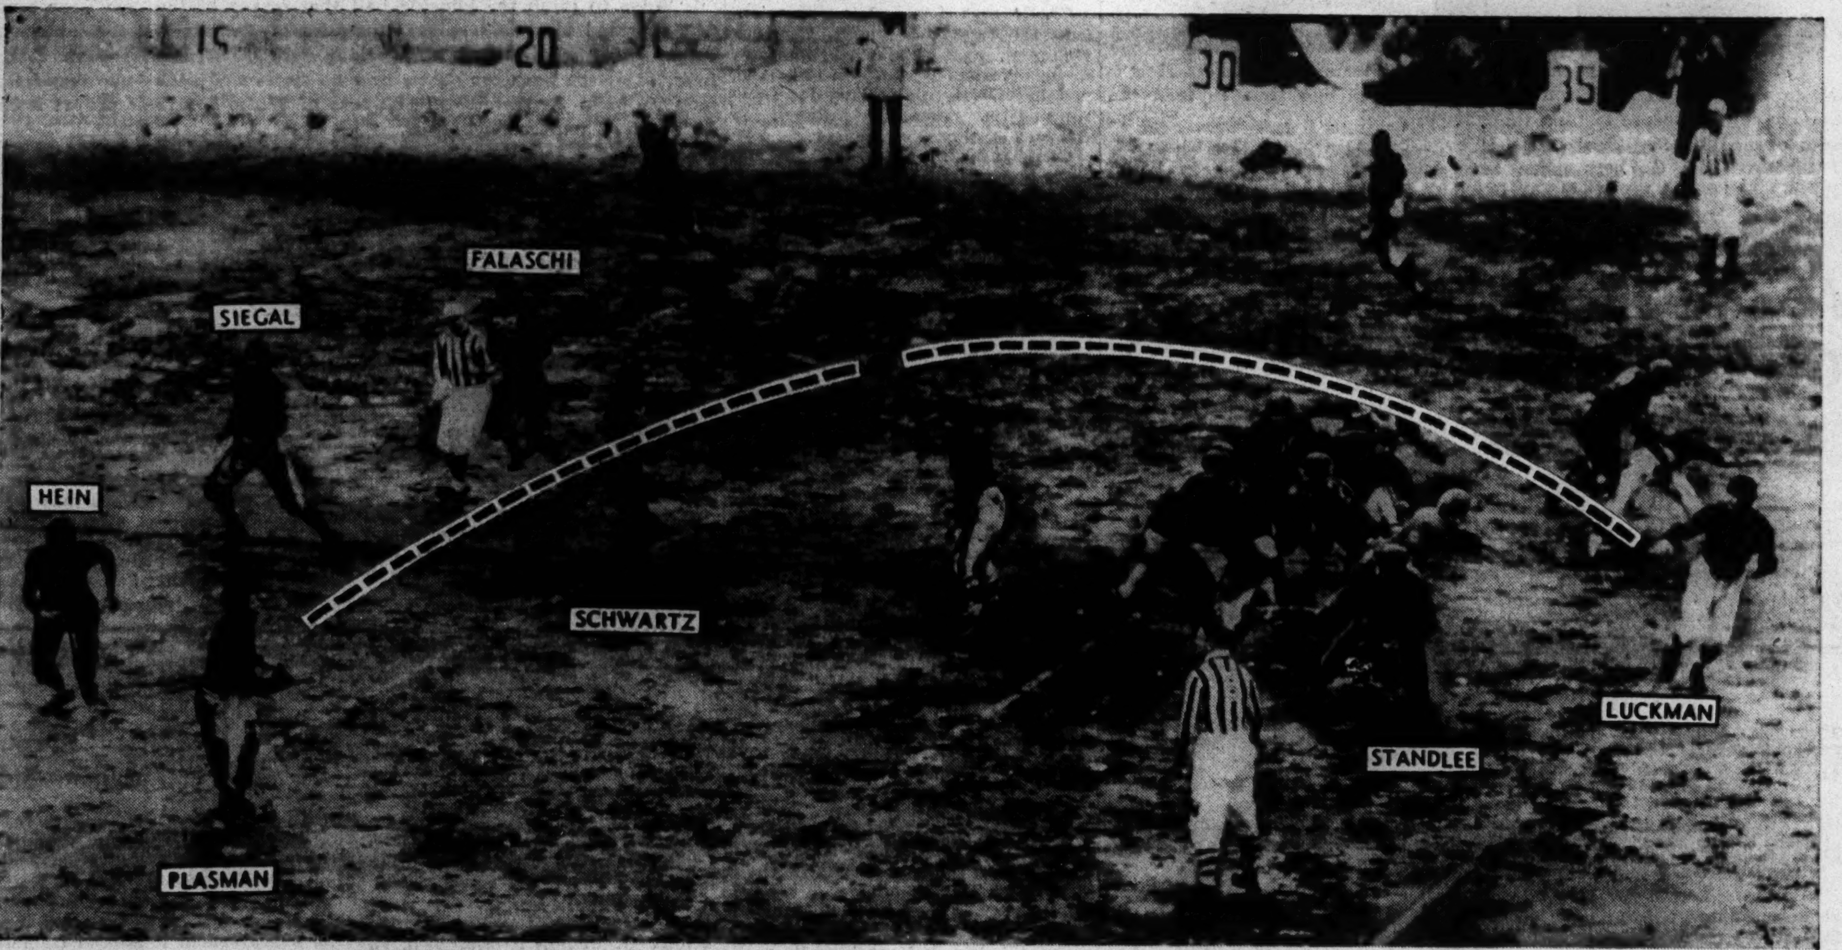
IT LOOKS GOOD, BUT BEARS HAD TO TRY, TRY AGAIN



This pass by the Bears in the first quarter of their game with the National league All-Stars in the Polo Grounds yesterday looks good for ten yards, but when Dick Plasman, who took the toss from Sid Luckman, finally was downed he had advanced only four yards. Officials then nullified the play with a fifteen yard penalty. The Bears won, 35 to 24, before a crowd of 17,725. The Navy Relief society will receive $25,529 from the contest.

A City and a Sports Department

(The Tribune Grows Up with Chicago)

[This is the second of a series of articles on highlights in the development of sports in Chicago, with especial reference to the part played by the Tribune sports department in reporting them from pre-Civil war days to the present time.]

BY CHARLES BARTLETT.

NO normally sane White Sox fan of today could picture James J. Dykes, the manager of same, wearing a baseball uniform and gnawing on his favorite cheroot while watching a first night performance in a theater. Nor could any Cub rooter visualize Boss Jim Wilson of the north siders seated in fifth row center of your favorite music hall, while still in his playing habiliments. And neither Sox nor Cub follower, we are sure, would trade his pet pew in Comiskey park or Wrigley field for seats under "a spacious tent."

Yet baseball had to begin, and so all of the above quaint incidents did happen once.

Witness the following account of the first TRIBUNE report of a baseball game in this city, as published in the issue of July 8, 1858:

"BASE BALL MATCH — A match game was played yesterday afternoon between the Union Base Ball club, of this city, and the Downers Grove Base Ball club. Notwithstanding the hot weather, the sport was excellent. A spacious tent was erected on the Club's Grounds, corner of West Harrison and Halsted streets, for the accommodation of visitors. The Downers Grove Club came off victorious, the 'country boys' being excellent players. In the evening, the Union Club entertained their victors, at which several good speeches were made, after which the whole party attended the theater in uniform."

Sports News Jammed in Next to Concert Notice.

Messrs. Vaughan and Burns, the present Tribune baseball experts, could just about crowd the play-by-play report of a single inning in the above space. It was jammed in between a review of an extravaganza called "Aladdin," then playing in North's theater, and a notice of an organ concert in the Third Presbyterian church. And it was quite warm that afternoon, for the thermometer at O'Hara's drug store, at Canal and Washington streets, it was stated, was in the 90s at noonday.

Still, that account moved a correspondent, who signed himself "Knickerbocker," to enlighten the editors of THE TRIBUNE about the conduct of the game, on July 9, 1858, in the following terms:

"BASE BALL — Messrs. Editors: There is to be a Convention of the Base Ball Clubs of Chicago, and vicinity next week, and as some alteration is to be made as to the manner of playing, I will give briefly a few rules as adopted by the New York Convention, for the benefit of your numerous readers:

"The Ball to weigh about six ounces avoirdupois, and be about ten inches in circumference.

"The Bat to be round and not over 2½ inches in diameter, and made of wood of any length to suit the player.

"The Bases to be four in number, on the corners of a square, and numbered 1, 2, 3, 4. The Home Base, or fourth corner, is the striker's position, and the first base is on the corner to the right, the third on the left, and the second opposite the home base.

First Bounce Is Out— Bases Are Sawdust.

"The 'Pitcher's' position to be 15 yards from the home base.

"Each base must be at least a foot square, and made of bags filled with sawdust or sand.

"The ball must be pitched, and not thrown, to the striker, and no balk is allowed in pitching, as the runner is entitled to a base by so doing.

"Any ball falling behind the range of a line drawn from the home base to either the first or third bases is foul, and the runner or striker is not entitled to a base.

"The striker is out if a ball [either fair or foul] is caught either flying or on the first bound.

"If three balls are struck at and missed, and the last one caught, the striker is out. Or, if a fair ball is struck and held by an adversary on the first base, he is out, or, if he is touched by the ball while in the hands of an adversary without some part of his person on a base, he is out; after a foul ball, the ball is considered dead until it returns to the pitcher.

One Game Consists of Nine Innings on Each Side.

"When a fair ball is caught before touching the ground, no player can

RIGGS DEALS 1ST PRO DEFEAT TO KOVACS, 6-4, 6-4

Albany, N. Y., Jan. 4 [Special].—Bobby Riggs dealt Frank Kovacs his first defeat of the professional tennis tour tonight, 6-4, 6-4, and Don Budge whipped Fred Perry, 10-8, 6-3, before 500 fans who braved snow and a zero temperature to watch the proceedings.

Despite the defeat, Kovacs retained first place in the singles standing with five victories against one setback. Riggs now has four triumphs and two losses, Budge has a three and three record, and Perry has been defeated twice.

Gene Mako, who substituted for Perry after Fred injured his right arm in the tour's New York première, lost all four of his singles matches. Tonight's loss, incidentally, marked Perry's return to action after a 10 day layoff.

The players will play in Boston, Mass., tomorrow, in Hershey, Pa., on Wednesday, and in New Haven, Conn., Thursday. The troupe will make its midwest debut in Chicago on Jan. 14.

BIG SIX TO RULE TODAY ON STATUS OF SOONER STAR

Kansas City, Mo., Jan. 4 [Special].—The Big Six conference's full faculty committee will meet here tomorrow to hear Oklahoma's appeal of the conference's eligibility committee's decision which recently declared Gerald Tucker, the Sooners' sophomore basketball star, ineligible for further competition.

Tucker had been ruled ineligible to compete in Big Six athletics on the grounds that Oklahoma failed to request from Kansas State college approval of Tucker's transfer to Oklahoma in the fall of 1940.

Sheboygan Five Turns Back Kautskys, 32 to 30

Sheboygan, Wis., Jan. 4 [Special].—The Sheboygan Redskins defeated the Indianapolis Kautskys, 32 to 30, today in an overtime National Basketball league game.

In the Wake of the News

BY ARCH WARD.

[Chicago Tribune Press Service.]

NEW ORLEANS, Jan. 4.—There is no such thing as a warm-up game for Dixie football teams. . . . Examples: Louisiana State will open with the Texas Aggies in 1942 and Tulane with Southern California. . . . Bobby Kellogg, freshman coach at Tulane, regards Joe Renfro, 205 pound back, as the best prospect the Green Wave has had in years. . . . When the Sugar bowl game was instituted in 1935, the guarantee to the competing elevens was $15,000 to the team coming the greatest distance and $12,000 to the other. . . . The same low figure still holds, but the teams get 35 per cent net each from the proceeds, which amounts to about $70,000 apiece. . . . Hank Clason, captain of Northwestern's basketball team, rates as the school's handy man in athletics. . . . Hank, who hails from the heart of basketball-land in Goshen, Ind., plays both forward and guard on the quintet and pitches and plays the outfield in baseball. . . . One of sport's genuine rarities is the retention of the turf money-winning champion by a 2 year old thru the following season. . . . Sweep did it in 1909-10 and Man o' War in 1919-'20. . . . They were the only 20th century juveniles to perform the feat, which is one more reason why you should keep an eye on Chicago's Alsab next summer. . . . Winter yachting, one of Southern California's most popular sports, will go on as usual during the war. . . . Plans already are being made for the Midwinter regatta off Los Angeles harbor Feb. 19-22. . . .

The Happy Valley race course was the scene of bitter fighting in the battle for Hongkong. . . . Irving Jaffee, former Olympic skating champion, will head the winter sports staff at Grossinger Country club in the Catskills, in addition to aiding the civilian defense training program. . . . The 1942 Boston Red Sox will meet American league clubs in spring games for the first time in four years. . . . The Red Sox have home-and-home series scheduled with Detroit, Cleveland, Washington, and the Yankees. . . . William Austin [Dad] Myers, who at 82 is the dean of American race track officials, was a pugilist known as the Streator [Ill.] Cyclone in his younger days. . . . Dad, who has charge of Tropical Park, once battled Jack McAuliffe to a draw for the world lightweight championship. . . . The University of Pennsylvania expects Fred Barkovitch, blind wrestler, to become as famous as Bob Allman, another sightless grappler who captained the varsity team in 1939. . . . The newcomer, who prepped at Overbrook School for the Blind, won the 135 pound championship in the recent All-University matches. . . . Odell Hale, veteran infielder who was sold by the Giants to Milwaukee, is of Indian-Irish extraction. . . . William Larkin, who has been Bishop Bernard J. Sheil's right hand man in development of the Catholic Youth organization in Chicago since 1930, is being called to duty in the public relations office of the 9th United States naval district. Lieut. Larkin has been executive director of the CYO since 1936.

BY WILFRID SMITH.

[Chicago Tribune Press Service.]

New York, Jan. 4.—Chicago's Bears, professional football champions, recited their valedictory this dreary, chill afternoon in the Polo Grounds with five touchdowns for a 35 to 24 victory over the National league's All-Star squad.

Thus, in the most strenuous campaign in professional football history, the Bears marked up their 19th victory in 20 games. One week less than five months ago, the Bears began preparation for the College All-Star game in Soldiers' field sponsored by the Chicago Tribune Charities, Inc. From that game Chicago charities received $40,134.43. Today, despite an all night snow which banked the playing rectangle, and subfreezing temperatures, a crowd of 17,725 attended the windup of the extended season.

Navy to Get $25,529.85.

After taxes had been set aside, today's receipts were $51,059.67. The Naval Relief Society fund will receive $25,529.85. Altho no official figures have been released, it is apparent that expenses will exceed the remaining sum.

While the Bears had complete command after the second period in which they scored three touchdowns, Sammy Baugh's passing was a constant threat. In the third quarter he rifled a fifteen yard touchdown pass to Perry Schwartz, Brooklyn end, and matched that almost immediately with a twenty yard throw to the Chicago Cardinals' Bill Dewell.

The All-Stars then trailed by four points, 21 to 17, having had the benefit of an opening field goal by Ward Cuff of the Giants. But the champions consolidated their position with a drive of eighty-six yards that was climaxed by Sid Luckman's forty-three yard touchdown pass to Ray McLean and added another score in the final quarter. Baugh's third touchdown throw, this one to Schwartz, came with 11 seconds remaining to be played under the glaring lights that had been turned on at the start of the period.

It's a Bitter Scrap.

The snow bowl scrap was as bitter as the weather. In recapitulation it may be listed that Don Hutson suffered a broken rib; Frank Filchock, two broken ribs, while Baugh needed four stitches to close a cut in his chin. Minor casualties in the exceedingly rough battle were unreported, but Lee Artoe and Joe Stydahar of the Bears, and Nello Falaschi and Joe Coomer, of the All-Stars, were among the belligerents who nudged with elbows and fists more or less openly.

Baugh's nine completed passes in 22 attempts for 123 yards constituted the All-Stars' attack, altho Cecil Isbell of Green Bay had four completions in eight throws, and Tuffy Leemans, New York full back, occasionally supported with short smashes into the line.

New York saw enough to understand why their Giants were soundly trounced for league honors two weeks ago in Chicago. New York also saw why the Bears' George McAfee is universally regarded in the west as the most elusive runner in the National league. One Play George turned on the speed for the Bears' second touchdown. He snared a punt by Isbell on Chicago's 32 yard line, dashed at full speed between the encompassing ends, and spun out of the arms of one tackler before straightening his course along the north side-

SECREET, NYBERG BATTLE TONIGHT IN MARIGOLD RING

Welterweights' 10 Round Bout Tops Card.

Sammy Secreet, fast punching welterweight of Cannonsburg, Pa., will meet George Nyberg of Port Arthur, Ont., in a 10 round bout heading the first 1942 show in Marigold Gardens, Broadway and Grace street, tonight. Nyberg will seek to redeem himself for a knockout he suffered at the hands of Harvey Dubs in the same arena last Nov. 17. It was George's first defeat in this manner and only his third in 36 professional appearances.

In his last Chicago appearance Secreet hammered out a split decision over Willie Joyce in the north side club on Dec. 15. Supporting matches this evening:

Nate Bolden vs. Vince Calzaretto [6], 175.
Jimmy Crow vs. Joey Davis [4], 150.
George Mitchell vs. Luther Brent [4], 160.
George Boltes vs. George McFarland [4], 175.

Joe Maxin sparred three rounds in Trafton's gymnasium yesterday for a 10 round headliner against Booker Beckwith in the Coliseum Friday. After the workout he weighed 186 pounds. This is five pounds more than he expects to carry against Beckwith.

Larry Amadee, former boxer and trainer of Joe Louis, has gone to New Orleans to attend the funeral of his mother, who died there last week. . . . George Trafton today will return from a two weeks' vacation with his mother in Hot Springs, Ark. . . . Milt Aron, Chicago welterweight, recently observed his 25th birthday in a south side hospital.

Eleventh IAC Boxing Meet Opens Jan. 20

BY FRANK MASTRO.

The 11th annual amateur boxing tournament sponsored by the Illinois Athletic club will be held in the IAC gymnasium, 112 South Michigan avenue, Jan. 20 and 21, Sports Director Johnny Behr announced yesterday. The opening night's competition will come three days after conclusion of the first Chicagoland Amateur Boxing league season. On Jan. 17, IAC representatives will meet a Milwaukee team in the final league show in West Allis [Wis.] High school gymnasium.

The IAC now is in sixth position but after Wednesday when it forfeits its scheduled match against the Catholic Youth organization the squad will drop to the No. 7 spot. Fort Sheridan is in the cellar. Maj. William Alleson, morale officer at that army camp, today will decide whether his men will go thru with a postponed encounter against Madison A. C. boxers in Madison arena on Friday. Lieut. Florian Ferrare, assistant post morale officer, says the soldier fighters are ready, Maj. Alleson will give the go signal.

Milwaukee Will Be Busy.

Altho the Madison club is in a tie for fourth position, the Fort Sheridan boxers do not fear the west siders, whom they held to a 4 to 4 draw in an earlier meeting at that army post. Fort Sheridan expects to score its first triumph in six league starts and move into a tie with Milwaukee for fifth place.

Milwaukee makes its first appearance in three weeks in an interclub match against Ashland A. C. in West Allis High school gymnasium on Thursday. Before then the Ashland boys will appear in a nonleague show in Social Turner hall, Paulina street and Belmont avenue, Wednesday.

It's Easy to Enter.

Also scheduled Wednesday will be a league card between Madison A. C. and Camp Grant boxers in Service Men's club at Camp Grant. Camp Grant is in second position with a record of three decisions and one tie, against one defeat. However, a victory over the soldiers would gain a share of second place for the Madison club.

Applications for the IAC tournament may be obtained at the Central AAU, 538 South Clark street, or the IAC. Any boy, 16 years or over, who has not fought professionally is eligible to compete. There will be no entry fee. Last year's IAC champions are: Harold Dade, 112; Bertrand White, 118; Ray Brown, 126; Robert Earl, 135; Robert Satterfield, 147; Lou Angelucci, 160; Hezzie Williams, 175; Clayton Worlds, heavyweight.

HEAVIER LOUIS WILL FACE BAER IN FRIDAY BOUT

Greenwood Lake, N. Y., Jan. 4 (AP). —The long suffering fistic faithful, always patient in putting their money on the line, are going to get their money's worth when Joe Louis fights Buddy Baer in Madison Square Garden Friday night. They'll not only get a load of Buddy, all 245 pounds of him, but they'll also see the biggest Joe Louis ever to climb into the ring.

It seems, the way Trainer Jack Blackburn tells it up here among the Ramapo hills, that Joe is a big boy now. He's growing up—so he finally realizes he can't peel those pounds off any more and still fire those big guns.

"We realized it," Jack disclosed today, "in the fight with Conn last June. Louis was down to 199 and sleek as a tigah. But he jes couldn't untrack—and almost blew his champeenship. He was down so fine that instead of taking off unnecessary weight, he wore down some muscle. So this time we'll have him about 205. He weighs 208 right now, and is comin' into shape just swell."

Time for Gophers to Relax

Three members of Minnesota basketball team which meets Northwestern tonight in Evanston High school gym find time to read the Sunday comics before turning thoughts to game with Wildcats. Minnesota opened its Big Ten campaign by subduing Ohio State, 56 to 42, Saturday. The Gophers made headquarters in the Orrington hotel, Evanston, last night. to break up Indiana's driving attack. In this he was ably assisted by the lanky Ted Esser, who shared the center assignment with Don Clawson. Northwestern's front line of Graham and Capt. Henry Clason ranged all over the court, intercepting passes and outspeeding the Hoosiers in a fast-breaking attack. Together with the smoothly operating Wendland, this trio collected 40 of Northwestern's 50 points.

Gophers Average 51 Points.

In Minnesota, Northwestern will encounter another team which resorts to a fire wagon brand of attack. The Gophers, who have averaged 51 points in six victories this season, base their attack around a fast, short passing game in which Capt. Don Smith is a key performer. He led the attack against Ohio State with 15 points on four baskets and seven free throws.

Despite its 69 points against Chicago, Purdue anticipates trouble attempting to extend its collegiate victory string to seven straight against Michigan in Lafayette.

Coach Ward Lambert used all 17 players on the squad against Chicago, still the Boilermakers accounted for the 13th 60 point or better game in Big Ten history, and came within five points of equaling the record established when Purdue defeated Indiana, 69 to 45, in 1937. Available records reveal that of 13 60 point or better games in Big Ten history, the Boilermakers have been on the long end eight times.

Michigan's quintet is built around Jim Mandler, 6 foot 4 inch center.

Indiana Lineup Unchanged.

Coach Branch McCracken of Indiana, who returned to Bloomington yesterday with the defeated Hoosiers, said he will use the same starting lineup against Wisconsin, whose 38 to 30 victory over Indiana last February broke a 27 game home floor winning streak for the Crimson.

Ralph Hamilton, a sophomore, and Johnny Logan will pair at forwards. Ed Denton will be at center, with Capt. Andy Zimmer and Sophomore Dick Wittenbraker the guards. Johnny Kotz, who paced Wisconsin's attack with 13 points in the loss to Illinois, and Charley Epperson will be at forwards for the Badgers. Harlo Scott, 6 foot 4 inch center, and Fred Rehm and Bob Alwin, guards, complete the lineup.

S. M. ROBERTS IS SHOOT WINNER AT GLEN VIEW

S. M. Roberts broke 93 out of 100 targets to win the singles trap shoot shootoff from Theodore Wickman yesterday at the Glen View club. Both tied in the regular shoot with scores of 95. Wickman also won the protection shoot with R. C. Vilas with combined scores of 82½.

Paul Clovis was high in the doubles event with 47. The men's skeet shoot was won by L. A. Manning with 49, and the women's skeet shoot by Mrs. J. A. Thomas with a score of 48½.

Meli Wins Class AAA Shoot in Lincoln Park

R. R. Meli won the weekly skeet shoot with a score of 50 straight in the class AAA event at Lincoln Park Gun club yesterday. W. T. Cline was high in class A with 47, James McGrath in class B with 45, W. E. Swanson in class C with 43.

CYO Boxers to Close Tourney Drills Today

Thirty-two of the Catholic Youth organization's most experienced amateur boxers will finish training today for the semi-finals and finals of the 11th annual CYO tournament in CYO center tomorrow. Three defending champions are included in the group. These are Al Noto, flyweight; Fred Dawson, bantamweight, and Dave Brown, heavyweight. The big guns seeking the five vacated titles are Henry Vera, featherweight; Frank Bausone, lightweight; Joe Dugo, welterweight; Jesse Hoskins, middleweight, and Hubert Hood, light heavyweight.

Mitchell a Threat to Brown.

Challengers for Noto's championship are Robert Simmons, Salvador Melendez, and Richard Kinebrew, while Bertrand White, Don Gallardio, and Jack McBurnie will vie for Dawson's title. Emerick Mitchell is Brown's strongest challenger.

Contestants in other divisions include the following: Dave Hernandez, 126; Henry Nichols, Melvin Johnson, John Hendron, 135; Kenny Madsen, James Martin, James Hunt, 147; Robert Smith, Blaze Zorich, Harry Stephens, 175; Joe Prislinger, heavyweight.

24 Bouts Are Scheduled.

Twenty-four bouts are scheduled, 16 in the semi-final round and eight in the championship bracket. First contest will be held at 8 p. m. Dedicated to a worthy cause, the aiding of needy boys and girls, the CYO event has taken its place as one of this city's most interesting sports spectacles.

Sailors Play 3d Game of Trip Tonight

Jeffersonville, Ind., Jan. 4 [Special]. —The Great Lakes basketball team will meet Western Kentucky Normal here tomorrow night in the third game of the Bluejackets' invasion of Indiana. The sailors opened their tour by whipping Indiana Central Friday in Danville and Butler last night in Indianapolis.

Great Lakes will continue its road trip in Michigan on Tuesday, when it opposes Michigan State in East Lansing, and will end it on Wednesday against Calvin college in Grand Rapids.

The sailors have won nine games in 10 starts this season, averaging 51 points per game. The sole setback was dealt by Ohio State, 38 to 32. Since then the sailors have beaten, among other teams, Notre Dame, Indiana, Purdue, St. Joseph's, and Butler.

The sailors will place emphasis on native Hoosiers tomorrow against Western Kentucky Normal. Lieut. J. Russell Cook, coach and athletic officer, has announced that Ernie Andres and Bill Menke will play the entire game. Fans of this city will be particularly interested in the performance of Andres, for this is his home town. Both he and Menke attended Indiana university. Other probable starters for Great Lakes are Dick Klein of Northwestern; Johnny Lobsiger of Missouri, and Bob Calihan of Detroit.

SLUMPING HAWKS LEAVE TONIGHT FOR BRUIN GAME

The Chicago Blackhawks, who have lost their last five National Hockey league games, will try to end their slump in Boston tomorrow night at the expense of the world champion Bruins. The Hawks will leave tonight for the scene of action, having had last night off.

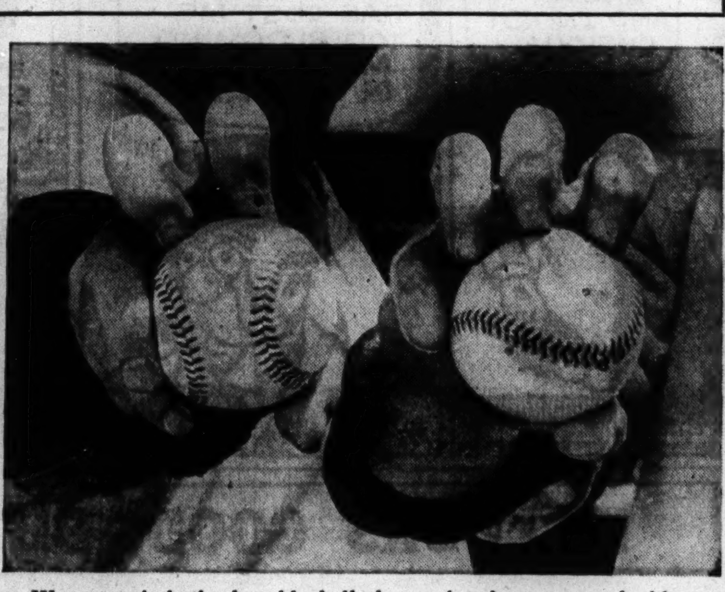
Taking advantage of the open date, Manager Paul Thompson and Coach Helge Bostrom took in two American association games yesterday afternoon and last night in Minneapolis and St. Paul, respectively. The matinée game saw the Hawks' farm team, Kansas City, against the Minneapolis Millers, while the night game featured Dallas and St. Paul. If any available minor leaguers looked like they might help the Hawk cause at this time, Manager Thompson, who is due back today, was expected to ask President William Tobin to bring on the recruits as soon as possible.

AUSTIN DEFEATS ALBANY PARK IN OPENER OF BBYO

A basket in an overtime period by Marshall Perrious gave Austin a 30 to 28 victory over Albany Park in one of the opening games of the B'nai B'rith lodge division basketball league yesterday in the Boys' Brotherhood Republic gymnasium.

Garfield Park, paced by Sam Keith with seven field goals and one free throw, registered a 48 to 19 victory over South Side. In other games Cardozo triumphed, 33 to 24, over Sachar, and Krause turned back West Rogers Park, 26 to 22.

Two Methods—The Same Result



Ways to pitch the knuckle ball that makes batters see double are demonstrated by two leading exponents of the art for the American league's 1942 movie titled "The Ninth Inning." At the left Emil Dutch Leonard of the Senators shows how he starts the pitch—two finger tips atop the ball. At the right Ted Lyons of White Sox fame proves it can be done with three fingernails.

Mightiest Hitters in Game Fear Baffling Knuckle Ball

BY IRVING VAUGHAN.

It's officially called the "knuckle ball" but unofficially it is termed in ball players' language the most evil thing ever devised for the suppression of base hits.

"Try and hit it" is the taunt a pitcher using this bit of artistry can feel safe in calling out as the ball floats up to a hitter. It barely spins. The batter sees more seams than ball. One moment it appears to be suspended halfway between the mound and the plate. At another moment, because of a slight spin, the seams cause an optical nightmare. The batter suspects a half dozen balls are coming at him. In his desperate attempt to pick out one of them he goes crazy.

Ted Lyons, the White Sox veteran, and Emil [Dutch] Leonard of the Senators are specialists in starting hitters toward the daffy house.

They Had to Call It Something.

The "knuckle ball," which in the last dozen years has spread rapidly from an obscure origin, is so called, not because of what happens when it is pitched but how it is pitched. The knuckle plays no part, but there had to be some way of classifying the pitch and because the ball isn't gripped within the finger lengths "knuckle" seemed as good as anything.

When Lyons' or Leonard's knuckler approaches the batter there is no difference in their actions. After their deceptive butterfly tactics, both break in front of the plate. But Lyons starts his one way and Leonard in another. Lyons gets results by using the nails of three fingers on the seam. The Washington expert uses only two fingertips and doesn't touch the seam. The secret, of course, is in the grip—the pressure is equal from all sides as the ball is released, thus cutting down to almost nothing the rotary motion.

It Saved Our Teddy.

Lyons, who almost was on his way out of the big leagues until he picked up the knuckler from Eddie Rommel of the Athletics, always has been noted for control but, strange to say, he can't control his trick pitch. He just aims for the plate, not knowing whether the pitch will break in and down, or out and down to the hitter. But unless he is way off form, as pitchers are on certain days, he invariably gets a piece of the plate.

Leonard is the exact opposite of the Sox patriarch in the manipulation of the knuckler. Leonard, a half side arm pitcher, whereas Lyons is strictly overhand, can make his Sunday pitch follow orders. He can pitch to spots. When his control is fair, he is able to break the knuckler sharply in or out—possibly because his near side arm delivery permits of greater flexing of the wrist.

One indication of what the knuckle ball means in a pitcher's répertoire is the near-freedom it affords from the home run menace. When a knuckler might come drifting up a batter isn't thinking of a free swing. He is merely in there to defend himself, feinting with his bat and hoping for the best. Only six homers were hit off Leonard last season in 256 innings. Nine were hit off Lyons in 187 innings. Most of these probably were not made off knucklers.

CARIS WINS 30 LAP EVENT IN MIDGET PROGRAM

Jimmy Caris of Chicago won the 30 lap midget automobile race last night in International amphitheater. Caris took the lead at the 12th lap and won by 15 car lengths. The time was 4:41:15.

Wally Zale finished second, Pete Neilsen third, Frank Burany fourth, Ray Richards fifth, and Ted Duncan sixth. Richards captured the 15 lap handicap in 2:24:38. Lou Scally and Don Hanley won the consolation races—Scally in 1:49:45 and Hanley in 2:08:14.

Three Teams Run Up Big Scores in CYO League

Three teams won scoring honors yesterday in the CYO basketball league first round of play. St. Mary of the Angels seniors, playing in the Weber division, trounced St. Pius, 51 to 13. At St. George gymnasium, Evanston, the Ascension juniors rolled over St. Mary, 53 to 24, and St. Leonard's preps stopped St. Anthony, 55 to 22. Also in the prep division Our Lady of the Mount defeated St. Anthony, 55 to 22.

LAST NIGHT'S RESULTS.

Detroit, 10; Montreal, 0.
Brooklyn, 3; Boston, 2.

Detroit, Mich., Jan. 4 (AP).—The Detroit Red Wings, lowest scoring team of the season, achieved the most one sided shutout in National Hockey league history tonight by whipping the Montreal Canadiens, 10 to 0, before 7,227.

While scoring four goals in the first period and three each in the remaining periods, the fifth place Red Wings came within one goal of the league scoring record established by the Montreal Maroons when they beat the Canadiens, 11 to 7, in 1938. It was the highest total scored in the league this season.

The game wasn't strictly a scoring affair, for Gerry Heffernan of the Canadiens and Brown of Detroit traded blows in the third period to set off a free for all that sent four players to the penalty box. Lineup:

MONTREAL [0].		DETROIT [10].

The Circle.

The young speak lightly of the past,
Things that are over and done,
People and modes, outworn and passe,
To them are but figures of fun;
Old fashioned manners and customs,
Old time virtue and grace,
To the strictly up and coming age
Are very much out of the race.

O, youth, laugh long, laugh loud, laugh well,
Now while you're of the mind,
For quick as the twinkling of an eye
Your youth, too, will lie behind;
Laugh loud, laugh long at bygone times
And those folks old fashioned and true,
For one morn you'll awake and your heart will break
To find young folks laughing at you!

Today.

Today we swear to those who shed
Their blessed blood in battles red
That we will keep their dream aglow
As long as breath of life we know.
Today we pledge with doubled fist
That in the skies of fire and mist
We'll put the genius and the might
To guard this nation's priceless right.
Today we work to save the worth
Of finest country on the earth:
Its liberty, for evermore—
If need be, at the cost of war.
And if the peace shall never come
Eternally we'll beat the drum;
On frigid field or hell's terrain
We vow fore'er we shall maintain
The greatest grandeur of our sod—
The freedom given of our God!

DECLARATION OF War POLICY

THREE YEARS AGO, when the world was substantially at peace, this writer issued a declaration of business policy to mark the occasion of his taking office as president of the Illinois Central System.

But veritably a lifetime has been lived in those three short years. Today we are engaged in a world war, a war that endangers the continuation of our nation's freedom and our American way of life. That war now takes precedence over everything else.

So now I restate our policy in terms of the war. To suffer hardships, if those hardships are necessary, will be not a *sacrifice* but a *privilege*, as has been so ably revealed. If the army or the navy or the marine corps or military production needs something the Illinois Central has to offer, that service will be provided in the certain knowledge that our regular customers will understand and gladly yield if temporarily inconvenienced or discommoded.

We must win the war. Yet, to the extent that may be permitted, we hope to provide:

For business and individuals, adequate and dependable transportation, pleasant service, continued improvements, fair and reasonable rates that will stimulate commerce and yet cover our costs.

For our workers, reasonable wages, fair treatment, good working conditions, modern tools.

For our investors, a return that will maintain credit and attract needed new capital.

For our friends and neighbors, performance that will command—and deserve—their continued confidence and good will.

But all these are as nothing if we lose the war. We must WIN the war.

To that end we of the Illinois Central pledge our hearts, our hands, our every effort.

J. L. Beven

MAN-MADE MUD BROUGHT LICKING FOR ALL-STARS

Field Left Uncovered, So Bears Got Mad.

New York, Jan. 4 [Special].—The Polo Grounds ground keeper was the unwitting reason the Chicago Bears rose again to the heights as they whipped the National league All-Stars today, according to George Halas, coach of the greatest football team in history.

"I was amazed to hear that the gridiron had been left uncovered," he stated in the dressing room after the game, while his boys joyously hustled showerward. "But it proved a break.

"I had difficulty in arousing the boys for the game and we were definitely not 'up' for it during the week.

Puts It Up to Bears.

"But just before we took the field I gathered them together and said, 'It looks like this is your real test. This is the worst gridiron you've had to play on and it's up to you 'to show your greatness, in spite of the conditions.'

"And they did rise to the occasion once more. They are a truly great team."

Sid Luckman, the New York youngster who went west and made good, echoed his coach's words: "There never was a team like this one," he said. "I'm sorry to see it break up."

Luckman was referring to the fact that at least eight of his teammates—possibly a dozen—will answer the call to arms and join the fighting forces before next football season.

Hunk Anderson Sore, Too.

Hunk Anderson, line coach, also was bitter about the condition of the playing surface "We can't find out who ordered the tarpaulin left off—that may remain a mystery. Steve Owen [the All-Stars' coach] says he doesn't know who is responsible. I believe him, but it looks as tho some one else figured that some mud would stop our running attack."

The Bears were expansive in their praise of Sammy Baugh, who pitched the three All-Star touchdowns.

"He's a great football player and a fine character," said 240 pound Bulldog Turner. "He was the only hero out there today."

Punch Closes Nolting's Eye.

Tho a few Chicago boys limped off the field, none was seriously hurt. Ray Nolting's right eye was closed—from a punch.

"Why didn't you call play No. 37 when I asked you to," he roared at Quarter Back Luckman, "then I could have got the guy who slugged me."

Some of the Bears were giving away parts of their uniforms as souvenirs. Luckman gave his shoes to Bill Robinson, colored tap dancer, exclaiming: "I hope that I have played as well in these shoes as you have 'tapped' in yours."

The eight Bears who will not return next year are. Dick Plasman, Ken Kavanaugh, George McAfee, Norman Standlee, Bill Hughes, Young Bussey, Joe Maniaci, and Lee Artoe. Despite imperfect vision, Artoe will be needed in defense work, since he is a highly qualified chemical engineer.

FORMER OLYMPIC CHAMPION DIES IN HOME AT 57

New York, Jan. 4 (AP).—Melvin Sheppard, 57 year old former University of Pennsylvania track star and 1,500 meter champion of two Olympic meets, died suddenly early today in his Bayside home.

A director of the Millrose A. A., Sheppard arrived home late last night after a conference in Madison Square Garden, where he helped plan the forthcoming Millrose games. He collapsed while talking to his wife and was pronounced dead by an ambulance physician.

At the 1908 Olympic games in London, Sheppard won the 1,500 meters. He won the 1,500 meters again in 1912 at the Olympics in Stockholm.

CLUB TO COLLECT ALL FOUL BALLS FOR USE OF ARMY

Louisville, Ky., Jan. 4 (AP).—Baseballs knocked into the stands by American association players next season will be collected and distributed to men in the nation's armed forces, President Bruce Dudley of the Louisville club said today.

"We used to let the fans keep balls knocked into the stands," Dudley said, "but I'm sure they'll willingly give up the balls for such a purpose."

The Louisville club president said he thought the plan was worth widespread adoption by baseball clubs next season.

make a base, but will be entitled to return. If two hands are out, no player running home at the time the ball is struck can make an ace if the striker is put out.

"The game consists of nine innings on each side, and is to be decided by the total number of runs.

"When three hands are put out, the side is out, and when a player is out he is not entitled to play again until the next innings.

"I have given you the principal rules of playing, and will be happy to answer any question appertaining to the game. I hope soon to see the game prospering in our midst, and many clubs formed.

line to complete a sixty-eight yard touchdown run in the second period.

Cuff caught a punt by Luckman on the All-Stars' 40 to start the return drive. From there he took a pass from Baugh for eleven yards, added eleven more on a reverse after Pug Manders of Brooklyn had picked up five, and finally dropped back to the 19 yard line for a field goal and a 3 to 0 lead.

The Bears came back after a minute and a half of the second period, benefiting by Luckman's thirty-nine yard pass to Johnny Siegal on the last play of the opening quarter which put the ball on the All-Stars' 13 yard line. A holding penalty by the All-Stars with the ball on the 3 yard line helped the assault. McAfee then shot over the final line behind Bulldog Turner on a quick opening play.

Chicago Moves to Second Score.

Chicago moved to its second score a few minutes later on McAfee's long run, Artoe adding the extra point.

Bill Osmanski made possible the Bears' 21 to 3 lead when he stepped in front of a pass by Isbell, and returned to the All-Stars' 6 yard line where Manders ran him out of bounds. Hugh Gallarneau plunged for two yards, and Bobby Swisher cut sharply inside the defensive right tackle of a six man line for the touchdown. Stydahar kicked the point.

The Bears were set back on their heels on a fifty-five yard punt by Baugh early in the third quarter, and a fumble by Norm Standlee of the Bears on his 15 led to an All-Star touchdown. Falaschi of the Giants recovered and Baugh immediately took to the air. He missed with one, but pitched to Schwartz over Ray Nolting's head in the end zone for the score. Cuff kicked the extra point.

Bears Get Going Again.

The All-Stars followed this effort with a drive of fifty-nine yards with Baugh covering the last twenty-four on a perfect peg to Dewell.

This was enough for the Bears, who bore down on the subsequent kickoff without releasing the ball until they had scored. Standlee, McAfee, and McLean carried the brunt in a seventy-five yard drive capped when Luckman faded back and tossed to McLean, deep down center. McLean caught the ball on the 20, just out of Cuff's reach, and outran Baugh in a sprint to the goal. Bob Snyder's kick gave the Bears a 28 to 17 advantage.

Not even this satisfied the champions. They were off again as Snyder intercepted Baugh's pass on the All-Stars' 28 in the last period. From here Joe Maniaci plunged to the 16. Then Young Bussey passed to George Wilson for a first down on the All-Star 2. Maniaci was penalized five yards for being in motion so Bussey threw to Ken Kavanaugh in the end zone for a touchdown. Stydahar added another extra point.

The All-Stars had the final say, however, with Baugh doing most of the speaking. Sammy passed to Dewell for twenty-five yards when interference was called. He then connected for twenty-six yards to Schwartz in the end zone to round out the scoring.

MRS. RUTH SAYS BABE'S CONDITION IS MUCH BETTER

New York, Jan. 4 (AP).—Mrs. Babe Ruth said today her husband, who was taken ill and hurried to a hospital early Saturday morning, "was getting along just fine."

Ruth, who escaped injury in an automobile crash during the holidays, was taken to an unnamed hospital for rest. His physician said that part of the former home run king's nervous condition was due to his heavy dieting in which the slugger lost 37 pounds in a few weeks as preparation for a movie rôle.

Mrs. Ruth said Babe also was suffering from a heavy cold and that he would remain in the hospital for several more days.

Bruins Buy Busher Jackson from Americans

New York, Jan. 4 (AP).—The Boston Bruins of the National Hockey league tonight purchased Left Wing Harvey [Busher] Jackson from the Brooklyn Americans for $7,500. Jackson, who played with the Americans last season, refused to join the club this year because of salary difficulties. His brother, Art Jackson, already was a member of the Bruin club.

Kansas Drops Player from Basketball Team

Lawrence, Kas., Jan. 4 (AP).—Don Ettinger, sophomore guard, was dropped from the University of Kansas basketball squad today, Coach F. C. Allen said, "for the good of all concerned." Ettinger was full back on the football squad last year.

Feller Starts Training Today at Navy Base

Bob Feller, star Cleveland Indian pitcher, is scheduled to report today to the Naval Training station at Hampton Roads, near Norfolk, Va.

Feller, who was inducted into the navy at Great Lakes Dec. 10 as a chief boatswain's mate assigned to physical education duties, will go thru a six week training period in naval duties, traditions, and history combined with a thoro course of instruction in physical education outlined by Lieut. Comm. Gene Tunney.

Navy Made No Promises.

Navy officials have emphasized that Feller was given no promises when he enlisted and that upon completion of his training he will be sent "where any exigencies of the service may so dictate."

While emphasis undoubtedly will be placed on Feller's baseball knowledge, the training course prescribed for all men in his branch of naval service embraces all forms of physical education from calisthenics to competitive athletics.

Bob Gets Leave of Absence.

Feller was given leave of absence to visit his father, who is ill and is being treated at the Mayo clinic in Rochester, Minn.

Lieut. J. Russell Cook, athletic officer of the Great Lakes Naval Training station, said that while his station would be glad to have Feller assigned to service with it, he was "entertaining no hopes," since the star pitcher may be assigned anywhere in the navy on ship or shore.

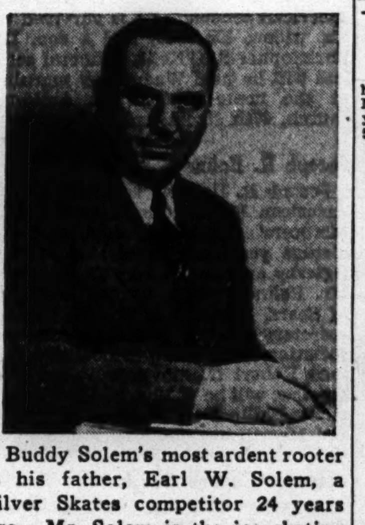
A True Silver Skates Family

Richard (Buddy) Solem, who will seek a junior Silver Skates title in the annual Derbies sponsored by The Tribune on Garfield park lagoon Jan. 17 and 18. Buddy, 15 years old, has entered every Silver Skates event since the age of seven. He won his first Silver Skates title at the age of 11.



Buddy Solem's most ardent rooter is his father, Earl W. Solem, a Silver Skates competitor 24 years ago. Mr. Solem is the ice skating coach at Harper High, and also has been a successful football coach.

Buddy Solem Knows Way to Please His Dad

BY JAMES SEGRETI.

If Richard [Buddy] Solem is the first to cross the finish line in the junior division of the Silver Skates Derbies on Garfield park's lagoon Jan. 17 and 18, a vociferous roar will be heard. It will come from his most ardent follower, coach and father, Earl W. Solem, who himself tried unsuccessfully to win the championship in the first ice skating event conducted by THE TRIBUNE 24 years ago.

Buddy, a sophomore at Schurz High school, where he is captain of the ice skating team, is 15 years old. He has entered every Silver Skates event since he was 7 years old. Buddy already has won numerous titles and has collected 90 trophies and medals. The reason for Buddy's ability can be found in his own aptitude and his father's remarkable athletic career.

Harper's Ice Skating Coach.

Solem now is associated with the Public School league, serving as ice skating coach at Harper High. He formerly coached at Tilden Tech from 1925 to 1937, leading Tilden's squads to 10 skating championships in the 12 year period. Among the skaters developed at Tilden Tech were Eddie Schroeder, Tom Baacke, and Art Conroy.

Solem, who starred in several sports during his prep days at Lane Tech, also has been a successful football coach, handling the Austin Bears semi-pro eleven for 10 years. He already has had a hand in the development of Buddy as a football player.

Captures Midget Title.

Buddy won his first championship at the age of 8, taking the midget title in the Oak Park playground meet. He retained the title in 1935 and 1936 and the following year came thru successfully in the midget division of the Silver Skates. During the same winter he captured the national midget title, and defended it in 1938. He holds two national midget records, covering the 440 yard event in :44.2 and the one-third mile race in 1:04.

Buddy now has been graduated to the junior class, but he has shown that he also can win in that division.

CHICAGO TEAM TAKES 1ST PLACE IN SCHALK MEET

Monarchs Win at Gold Coast; 300 Bowled.

BY C. H. BEUKEMA.

There's something about a sweepstakes which transforms the Chicago Recreation bowling team, a steady second division outfit in the South End Traveling league, into a quintet of sharpshooters. Last night Charley Zeeman, George Sak, Joe Aulicky, Tony Novak and Joe Schaffek got hot again. They rolled a four game total of 4,044, and that was just 128 pins more than any of the 120 other teams competing in Ray Schalk's sixth annual holiday five-man sweepstakes could knock down on the Evergreen Towers alleys.

It was the third sweepstakes event the Chicago Recreation team has won lately, the other two being the Park Manor with a 2,875 total and the Pla-Mor with 3,069. The 4,044 resulted from a 1,087, 965, 1,031, 961 sequence. In each instance the Joseph L. Gills finished second.

That Big Score.

Here's the winning box score:

Charley Zeman	193	206	195	198—	792
George Sak	210	189	223	183—	805
Joe Aulicky	201	192	246	205—	844
Joe Shaffek	236	211	193	163—	803

Monarchs Win at Gold Coast.

The Monarchs of Chicago, ABC champions two years ago, last night won the Gold Coast Sweepstakes at the Gold Coast Recreation with a towering total of 4,121 pins for their four games, but Ray Keating of the Schlitz team of Chicago stole the show with a perfect game of 300. Keating finished his second game with seven strikes, then hit 12 in a row for his perfect game and started his fourth game with three more strikes, giving him 22 pocket hits in a row. Teams that finished in the money:

	Pins.	Prize money.
Monarchs, Chicago	4,121	$1,200.00

MY SCALP IS VERY FOND OF THOMAS
says WILLIAM GAXTON

Now Starring in "Louisiana Purchase" at the Erlanger Theatre

"MY scalp doesn't make friends very easily. Always has been pretty particular—maybe a little 'stand-offish.' I have bought it gallons of lovely lotions—but they merely seemed to irritate it. But when I introduced it to Thomas—ah, everything was different. A warm, glowing friendship immediately sprung up, and my scalp has been humming contentedly ever since the first meeting. Thomas treats my scalp in a friendly, soothing, yet stimulating way, and my hair seems to be responding very well to this pleasant relationship," says William Gaxton.

More than a quarter-million scalps have found Thomas treatment to their liking. For them Thomas has removed dandruff and soothed the itch which dandruff frequently causes. Why not give *your* scalp a break—help it to do a job for your hair. Consult a Thomas expert today—in private—without charge. Let him show you exactly how this 20-year proved method works and why it is so effective.

NAME GOLDSTINE REALTY ADVISER OF COOK COUNTY

To Watch Selling, Renting of Escheated Property.

BY RAY QUISNO.

Harry Goldstine, Chicago realtor and former president of the Chicago Real Estate board, has been named to the newly created office of Cook county real estate agent, Clayton F. Smith, president of the county board, announced yesterday.

Goldstine, who will serve without pay, will supervise handling of real properties which escheat to the county from the estates of persons who die intestate and without heirs, and properties given as surety on forfeited civil and criminal bonds.

Drive to Unearth Cases.

During the last year the office of State's Attorney Courtney has conducted a drive to discover where the county may claim title to such properties. The campaign is under the direction of Joseph Burke and Marshall Korshak, assistant state's attorneys.

Properties valued at $100,000 already have been discovered in an investigation of probate records dating back to the great Chicago fire, Burke said. This work is being done by County Auditor Lee J. Howard.

On Friday Burke and Korshak filed in Circuit court five suits claiming properties with a total value of $10,000.

Bond Forfeiture Cases.

A survey of bond records dating back 20 years has disclosed properties valued at $250,000 which reverted to the county when bonds were forfeited. In these cases no court action is necessary. A writ is served on the owner, a sale is advertised for three weeks, and the property is then sold at auction, with the proceeds going to the county. It has been estimated that a total of $1,500,000 in such property may be found eventually.

Goldstine's job will be to protect vacant properties from vandalism and handle the renting of properties which cannot be sold. He will also supervise the sale of other such pieces of real estate on which the county is receiving no taxes while it holds title.

In the past, lack of such supervision has cost the county money. Last year, for instance, a rooming house at 938 North La Salle street escheated to the county. One bidder offered $6,000, but slashed his offer $2,000 when it was learned that vandals had stripped the house of woodwork, plumbing, and its heating plant, and that fire had severely damaged the house.

RESUME PARLEY ON LEGISLATIVE DEADLOCK TODAY

At Springfield this afternoon five Republican members of the Illinois house of representatives will try to persuade five Democratic members to agree on amendments to three or four of the nine bills now caught in the deadlock of the special session of the general assembly.

The Republicans are Speaker Elmer J. Schnackenberg, Majority Leader Frederick W. Rennick, Buda; Reed F. Cutler, Lewistown; Peter C. Granata, Chicago, and Arthur W. Sprague, La Grange. The Democrats are Minority Leader William Vicars, Pontiac; Joseph L. Rategan, Chicago; Joseph Sam Perry, Wheaton; Timothy J. Sullivan, Springfield, and Roland V. Libonati, Chicago.

The meeting will be a resumption of a conference called by Schnackenberg last week when the deadlock occurred. The Democrats have contended they will not support any bills except those unquestionably for defense and that they will not enter into any deals with the Republicans.

HUNT 2 FEDERAL PRISONERS AFTER ESCAPE IN DEPOT

Chicago police and the federal bureau of investigation were trying last night to find two federal prisoners who escaped from two United States marshals in Union station. The two prisoners are Richard Olds, 21 years old, and George Shipley, 29, both of Portland, Ore.

Marshal J. T. Summerville and his deputy, Martin La Vallee, were bringing the pair east for trial. Olds was to be dropped off at Louisville, Ky., where he is wanted for robbery, and Shipley was to have been taken on to Washington, D. C., for trial as an embezzler.

The marshals had missed connections with eastbound trains and had driven about the city with Chicago deputies, then had gone with their prisoners, not handcuffed, to the Union station cafeteria. Leaving the café, the two men, walking ahead of the officers, ducked into a crowd leaving a train and were lost.

Civilian Air Commander to Speak to Legion Post

Jack Vilas, Illinois wing commander of the civilian air patrol, will speak before Aviation post, American Legion, at a luncheon in the Hotel Sherman tomorrow. He will outline how members of the post can help in the war effort.

OBITUARIES

Frederick D. Montgomery.

Funeral services will be held tomorrow for Frederick D. Montgomery, pioneer in the Chicago engraving and printing business, who died Saturday in St. Luke's hospital after a short illness. Mr. Montgomery was chairman of the board of the Manz Corporation, printers and engravers, and had been an officer or a director of the company for more than half a century. He lived at 105 East Delaware street and was 77 years old. He was credited with being the first to bring the halftone process to Chicago. Surviving are his widow, two sons and a daughter. Services will be at 2 p. m. in St. Chrysostom's church.

Joseph Kelly.

Joseph Kelly, veteran bank employé, died of a heart attack yesterday in his home at 8007 Mayland avenue. He retired Jan. 1, 1940, after 40 years as identification clerk in the vaults of the Continental Illinois National Bank and Trust company and its predecessor. He was 73 years old. Mr. Kelly leaves his widow, Nellie, and two sons, J. Harry and John G. Funeral services will be held at 9 a. m. Wednesday at St. Francis de Paula church.

Mrs. Elizabeth Hadler.

Funeral services will be held at 2 p. m. tomorrow in the chapel at 3834 Irving Park road for Mrs. Elizabeth Hadler, 2124 Gladys avenue, who died yesterday in Oak Park hospital. She was 65 years old. Mrs. Hadler had lived in Chicago for 48 years and at her late residence for 34 years. She was a past matron of the Welcome chapter, Order of Eastern Star. A daughter, Mrs. Ruth Kopecky, and a son, Erwin, survive.

Mrs. Justin W. Griess

Mrs. Justin W. Griess of Boston and Hamilton, Mass., the former Serena Sears of Oak Park, died in Boston yesterday, according to advices received by friends. She was 42 years old. Mrs. Griess was the daughter of Mrs. Richard Warren Sears and the late founder of Sears Roebuck & Co. Griess and Miss Sears were married in 1921. She was a well known dog fancier and active in war relief and civilian defense work.

Dr. William A. McKee.

Funeral services for Dr. William A. McKee, 1340 Birchwood avenue, a former director of the psychiatric clinic of the Juvenile court, who died Saturday night, will be held at 1 p. m. Wednesday in the chapel at 5501 North Ashland avenue. He is survived by his widow, Harriet, and three brothers.

Dr. John O. Evjen.

Dr. John O. Evjen, dean of Carthage college at Carthage, Ill., and widely known as an educator, author, and lecturer, died of a heart ailment in Presbyterian hospital yesterday. He was 67 years old. Dr. Evjen was considered an authority on the philosophy of history and on church history.

William Hall Milton.

Marianna, Fla., Jan. 4 (AP).—Former United States Sen. William Hall Milton, 78, died at his home here today. A grandson of John Milton, Florida's Civil war governor, he was appointed senator on March 27, 1907, and served until March, 1909.

Mrs. Ann Collins.

Morris, Ill., Jan. 4 [Special].—Mrs. Ann Collins, member of a pioneer Kendall county family and widow of Joshua R. Collins, wealthy banker and landowner who died 20 years ago, died here today in the family mansion at the age of 87. She had been ill for several years.

The Rev. William L. Shortall.

Services for the Rev. William L. Shortall, assistant pastor at St. Thomas Aquinas church, will be conducted at 10:30 a. m. today in St. Thomas Aquinas church, 5112 Washington boulevard, with burial in Mount Olivet cemetery. Father Shortall, who died Friday, was 38 years old. He had been ill since September. Solemn requiem mass will be sung by the Rev. William Long, pastor at St. Thomas Aquinas. Archbishop Samuel Stritch will deliver the sermon. Three brothers, James P., Thomas H., and Joseph C., and two sisters, Mary A., and Josephine F., survive.

Dr. A. Augustus O'Neill.

Dr. A. Augustus O'Neill, 83 years old, 4917 Drexel boulevard, chairman of the influenza commission in 1918, died yesterday in his home. He was a physician and surgeon for 60 years. Born in Herefordshire, England, Dr. O'Neill was educated in English and American schools. He is survived by his widow, Dorthea, and a son, Dr. Christopher S. O'Neill. Funeral services will be held Wednesday morning at the home and at St. Ambrose church, 47th street and Ellis avenue.

Joseph R. Bohnen.

Joseph R. Bohnen, secretary of the American Washer and Ironer Manufacturers' association, died of heart disease yesterday in his home, 6901 Oglesby avenue. He was 63 years old. Mr. Bohnen was a former executive of Sears, Roebuck & Co. He became secretary of the manufacturers' association in 1930. His widow and two sons, Robert G., and John J., survive. Tickled Pink!!

And why? Because he found there was a way to relieve that aggravating gas, headache, listlessness, coated tongue and bad breath, from which he had suffered, due to spells of constipation. He tried ADLERIKA—why don't you? It is an effective blend of 5 carminatives and 3 laxatives for DOUBLE action. ADLERIKA quickly relieves gas, and gentle bowel action follows surprisingly fast. NOBODY KNOWS WHO YOU ARE!

Here patients are identified by number instead of by name!

Because the Public Health Institute identifies its patients by number instead of by name, not even the doctor attending you has the slightest idea who you are! Organized by public-spirited citizens as a corporation "NOT-FOR-PROFIT," the Public Health Institute makes a full examination for gonorrhea and syphilis at very low cost, and gives individual treatments at fees so small as to be within the reach of every wage earner.

A 'BLIND' BEGGAR FLEES AFTER CAR HITS COMPANION

A "blind" beggar, led about by a woman about 55 years old, was being sought today by police who wanted to know why he disappeared when his woman companion was struck by an auto at 2624 Milwaukee avenue last night and seriously injured.

Witnesses said the woman had been seen making a tour of taverns with the "blind" man for several hours before the accident. Edward Fournier, 27, of 3817 South California avenue, told police that the couple stepped in front of his car, but that the begger disappeared after the accident and before the police arrived.

At County hospital the woman murmured the name of "Alice McGill," but was unidentified late last night.

5 TO 15% OF PAY FOR BONDS AIM OF MORGENTHAU

Systematic Buying Is Requested.

BY JOHN FISHER.

[Chicago Tribune Press Service.]

Washington, D. C., Jan. 4.—Reporting to the nation tonight that Americans set a new record in defense bond purchases after the Japanese attack on Pearl Harbor, Secretary of the Treasury Henry Morgenthau appealed for even greater response—for wage earners to set aside 5 to 15 per cent of their weekly earnings for bonds.

Morgenthau said in a nation-wide broadcast over the three leading networks that in December cash receipts for defense bonds totaled 528 million dollars. This compared with 233 millions in November and was almost twice as high as the seven month average since the bonds went on sale last May 1.

50,000 Truck Drivers Get Wage Boosts

Washington, D. C., Jan. 4 (AP).—Pay increases of 10 cents an hour and four-tenths of a cent a mile were awarded by the Defense Mediation board today to 50,000 truck drivers in 12 midwestern states.

The board also ordered six day annual vacations with pay in settling a controversy between the AFL International Brotherhood of Teamsters and the central states employers' negotiating committee of Chicago. The dispute was submitted to the mediation agency on Nov. 18 for arbitration.

In agreeing to submit the dispute to the board, the teamsters union called off a strike threatened for Nov. 15 which would have affected about 225,000 employés of some 800 trucking concerns in Illinois, Michigan, Ohio, Indiana, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, and Kansas.

The dispute was the second largest, in number of men involved, ever to be certified to the board and was the most important in which the disputants had agreed previously to accept the board's decision as final.

In awarding the wage increase the board cited advances in living costs since the last contract was signed in 1939 and wage increases granted recently by the railroads in line with recommendations of the President's emergency fact-finding board.

BANKS' REPORTS REFLECT DIP IN LITTLE INDUSTRY

Some Show Declines in Quarter's Loans.

The influence of reduced activity in small plants and a slackening of heavy inventory accumulation was indicated yesterday in an analysis of Dec. 31 condition statements of Chicago banks. Declines in loans and discounts in the last quarter of 1941 were reported by 28 of Chicago's 53 banks.

Altho the contraction of loans by a majority of the banks was slight, bankers said it reflected in part the inability of many small companies to obtain critical materials.

Many manufacturers and merchants early in the year used available cash and borrowed heavily to accumulate stocks in anticipation of wartime scarcities, one banker explained. Borrowing of this type slowed down later and a substantial part of the loans was repaid after the active fall markets.

Above September Level.

Altho the majority of the banks reported lower loans and discounts, the combined total for all 53 banks on Dec. 31 was slightly higher than on the Sept. 24, 1941, call for bank statements and was the largest since the end of 1931. Total deposits of all the banks were at a record high.

Outlying banks in general reported expansion of total deposits to new peaks, smaller loans, and increased cash resources at the end of 1941, compared with those of Sept. 24.

Among the larger outlying banks, Drovers National bank on Dec. 31 had total deposits of $48,804,000, against $41,613,000 on Sept. 24; loans and discounts of $4,698,000, against $5,418,000, and cash resources of $29,008,000, against $23,164,000.

Chicago City Bank.

Chicago City Bank and Trust company had total deposits of $33,912,000, against $32,055,000; loans and discounts of $11,169,000, against $10,718,000, and cash resources of $15,335,000, against $17,351,000.

Mutual National Bank of Chicago reported total deposits of $15,399,000, against $14,945,000; loans and discounts of $4,365,000, against $5,016,000, and cash resources of $8,392,000, against $7,315,000.

Total deposits of the Lake Shore Trust and Savings bank rose to $19,008,000 from $15,573,000. Loans and discounts dropped to $6,154,000 from $6,576,000, and cash resources climbed to $10,110,000 from $6,290,000.

Lake View Trust and Savings bank reported total deposits of $36,280,000, against $34,904,000; loans and discounts of $1,021,000, against $1,130,000, and cash resources of $19,669,000, against $18,322,000.

Total deposits of Live Stock National bank expanded to $33,141,000 from $30,423,000; loans and discounts, $7,056,000, against $6,256,000; cash resources, $22,949,000, against $22,419,000.

Lawndale National Bank.

Lawndale National bank reported total deposits of $13,427,000, against $12,622,000; loans and discounts of $2,593,000, against $2,673,000, and cash resources of $4,799,000, against $4,660,000.

Mid-City National bank had total deposits of $17,109,000, against $15,259,000; loans and discounts of $4,210,000, against $4,861,000, and cash resources $5,877,000 against $4,752,000.

Mercantile National bank's total deposits rose to $25,180,000 from $21,757,000; loans and discounts declined to $6,368,000 from $6,957,000, and cash resources expanded to $12,094,000 from $8,522,000.

County to Lose 30 Millions in Unpaid Taxes

More than 30 millions of the 220 million dollars in taxes being levied by Cook county governments in 1942 budgets will go uncollected and will be pyramided in future years on taxpayers who pay their bills.

George O. Fairweather.

This estimate was made yesterday by George O. Fairweather, Chicago tax expert. It is based on collections in the county over the last 13 years.

"Budget officials are compelled by inadequate tax collections in Cook county to pad levies and resulting tax rates by 15 per cent in order to compensate for the county's failure to collect taxes," Fairweather said.

Make Up for Nonpayers.

The annual pyramid of unpaid taxes means that approximately 750,000 property owners who pay their bills have to pay an average of $40 a year more to make up for nonpayers, it was estimated.

Fairweather explained that actually 44 millions of the 1942 tax levies will not be collected, on the basis of past experience. He said 6 per cent of the levies, or $13,000,000, might be charged off for collection costs and losses thru nonpayment, if Chicago collections approximated those in other large cities.

Fairweather said the 6 per cent for "loss and costs"—for collection of 94 per cent of the taxes could be reasonably expected if county officials would tackle the problem aggressively.

Since 1928 taxes collected and distributed to local governments in Cook county have averaged less than 79 per cent. This means those who pay taxes are paying 15 per cent extra because of poor collections, he said.

Excessive Delinquency.

To illustrate Chicago's standing in tax collections, Fairweather referred to a recent report on tax delinquency by Dun and Bradstreet's municipal service department.

"The city of Chicago continues to stand in a class by itself among the larger cities of the country in the matter of excessive and chronic delinquency," the report said. "The obstacles to satisfactory collections include heavy dependence on highly undependable personal property taxes and chronic and widespread contesting of levies by taxpayers, encouraged by attorneys operating on a contingent basis."

The study showed that in other large cities, the percentage of unpaid taxes at the end of 1940, for the tax years 1937-'39 inclusive, averaged from less than 1 per cent to 8 per cent compared with 20.4 per cent for Chicago. The averages for nonpayment in some of the other cities were: Boston, 2 per cent; Buffalo, N. Y., 2.8; Detroit, 5.1; Los Angeles, 1.7; Newark, N. J., 3.6.

REPORT U.S. TREASURY WILL FLOAT LOAN OF MORE THAN BILLION

New York, Jan. 4 [Special].—Unless the market turns adverse, it was reported today, the United States treasury plans within a few days to refund all or part of 1 billion, 76 million dollars of the obligations the treasury or two of its agencies have put forth.

The new loan, of the open market type, as distinguished from defense savings bonds and similar securities of interest only to the buyer, will be divided among four issues of maturing, or called, obligations. Not all the loan will be payable at once.

The treasury faces an ordinary maturity of 425 millions in notes on March 15. There are payable Jan. 15, 311 millions in RFC notes. The same day, 236 millions in Federal Farm Mortgage corporation bonds have been called for payment. On March 1, 103 millions in additional farm mortgage bonds are redeemable.

GUARANTY TRUST AND J. P. MORGAN RESOURCES FALL

New York, Jan. 4 (AP).—The Guaranty Trust Company of New York, one of the nation's largest banks, reported today total resources on Dec. 31 were $2,558,587,698, a small decline from $2,699,925,837 on Sept. 30. Deposits dipped to $2,259,895,401 from $2,388,555,611 at the end of the preceding quarter. Holdings of United States government securities contracted to $1,018,486,211 from $1,157,552,026.

The year-end condition statement of J. P. Morgan & Co. disclosed a decline in total assets to $749,725,411 from $777,171,834 at the end of September. Deposits declined to $689,361,244 from $722,385,613. Holdings of United States government securities totaled $356,023,513, against $380,409,936 on Sept. 30.

CHICAGO AREA GETS 79 MORE WAR CONTRACTS

Seventy-nine new war contracts were placed in the Chicago area last week, Leverett S. Lyon, chief executive officer of the Chicago Association of Commerce announced yesterday. They were allocated to 55 companies, of which nine had not previously been assigned war work. The list is not complete because various departments at Washington no longer give out information on important orders under actual war conditions.

So far as is known, during the last 18 months, 1,294 Chicago area concerns received 5,856 defense contracts with a total value of $1,257,995,000.

VAST WAR WORK TO BE OFFERED AUTO INDUSTRY

5 Billions in Orders Is OPM Proposal.

[Chicago Tribune Press Service.]

Washington, D. C., Jan. 4.—The war and navy departments announced jointly tonight that they will offer 5 billion dollars in new orders for war materials to the automobile industry in its conversion from a civilian to war industry. This will be in addition to 4 billion in war contracts already held by the industry.

The proposal will be made tomorrow at a conference of Office of Production Management officials and representatives of management and labor in the automobile industry, which has been ordered to cease production of new automobiles after this month.

Basis for Operations.

The joint announcement by Undersecretary of War Robert P. Patterson and Undersecretary of the Navy James V. Forrestal, said the 5 billion dollar figure represents combined immediate requirements of the two services and can be used in converting the industry. Many thousands of automotive employés are expected to be unemployed temporarily until the shift to war production is made. It is estimated that retooling will require at least two months. The war and navy contracts would lay a definite basis for prospective operations.

"There will be submitted to the meeting detailed and specific lists of the major items desired by the army and navy and they will be requested to disseminate this information immediately thruout the industry with a view to entering into negotiations with the services at once for the production of these items," said the announcement.

Parts Firms to Share.

"The nature of these items is such as to offer occupation not only to the large motor companies, but to the many varied smaller parts and accessory companies, constituting the general complex of the industry. One of the principal presently unfilled requirements is machine tools which the motor industry should be able to produce.

"Acceptance of these orders by the motor industry would greatly facilitate the efforts of the Office of Production Management to effect its conversion to a major defense industry with a minimum displacement of labor and facilities."

Time for Switch Over.

Present OPM plans are to permit the automobile industry to continue producing passenger cars for the remainder of this month. This time period is intended both to permit the industry to use up partially fabricated materials and to permit drafting of detailed plans for each plant's shift to war production.

Meanwhile, the Automobile Manufacturers' association, in newspaper advertisments to be published tomorrow morning in Washington and De-

Steel Supplies Are Expected to Exceed War Needs in 1942

Cleveland, O., Jan. 4 (AP).—The steel industry "definitely will be able to produce a vastly greater quantity of steel in 1942 than can be fabricated and otherwise consumed for war purposes," the magazine Steel declared today.

"In addition, enough steel will be available for other essential uses, such as freight car building and for export to countries dependent on the United States for their main supply," it said. "As a result of the supreme effort of 1941 much demand already met will not recur, such as for munitions plants.

Plan Additional Car Buying.

"Railroads have a large number of freight cars on order which builders have been unable to deliver because of slow supply of steel, but in spite of this the carriers plan to buy 115,000 more cars and 974 locomotives in 1942. During 1941 they received delivery on 80,000 cars and about 600 locomotives, and at the end of the year had about 75,000 cars and 600 locomotives on order.

"The projected program will put a heavy burden on steel suppliers, but it will be distributed thru the year rather than imposed in a short period."

Steel Rate Bounces Back.

In the usual rebound from the Christmas period the national operating rate rose 4 points last week to 97½ per cent of rated capacity, the same as the week before Christmas, the magazine said. Pittsburgh advanced 6 points to 96 per cent, Youngstown 9 points to 92, Eastern Pennsylvania 6 points to 89, Cincinnati 9 points to 91½, Detroit 4 points to 90, New England 15 points to 100, Cleveland 3½ points to 94, and Wheeling 1 point to 91.

PLANT REVEALS ITS STRUGGLE TO KEEP OPERATING

Regulations of Wartime Halt Production.

One small manufacturing company revealed yesterday its difficulties in trying to keep its doors open under wartime conditions. Under normal circumstances it employs about 500 persons, many on the pay roll more than 10 years. Most of this force has been released because of governmental regulations and the company's machines are idle. The enterprise has been located in Chicago for many years and its manufactured products are widely distributed.

First the company ran into the problem of scarce materials, including aluminum and steel. Engineers solved some of the difficulties after much expense thru redesigning which called for the use of plastics, and later wood for all parts possible. Only a minimum amount of steel was used.

Place Limit on Output.

Later the government imposed a limit on the number of articles that could be produced despite the fact that most of the materials used did not fall in the "scarce" category. As a result the company had a substantial inventory of metal shapes which could be used only in its own manufacturing process. The inventory included steel sheets too thin for general use. Had the company been permitted to use up its moderate sized inventory and to have sold the products made from the idle materials inventory a part of its working force could have been retained longer.

As declining operations forced the laying off of men before the almost complete shutdown, efforts were made to find new jobs for them, but without much success. Most of the men had been employed on types of machines much simpler to operate than the modern machines required in the arms industry.

Most of Workers Lose Out.

Arms production had not reached the point where it needed older men inexperienced on its own machines. So most of the company's workers are "out of a job."

Meantime the company spent several thousands of dollars in trying to get arms jobs which it could handle. Altho its machinery was not modern its officials said they were certain they could produce fair sized amounts of many articles needed, including precision parts.

A few small subcontracts were obtained, including precision work for the navy, but the pay was barely enough to meet the cost of the engineering work involved, let alone cost of materials and labor, it was said.

Company officials went to Washington and met government agents in Chicago. Altho they received "half promises" of a large amount of work, they have not received substantial orders.

Promise Jobs—for a Fee.

Several times a day persons with "big shot friends" call the firm and say they can get some business—for a fee. Others phone promises of arms contracts—for a percentage.

Meanwhile a large plant, in good condition, well lighted, near transportation, and with a potential staff of 500 employés stands almost idle. The government won't let it produce and its machines stand idle as the nation calls for arms.

Officials of the company said their organization is typical of many others, including a large one near by, whose owners would be willing to work for the government at cost.

Shipments of Hosiery Reduced in November

New York, Jan. 4 (AP).—Hosiery shipments in November totaled 12,576,116 dozen pairs, compared with 12,975,262 dozen pairs a year earlier, the National Association of Hosiery Manufacturers reported today. Shipments in the first 11 months of 1941 were lifted to 140,295,803 dozen pairs from 124,596,387 dozen pairs in the 1940 period, the association said.

BRITAIN ORDERS REGISTRATION OF 'ENEMY DEBTS'

[Chicago Tribune Press Service.]

LONDON, Jan. 4.—The ministry of finance tonight issued an order for the registration of all debts and other money owing to persons in the United Kingdom from persons who became enemies after the war in the Pacific broke out.

Provisions regarding trading with the enemy were extended to Japan, Korea, Formosa, Karafuto, "leased territory" in the Chinese province of Kwangtung [in which Hongkong is situated]; the Japanese islands in the Pacific, including those under Japanese mandate.

APPOINT BOARD TO SETTLE SHIP LINE DISPUTES

Washington, D. C., Jan. 4 (AP).—A three member maritime war emergency board to settle differences arising between seagoing personnel and operators of merchant ships has been appointed by President Roosevelt.

Rear Adm. Emory S. Land, chairman of the maritime commission, announced today that the President had appointed to the board Capt. Edward Macauley, member of the maritime commission; Dr. John R. Steelman, head of the federal conciliation service, and Dr. Frank P. Graham, president of the University of North Carolina.

5 TO 15% OF PAY FOR BONDS ASKED BY MORGENTHAU

Systematic Buying Urged to Finance War.

[Continued from page 25, column 1.]

bor," said Morgenthau. "The rush to buy bonds was so great that in some places the supply ran out for a time. We just couldn't print the bonds fast enough after Pearl Harbor.

"In Honolulu, while the smoke still darkened the sky, the citizens of Hawaii replied to the bombs by buying bonds 10 times as fast as before. As a result of that thrilling demonstration, and many others like it thruout the country, we promptly placed the bureau of engraving and printing on a three shift, 24 hour basis. We're glad that the country is pushing us.

"While there still are shortages in some cities, we are now accumulating several weeks' advance supply of bonds to meet the demand, which, I am confident, will never slacken until the war is won."

War Instead of Defense Bonds.

It is anticipated that the bonds soon will be renamed "war" instead of "defense" bonds in keeping with the change in the American position since the United States was attacked by the Japs.

Morgenthau said that much larger income from bond sales are necessary, reporting that the war effort in December cost nearly four times as much as total receipts from defense bonds. In the months to come the government will spend at a far greater and ever increasing rate, he said. Actual war expenditures in December were 1.8 billion dollars. This rate is expected to be more than doubled this year.

"War is never cheap, but let me remind you that it's a million times cheaper to win than to lose," Morgenthau continued. "The cost of our war effort should frighten no one but our enemies."

Wants Saving Systematic.

Emphasizing the importance of systematic saving from current income for bond and stamp purchases and expansion of the voluntary pay roll saving plans now in operation in thousands of factories and large business concerns, Morgenthau said:

"I am in dead earnest when I say that millions more must take part in these pay roll saving plans, and must invest hundreds of millions of dollars more, if we are to do the job. Our plans at the treasury for financing the war are based upon a belief that the American people will want to assume a big share of the cost of the war, of their own free will."

He asserted that the treasury goal is to have every wage earner and salaried person put aside a part of every pay check, every week, for the purchase of bonds and stamps.

Not Mere Token Contribution.

"And when I say 'a part' I do not mean a mere token contribution of 1 per cent or 2 per cent of the weekly pay check," he continued. "This is not a token war. It is not a 2 per cent war. It is not a war that can be fought with spare change. Each of us will have to figure out the very most that we can set aside to buy defense bonds, for our own good and for our country's good, as long as the war may last.

"I suggest that each of us decide this very evening not the least but the most that we can afford every week for the purchase of defense savings bonds; that we then translate that amount into a percentage of our pay, 5, 10, or even 15 per cent, whatever we choose, and stick to it by setting that percentage aside week after week without fail.

Bonds Not Only Need.

"Remember, the more bonds we buy the more planes will fly. Remember, every bond we pledge ourselves to buy will add to the weight of the bombs that will fall on Tokio and Berlin. I am not suggesting that purchase of defense bonds is all we need to do here at home to achieve victory. But I do say that the buying of defense bonds is the first thing we can do."

Stamp sales also reached a new high in December, according to the treasury, but figures were not available yet. Sales of bonds have reached a total of $2,537,210,000 since last May 1, with the month by month total as follows:

May, $349,818,000; June, $314,527,000; July, $342,132,000; August, $265,606,000; September, $232,327,000; October, $270,713,000; November, $233,487,000, and December, $528,599,000.

WAR IS COSTING EVERY BRITON $7.60 PER WEEK

Spend About 14 Billions in Nine Months.

BY LARRY RUE.

[Chicago Tribune Press Service.]

LONDON, Jan. 4.—Britain spent the record sum of 3,495,761,703 pounds [about 14 billion dollars] during the first nine months of the 1941 fiscal year. This was revealed when treasury accountants drew up the national balance sheet to Dec. 31, showing that the war now is costing every man, woman, and child in this country 1 pound 18 shillings [about $7.60] weekly on the average. A year ago the comparative figure was 1 pound 9 shillings 6 pence [about $6].

John Maynard Keynes.

Toward balancing the total expenditure, the taxpayers provided 1,221,567,556 pounds [about 5 billion dollars], 469,149,420 pounds [about 1 billion 876 million dollars] more than in the same period last year. The remainder of 2,274,194,147 pounds [about 9 billion 96 million dollars] had to be borrowed by the government.

Big Figures Cause Little Shock.

The year has produced so many records that the markets and the public have become immune to astronomical figures of expenditures and borrowings. The disclosure in the Bank of England returns that currency in circulation on Dec. 31 had reached an all-time peak of 751,725,000 pounds [about 3 billion 7 million dollars], compared with 615,900,000 pounds [about 2 billion 464 million dollars] a year ago, caused scarcely a flutter of interest.

Similarly, official figures showing that bank deposits amount to about 220,000,000 pounds [about $880,000,000]—a figure never previously approached in British banking history—was regarded worth little more than a paragraph or two in market reports.

Additions to the actual and potential purchasing power represented by the increases in note circulation and bank deposits would have produced an acute state of inflation, it is admitted, except for the government price controls, restrictions on spending, and the heavy taxation which has been applied to 2 million more wage earners than before the war.

Incomes Exceed Goods' Value.

John Maynard Keynes, financier who recently became one of the directors of the Bank of England, estimates that the personal incomes in this country greatly exceed the value and amounts of goods and services on which the money can be spent. According to Keynes, the supply of commodities of all kinds that can be bought in the shops and all that can be spent on rent, light, fuel, traveling, entertainment, etc., daily represents a value of 12,000,000 pounds [about $48,000,000] at present prices.

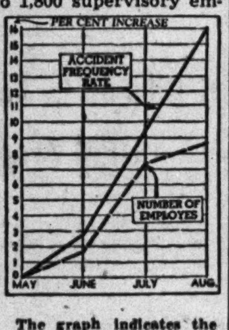
But the British people are earning 16,000,000 pounds [about $64,000,000] daily in personal incomes. On the balance being saved he advocates still heavier taxation.

In the face of crushing taxation, more extensive rationing, and other restrictions as the nation moved further toward a full war economy, the stock market prices in the last year put up a remarkable performance. Gilt edged shares moved to new wartime peaks, the 3½ per cent war loan, for instance, standing at 105 at the end of 1941, compared to 103 a year ago. Market observers attribute the firmness of prices to the abundance of money and the narrowing of outlets for investment.

"Investors do not sell when the news is bad," said one market expert. "And they buy, even if the news is not good, because they have to do something with their money and ownership of any property is itself a hedge against inflation."

Course in Industrial Safety Offered to 1,800 Supervisors

A course in industrial safety which will be open to 1,800 supervisory employés of Chicago area manufacturing plants will be started Jan. 19 at seven Chicago high schools, John I. Yellott, chairman of the defense training committee of the Illinois Institute of Technology, announced yesterday.



The graph indicates the rapid rise in industrial accidents.

The course will be conducted by the institute in coöperation with the Chicago board of education, the Greater Chicago Safety council, and the National Committee for the Conservation of Man Power in Defense Industries.

Enroll at Seven Schools.

Those employés chosen will be enrolled at the seven high schools the evenings of Jan. 12 to 16 and assigned to classes. The classes, for which there will be no tuition charge, will be conducted twice weekly with each session lasting about 2½ hours. Prominent leaders in the field of industrial safety engineering will be instructors.

In an appeal to presidents of 3,000 manufacturing companies, which either have now or may later have arms contracts or subcontracts, Yellott asserted "industrial accidents in the Chicago area increased twice as fast as employment" during the period from May to August.

Schools to Be Used.

The high schools in which registration and classes will be conducted are Austin, Crane Technical, Chicago Vocational, Carl Schurz, Lane Technical, Tilden Technical, and Harrison.

To qualify personnel for enrollment a company need only list its applicants in a letter signed by a responsible company official and mailed to Yellott.

AIR LINE SETS TRAFFIC RECORD FOR DECEMBER

Passengers, mail, and express carried on Braniff Airways on the route from the Great Lakes to the gulf during December broke all records for that month, the company announced yesterday.

The increase was due partly to holiday travel, but mostly to members of the armed forces traveling on leave or on orders, and to the number of officials traveling for national defense purposes.

Travel during December showed an increase of 95.6 per cent over December of 1940, and an increase of 26 per cent over November, 1941.

LEAKY FAUCETS, PEST TO SLEEP, TO BE BANISHED

Leaky faucets—the annoyance of light sleepers and the worry of landlords when water bills come due—will be banished entirely after the war ends, engineers of the E. I. du Pont de Nemours & Co. said yesterday.

They disclosed the development of a neoprene water faucet washer which in tests lasted the equivalent of 27 years' use in an average home without springing a leak.

$8,300,000 BONDS OF BIG NEBRASKA UTILITY OFFERED

A syndicate headed by John Nuveen & Co. today will offer $8,300,000 of 2½, 3, and 3½ per cent bonds of the Western Nebraska division of the Consumers Public Power district, a Nebraska state agency. They mature in 1943 to 1972.

The 2½ per cent bonds are priced to yield 1.50 to 2.75 per cent, and the 3s from 2.90 to 3.20 per cent. The 3½ per cent bonds are priced to yield 3.25 per cent.

MINERS TO GET BACK FINES FOR ILLEGAL STRIKE

Pittsburgh, Pa., Jan. 4 (AP).—An estimated $45,000, representing dollar a day fines imposed on some 15,000 commercial coal miners in this area during the November coal strike, will be remitted to the miners after Jan. 15, Bryon Canon, secretary of the Western Pennsylvania Coal Operators association, announced today.

The operators deducted the fines from pay envelopes, as authorized by the contract with the CIO United Mine Workers' union in the case of an illegal strike. The commercial miners walked out in sympathy with employés of coal mines operated by steel companies, who struck for and obtained a union shop.

SEIBERLING NET PROFITS, SALES BOUND IN YEAR

Seiberling Rubber company yesterday reported net income of $813,918 for the fiscal year ended Oct. 31, against $219,488 in the preceding year. Net sales rose to $13,693,952 from $9,609,826.

The company reported the outlook for the current fiscal year was clouded by the war.

OPM Contract Unit Opens Office in Fort Wayne, Ind.

Washington, D. C., Jan. 4 (AP).—The OPM contract distribution division announced today the opening of field offices in Fort Wayne, Ind., and Sacramento, Cal., to assist qualified manufacturers to obtain war contracts.

PLASTICS TRADE PUSHES EFFORTS ON WAR GOODS

Production in '41 Shows Big Increase.

The plastics industry is working hand in hand with the army and navy in developing plastic applications to vital war materials, and at the same time is adjusting itself to increased production of nondefense materials, the Society of the Plastics Industry said yesterday.

Plastics already are in use for flight instruments on navy and army fighter planes, and recently the army placed orders for trainer type planes made of plastic plywood. Plastics are being used for combat and observation enclosures for army and navy aircraft, wire insulation, and radio and telephone systems.

Priorities Are Applied.

Because plastics have become vital in war goods production the Office of Production Management has applied priorities regulations to phenol and formaldehyde, essential in the manufacture of plastics.

The industry has developed a product called thermoplastic for use in making combs, buttons, jewelry, portable radio cabinets, and surgical instruments. One of the most important uses is said to be in the making of transparent sheets for aircraft inclosures.

Civilian Uses Curtailed.

Priorities rules also have affected the manufacture of thermoplastic, causing a curtailment in the production of certain nonessential products, but the industry is said to be able to meet the demands of war production.

In 1940 about 80,610,000 pounds of phenol was produced in America. Production for 1941 is estimated at 137 million pounds. Urea formaldehyde produced in 1940 totaled 17,413,256 pounds compared with an estimated 28 million pounds this year.

FARM PRODUCT PRICES ON DEC. 15 NEARED PARITY

Average Rises to 11 Year High Mark.

BY PHILIP WARDEN.

Farmers on Dec. 15 were receiving within 1 per cent of what the government officials believe is an equitable return for farm commodities, grain men said yesterday. At that time the general average of prices received by farmers for all products had reached an 11 year high mark and was within 1 per cent of parity.

Parity prices are those prices which the farmer should receive for his commodities to give him purchasing power equaling that of 1909-'14. Thus as the prices of the products he buys increase, to receive a "parity price," the commodities he has to sell should increase proportionately.

Farmers' Costs Increase.

The estimate of the department of agriculture of parity prices for the major farm commodities gives some indication how the farmer's cost of living has risen in the last three months. Under parity, the farmer would have received the following:

	Dec. 15.	Nov. 15.	Oct. 15.
Wheat, bu........	$ 1.273	$ 1.264	$ 1.246
Corn, bu..........	.924	.918	.905
Oats, bu..........	.575	.571	.563
Rye, bu...........	1.037	1.03	1.015
Hogs, cwt..........	10.40	10.32	10.18

Actually, wheat, corn, rye, and some of the other important crops were selling substantially below these levels. Wheat, for example, was returning the farmers an average price of $1.022 a bushel, or only 80 per cent of the parity rate. Corn at 66.9 cents a bushel, was 72 per cent of the parity rate.

In Chicago Saturday wheat was selling around $1.27 a bushel, corn at 82 cents, oats 58¾ cents, rye 77 cents, and hogs at $11 per hundredweight. But from these prices the farmer must deduct selling costs, freight, and other charges. On Dec. 15, wheat was near $1.28; corn, 80 cents; oats, 57 cents; rye, 68 cents, and hogs, $11.

Hint of 1942 Income.

The rise in the parity price gives some indication of probable farm income in 1942, and a broad hint that consumer costs will increase. Last week President Roosevelt signed a bill that provides the department of agriculture with the authority to lend farmers up to 85 per cent of these parity prices to support farm commodity markets. Land conservation allotments, and other government payments are expected to bring the farmer's return to parity.

Price control legislation appears likely to provide that no ceilings shall be placed on farm commodities below 110 per cent or parity. Secretary of Agriculture Claude Wickard told the senate banking committee preparing the bill that in some instances 110 per cent of parity might not offer the farmer sufficient inducement to step up his production of certain products to meet wartime requirements.

AIR REDUCTION.

What information can you give me on Air Reduction? The stock is listed on the New York Stock exchange. How does this company rank in the industry?—C. B.

Answer: The manufacture of oxygen and acetylene and the equipment with which these gases are used to cut and weld metals accounts for about 75 per cent of the revenues of Air Reduction Co., Inc. This business approximates that of Union Carbide and Carbon corporation. The two companies combined produce most of the industrial gases sold in the United States.

Air Reduction is the largest producer of liquid and solid carbon dioxide [dry ice]. Other manufactures include carbonic gas used in soft drinks and rare gases such as neon and helium. Oxy-acetylene gas is used extensively in the steel, railroad, shipbuilding, automobile and construction industries. Air Reduction is affiliated with U. S. Industrial Alcohol company and last year acquired a substantial investment interest in Vanadium Corporation of America.

The company operates 141 plants and owns nearly 600 warehouses for the distribution of its products. The main office is in New York City. The company was incorporated in 1915.

Profits have been consistent and have increased in the last four years. Results for years ended Dec. 31 follow:

	Net sales.	Net income.	Per share.
1940	$36,387,716	$6,446,680	$2.38
1939	27,613,420	5,076,825	1.98
1938	23,724,876	3,769,337	1.47
1937	30,798,546	7,326,835	2.86
1936	27,833,880	7,064,553	2.79

In the nine months thru September, 1941, net income was $5,234,802, equal to $1.93 a share, compared with $4,801,469, or $1.77, in the same period the preceding year. Sales for the three quarters were $38,918,847, compared with $26,057,860 in 1940.

Air Reduction's only capitalization is 2,715,137 shares of no par common stock outstanding. Dividends have been paid regularly. In 1941, payments totaled $2 a share and included four quarterly dividends and four extras of 25 cents each. This compared with $1.75 in 1940 and $1.50 each year in 1939 and 1938.

At the end of 1940, total assets exceeded $50,000,000. The company had a strong current position. Current assets were $22,455,000 against current liabilities of $6,275,000.

VAST WAR WORK TO BE OFFERED AUTO INDUSTRY

5 Billions in Contracts Is OPM Proposal.

[Continued from page 25, column 6.]

troit, reviewed its contribution to armament production thus far and declared that attacks on the industry's war work "are designed to create a division so that certain groups may obtain control of the productive machinery of the United States."

"The plans of certain labor leaders," the association said, "constitute a design to transfer management of the automotive industry from the men who know how to make things to those who have no training or qualifications for the responsibility.

Assail Sitdowners.

"The men who led the original sitdown strikes, who tolerated and encouraged not scores but hundreds of sitdowns, slowdowns, and other forms of production sabotage, now propose that they are the capable ones to guide the gretest single, behind the lines responsibility—production for war."

The association's move apparently was a reply to charges made by the Congress of Industrial Organizations in newspaper advertisments published in Washington and New York yesterday morning, that the industry had failed to enter all-out war production despite labor's urging. The CIO also criticized the OPM for failure to act on the plan submitted more than a year ago by Walter P. Reuther and others of the CIO United Automobile Workers' union for utilizing available machinery in automotive plants for airplane production and said that the proposals would be submitted again at tomorrow's conference.

Chrysler Gets Tank Orders.

Detroit, Mich., Jan. 4 (AP).—K. T. Keller, president of Chrysler corporation, announced today he had been asked by the war department to triple the Chrysler tank capacity and to double the Chrysler production of anti-aircraft guns.

"The government has asked us to do this as quickly as possible," Keller said. "We of the Chrysler corporation told the government we are willing and anxious to do it."

Washington authorities said the new tank production order would give employment to 12,000 more workmen and an additional 10,000 will be employed on the manufacture of the guns.

Chrysler's engineering and mechanical divisions were ordered immediately to go to work on a 24 hour, 7 day week basis to get the war department's new orders into effect.

Keller also disclosed that the Chrysler plant at Evansville, Ind., has "received a large defense order" which will provide for the employment of its 1,200 workmen and the use of most of its 400,000 foot floor space.

STEAMSHIP CHARTER, CARGO RATES CUT TO 'REASONABLE LEVELS'

Washington, D. C., Jan. 4 (AP).—Reductions in steamship charter and cargo rates, effective Jan. 20, were announced today by the maritime commission. The reductions, the commission said, were in accordance with its policy of keeping charter and cargo rates "at as reasonable level as possible."

The new scale of charter rates for all types of vessels is based on $3.25 per deadweight ton per month on 10 knot vessels of 10,000 deadweight tons or more, with a range up to $6.50 per deadweight tons on vessels of 1,000 to 1,499 deadweight tons.

In order to have freight rates conform approximately with charter rates, ocean freight rates were ordered adjusted to the level as of Sept. 1, 1940. A surcharge to cover increased operating expenses may be added to these rates if approved by the commission.

CHICAGO STOCK TRADE IN WEEK MUCH HEAVIER

The volume of trading on the Chicago Stock exchange last week was 400,000 shares, compared with 296,000 shares in the preceding week and 137,000 shares in the corresponding week in 1941.

During the week 238 issues were traded, of which 162 advanced, 51 declined, and 25 remained unchanged. A week earlier 229 issues were traded, of which 58 advanced, 135 declined, 35 remained unchanged, and one was a new issue.

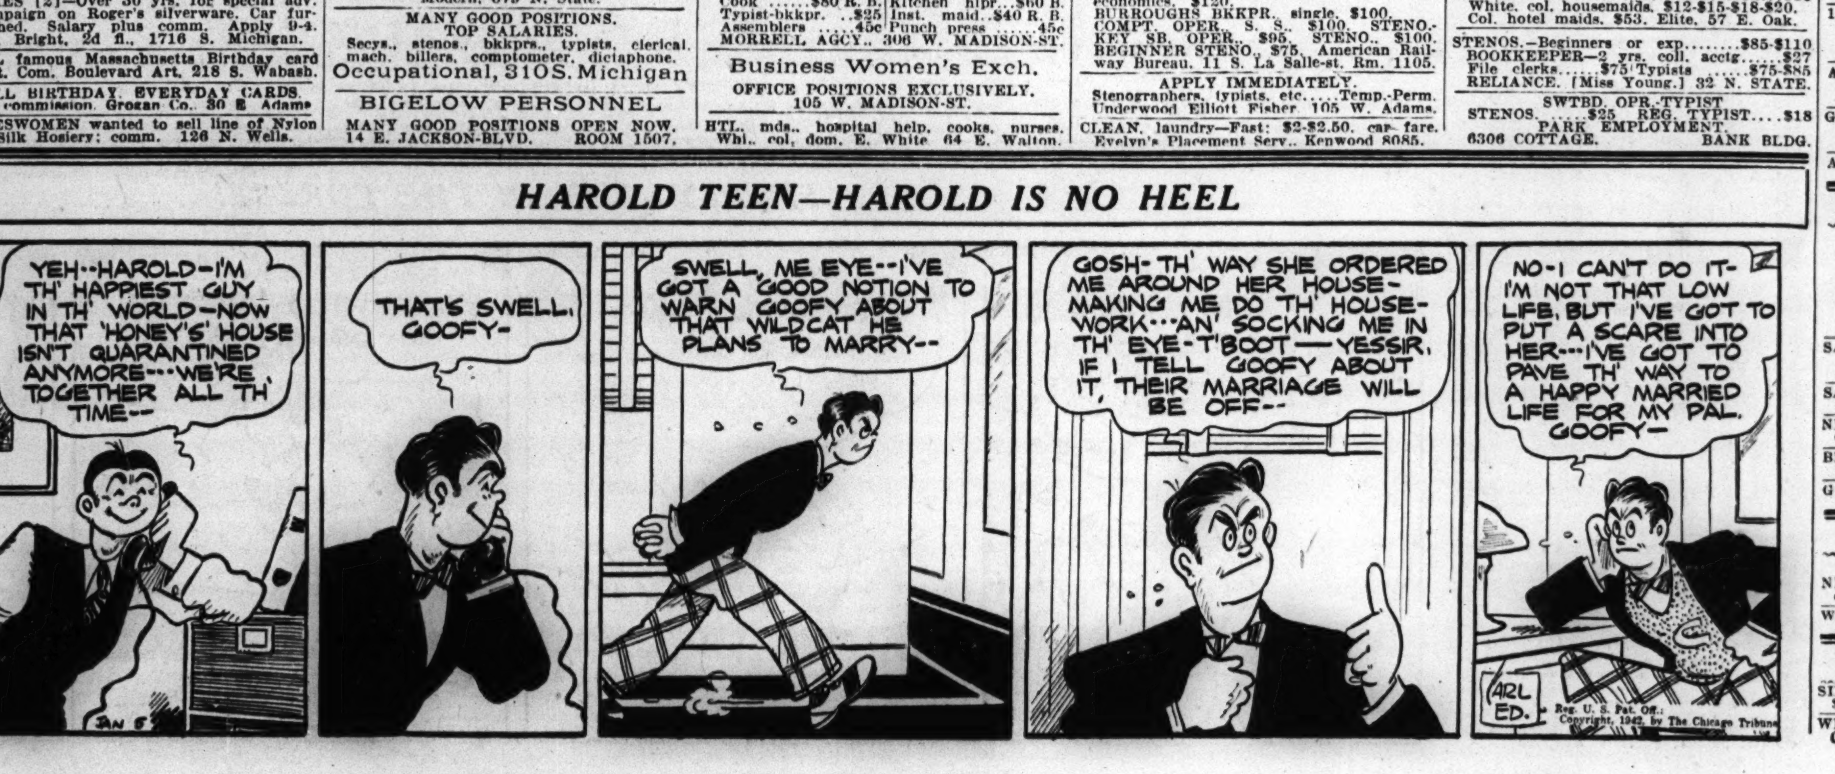
HAROLD TEEN—HAROLD IS NO HEEL



YEH--HAROLD--I'M TH' HAPPIEST GUY IN TH' WORLD—NOW THAT 'HONEY'S' HOUSE ISN'T QUARANTINED ANYMORE---WE'RE TOGETHER ALL TH' TIME--
THAT'S SWELL, GOOFY-
SWELL, ME EYE--I'VE GOT A GOOD NOTION TO WARN GOOFY ABOUT THAT WILDCAT HE PLANS TO MARRY--
GOSH-TH' WAY SHE ORDERED ME AROUND HER HOUSE-MAKING ME DO TH' HOUSE-WORK---AN' SOCKING ME IN TH' EYE-T'BOOT—YESSIR, IF I TELL GOOFY ABOUT IT, THEIR MARRIAGE WILL BE OFF--
NO-I CAN'T DO IT-I'M NOT THAT LOW LIFE, BUT I'VE GOT TO PUT A SCARE INTO HER---I'VE GOT TO PAVE TH' WAY TO A HAPPY MARRIED LIFE FOR MY PAL, GOOFY-

LEGAL NOTICES.

STATE OF ILLINOIS,
DEPARTMENT OF PUBLIC WORKS AND BUILDINGS,
SPRINGFIELD, ILLINOIS.

Notice is hereby given that sealed proposals will be received at the office of the Department of Public Works and Buildings, Springfield, Illinois, until ten o'clock A. M., Tuesday, January 6, 1942, for Portland cement required during the period from January 15, 1942, to December 31, 1942, for use on certain highway, bridge, or culvert projects which are to be built by or under the direction of the Department of Public Works and Buildings, Division of Highways.

The figures shown in the proposal under "Estimated Amount of Cement Required" are approximate only, and the Department assumes no obligation to use the entire quantity therein designated or any definite amount of cement, and furthermore reserves the right to purchase only such amounts of cement as may be required for its specific needs during the time above specified.

Proposals must be made on forms provided.

Bids will be accepted from manufacturers of Portland cement only.

The Department of Public Works and Buildings reserves the right to reject any or all proposals.

Proposal forms and full information may be obtained by writing direct to the Department of Public Works and Buildings, Springfield, Illinois.

This is a new war map in color showing, among other Asiatic regions, those territories directly involved in Japan's determined thrust at Singapore, Great Britain's great military base at the tip of the Malay peninsula. Readers are advised to retain this map as an aid in following the progress of the world conflict, which now threatens to engulf Burma, the western doorway to China, and the eastern doorway to India, most populous of all British territory.

(A color map of the commonwealth of Australia will appear on the back page of all editions of tomorrow's Tribune.)
